

Introducing *Cartiva*

A modern, fully responsive online store — products, cart, wishlist, accounts and checkout, powered by Firebase.

ABOUT THE PROJECT

What is Cartiva?

Cartiva is a modern, fully responsive e-commerce website that delivers a smooth shopping experience across desktop, tablet and mobile. Users can browse products, search and filter, manage their cart and wishlist, create an account, place orders and review their order history.

Firebase Authentication and Cloud Firestore power accounts and data, while the interface — built with HTML, CSS, JavaScript and Bootstrap — focuses on clean navigation, fast product browsing and a polished shopping experience.

The *Home* page

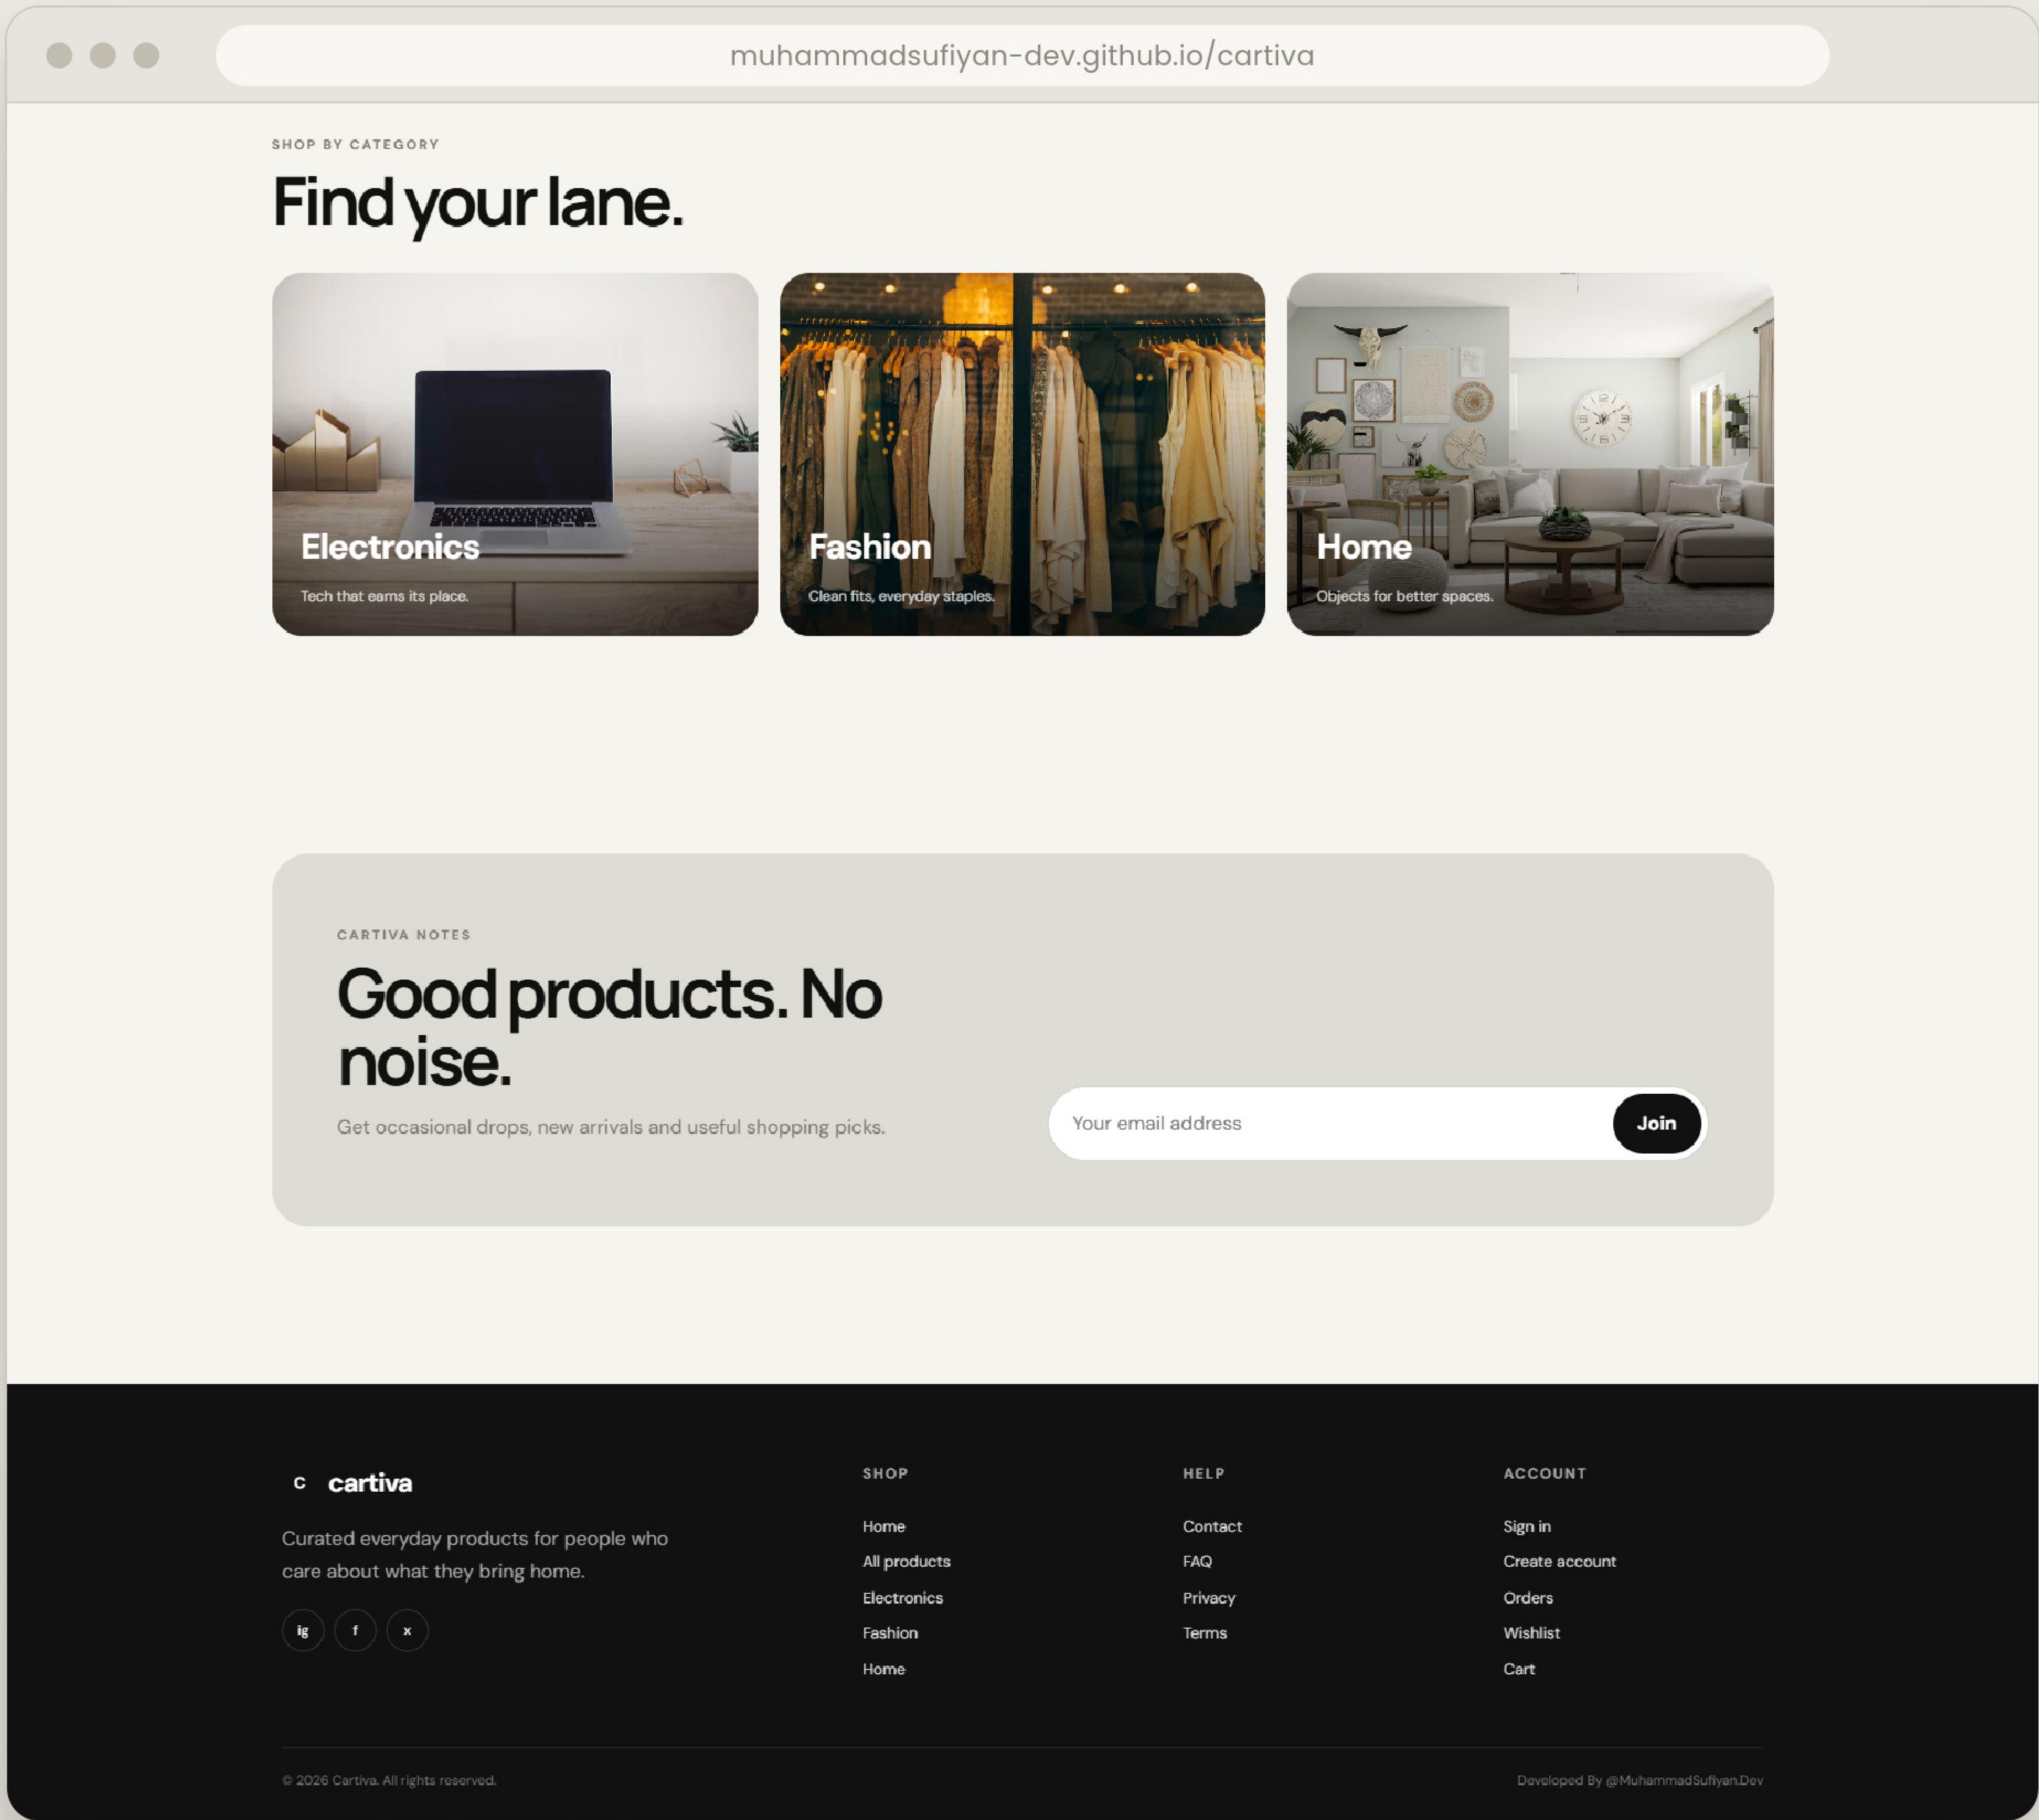

A bold hero with clear calls to action, a shipping & returns announcement bar, global search — and a “Popular right now” grid with badges, ratings and prices.

01

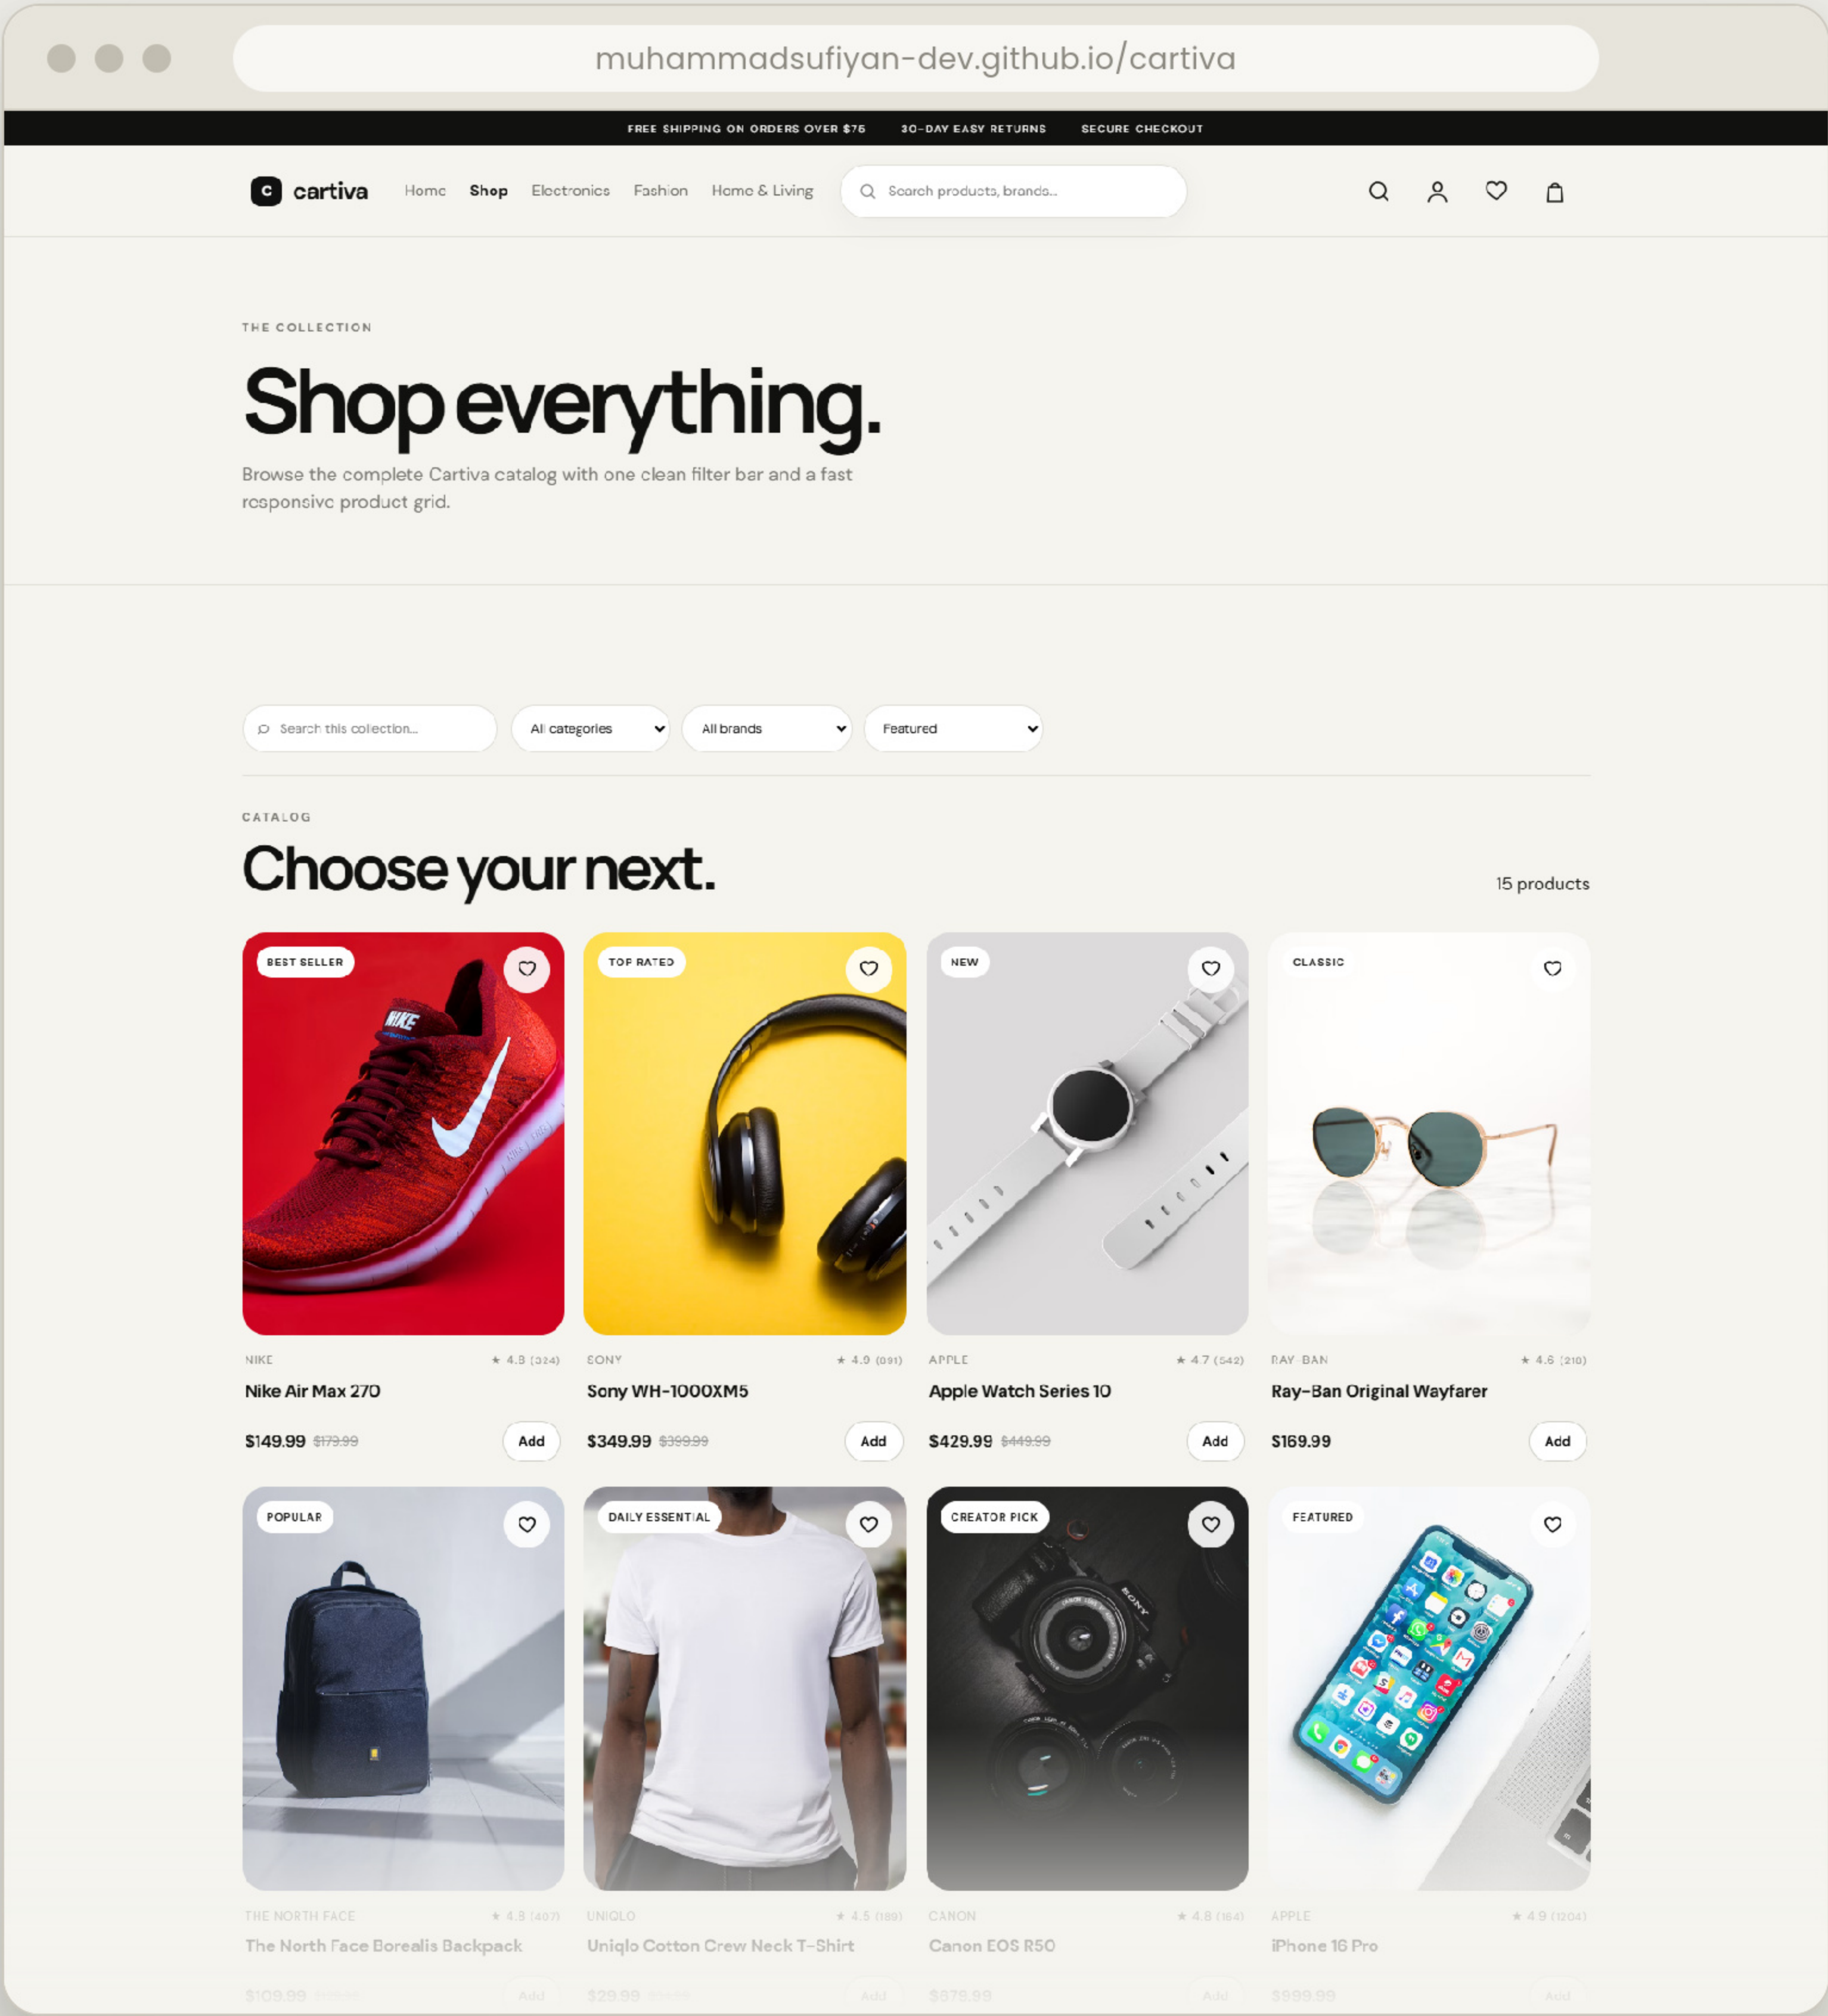

Shop by category

Visual category cards lead into Electronics, Fashion and Home, followed by a newsletter signup and a full footer with shop, help and account links.

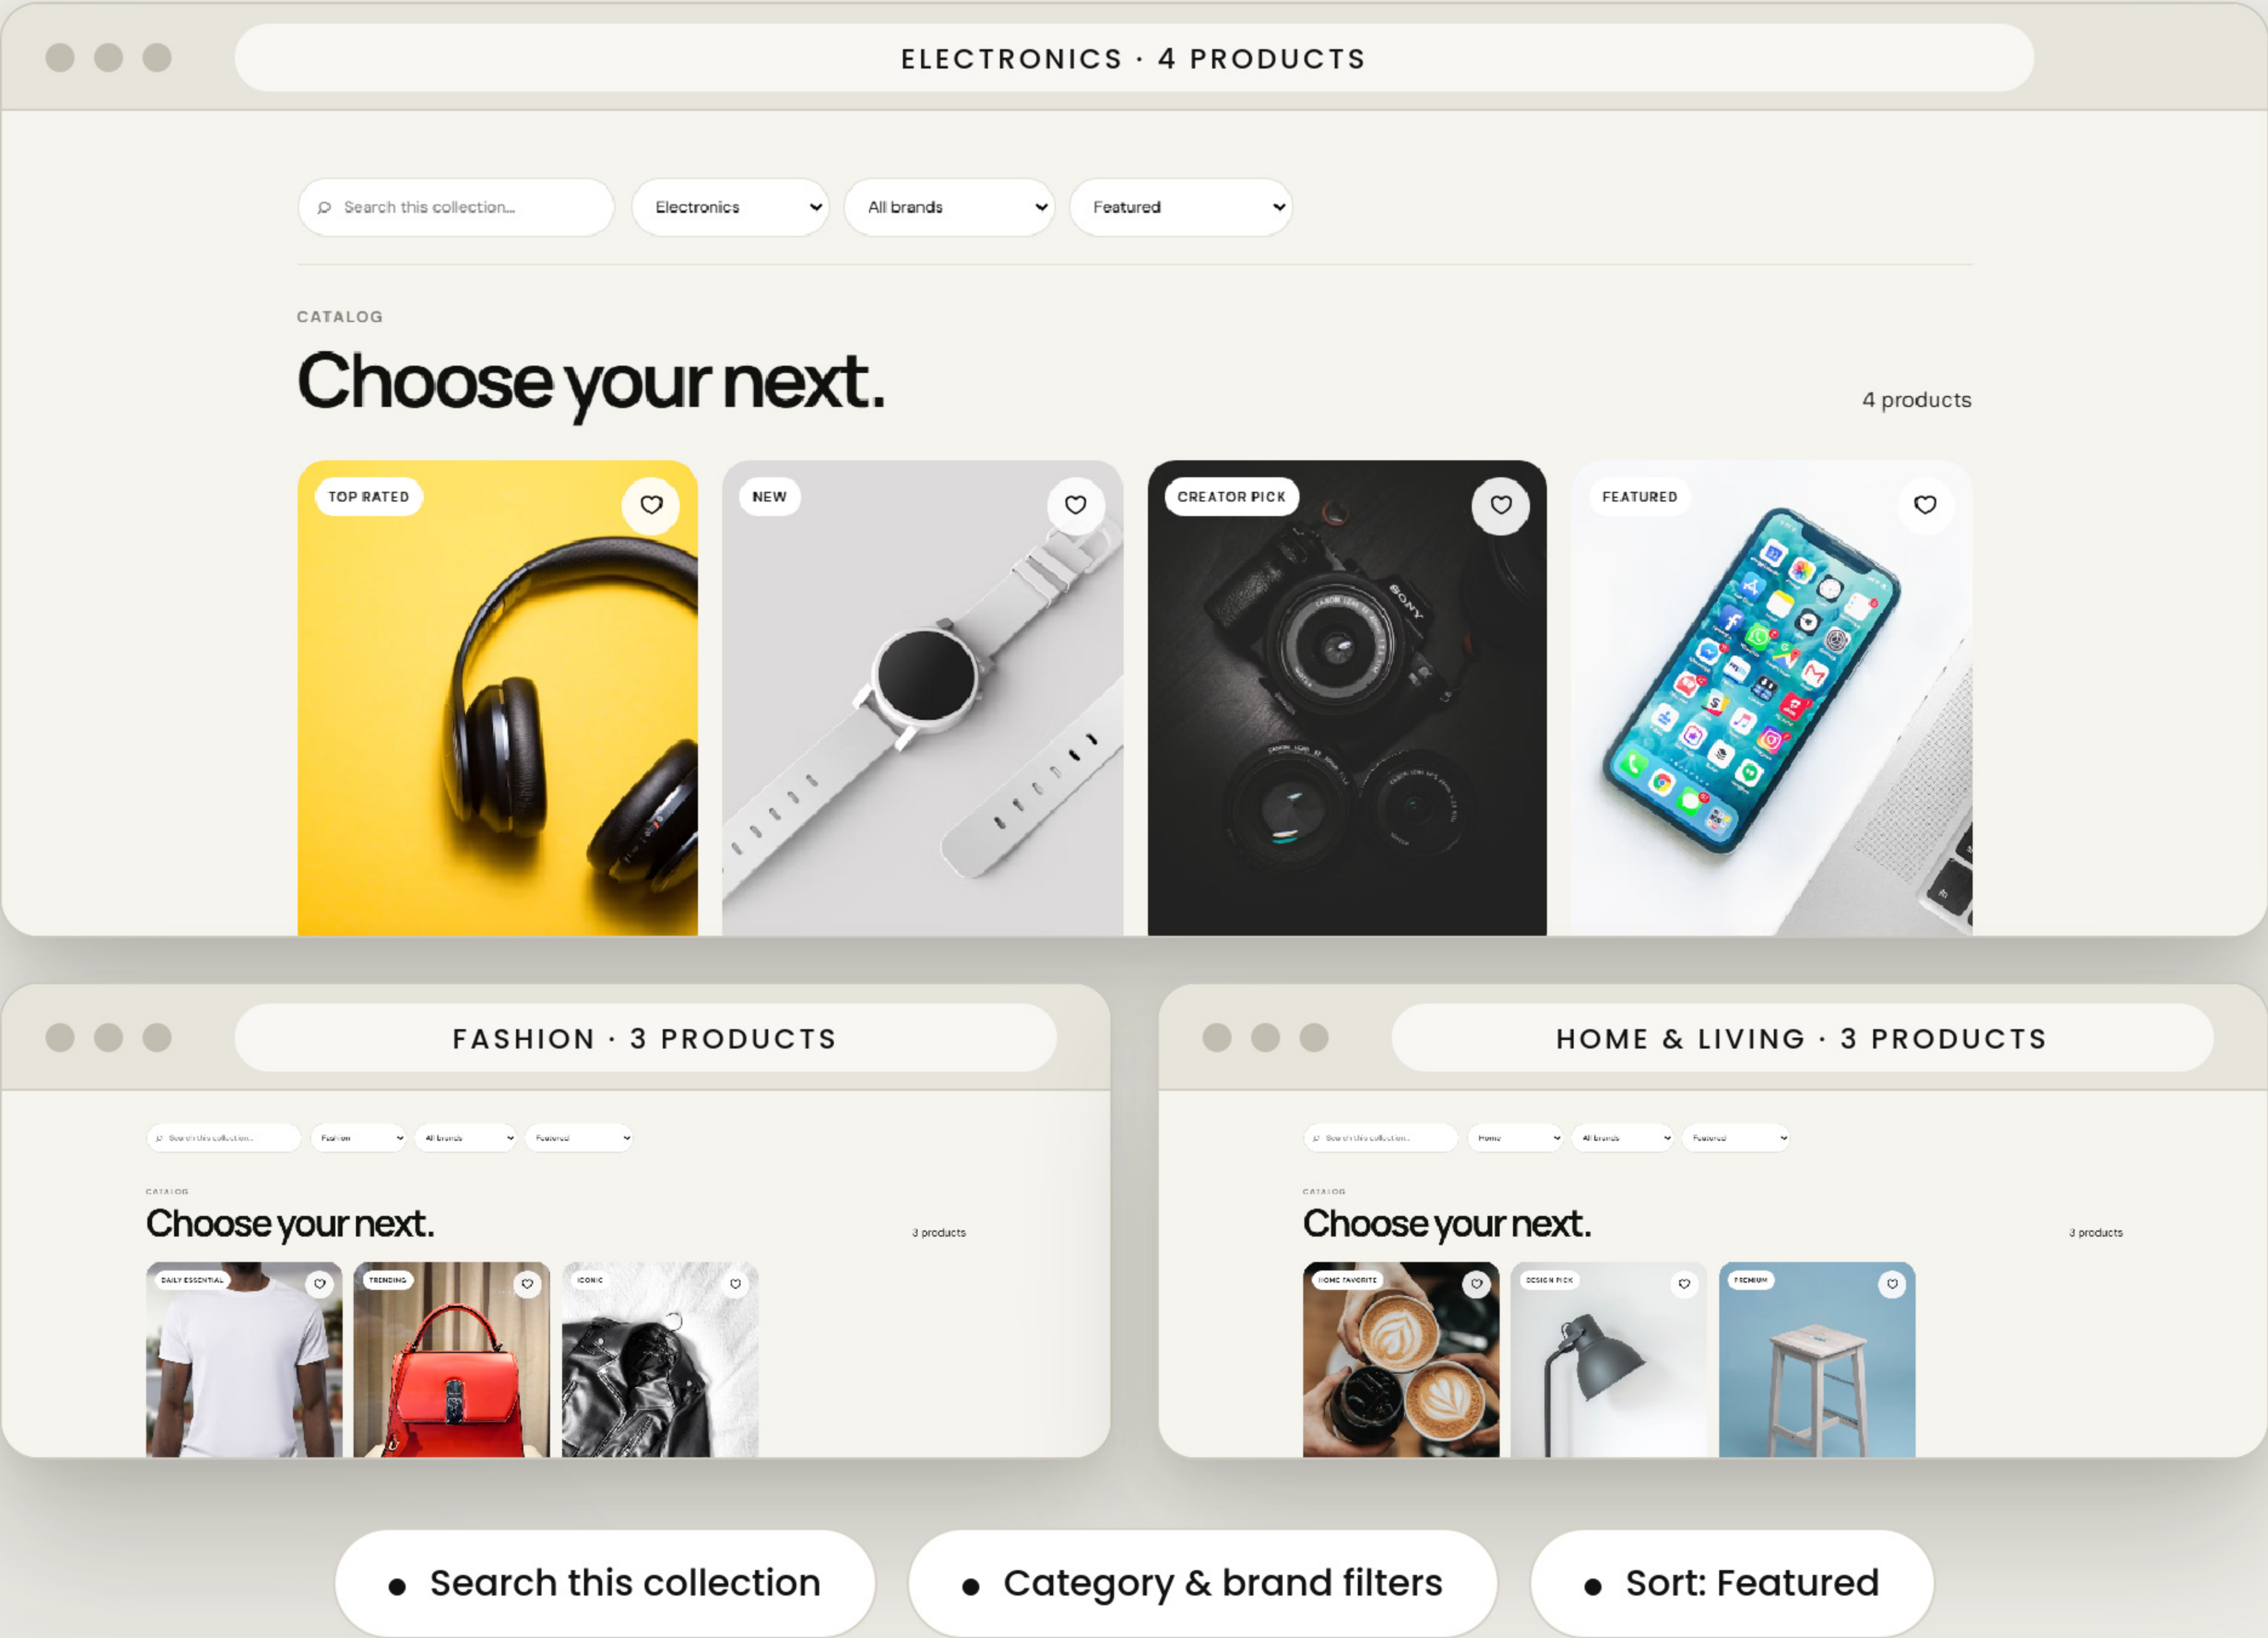

Shop everything.

The complete catalog with one clean filter bar — search, category, brand and sort — and a fast, responsive grid of 15 products with ratings and discounts.

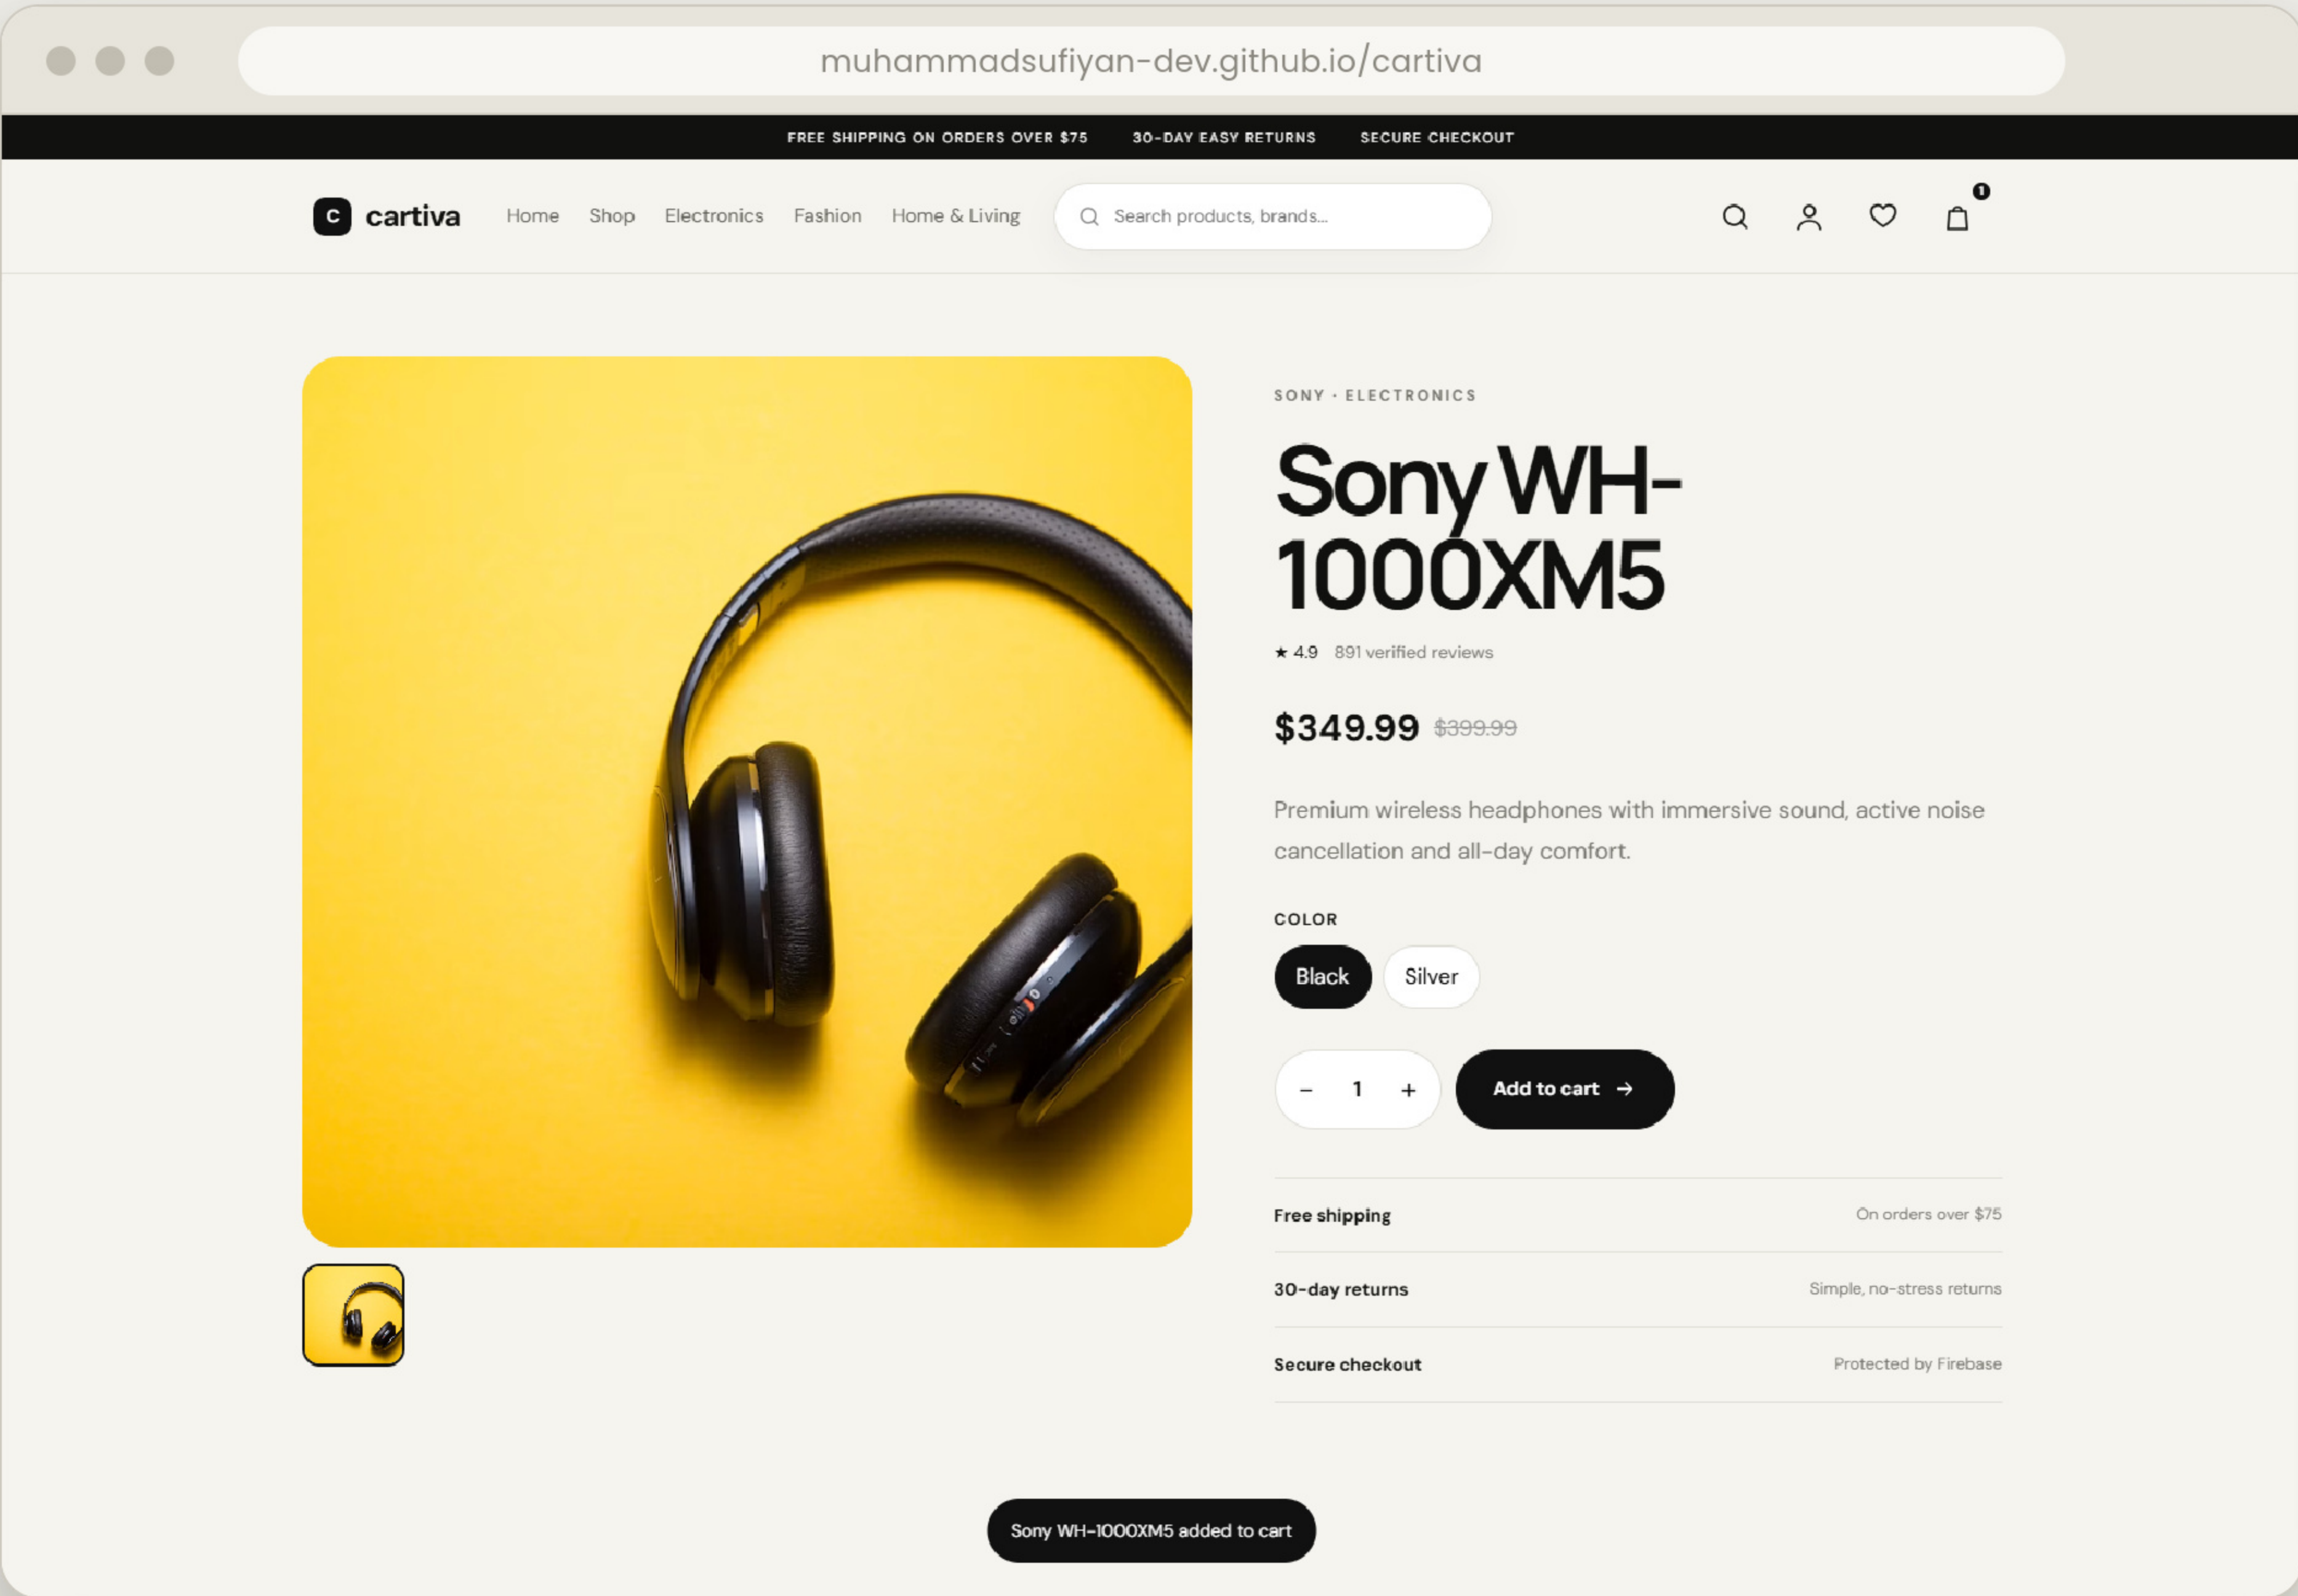

Smart category filters

Switch between Electronics, Fashion and Home & Living — each category instantly refreshes the product grid and the product count.

Product *details*

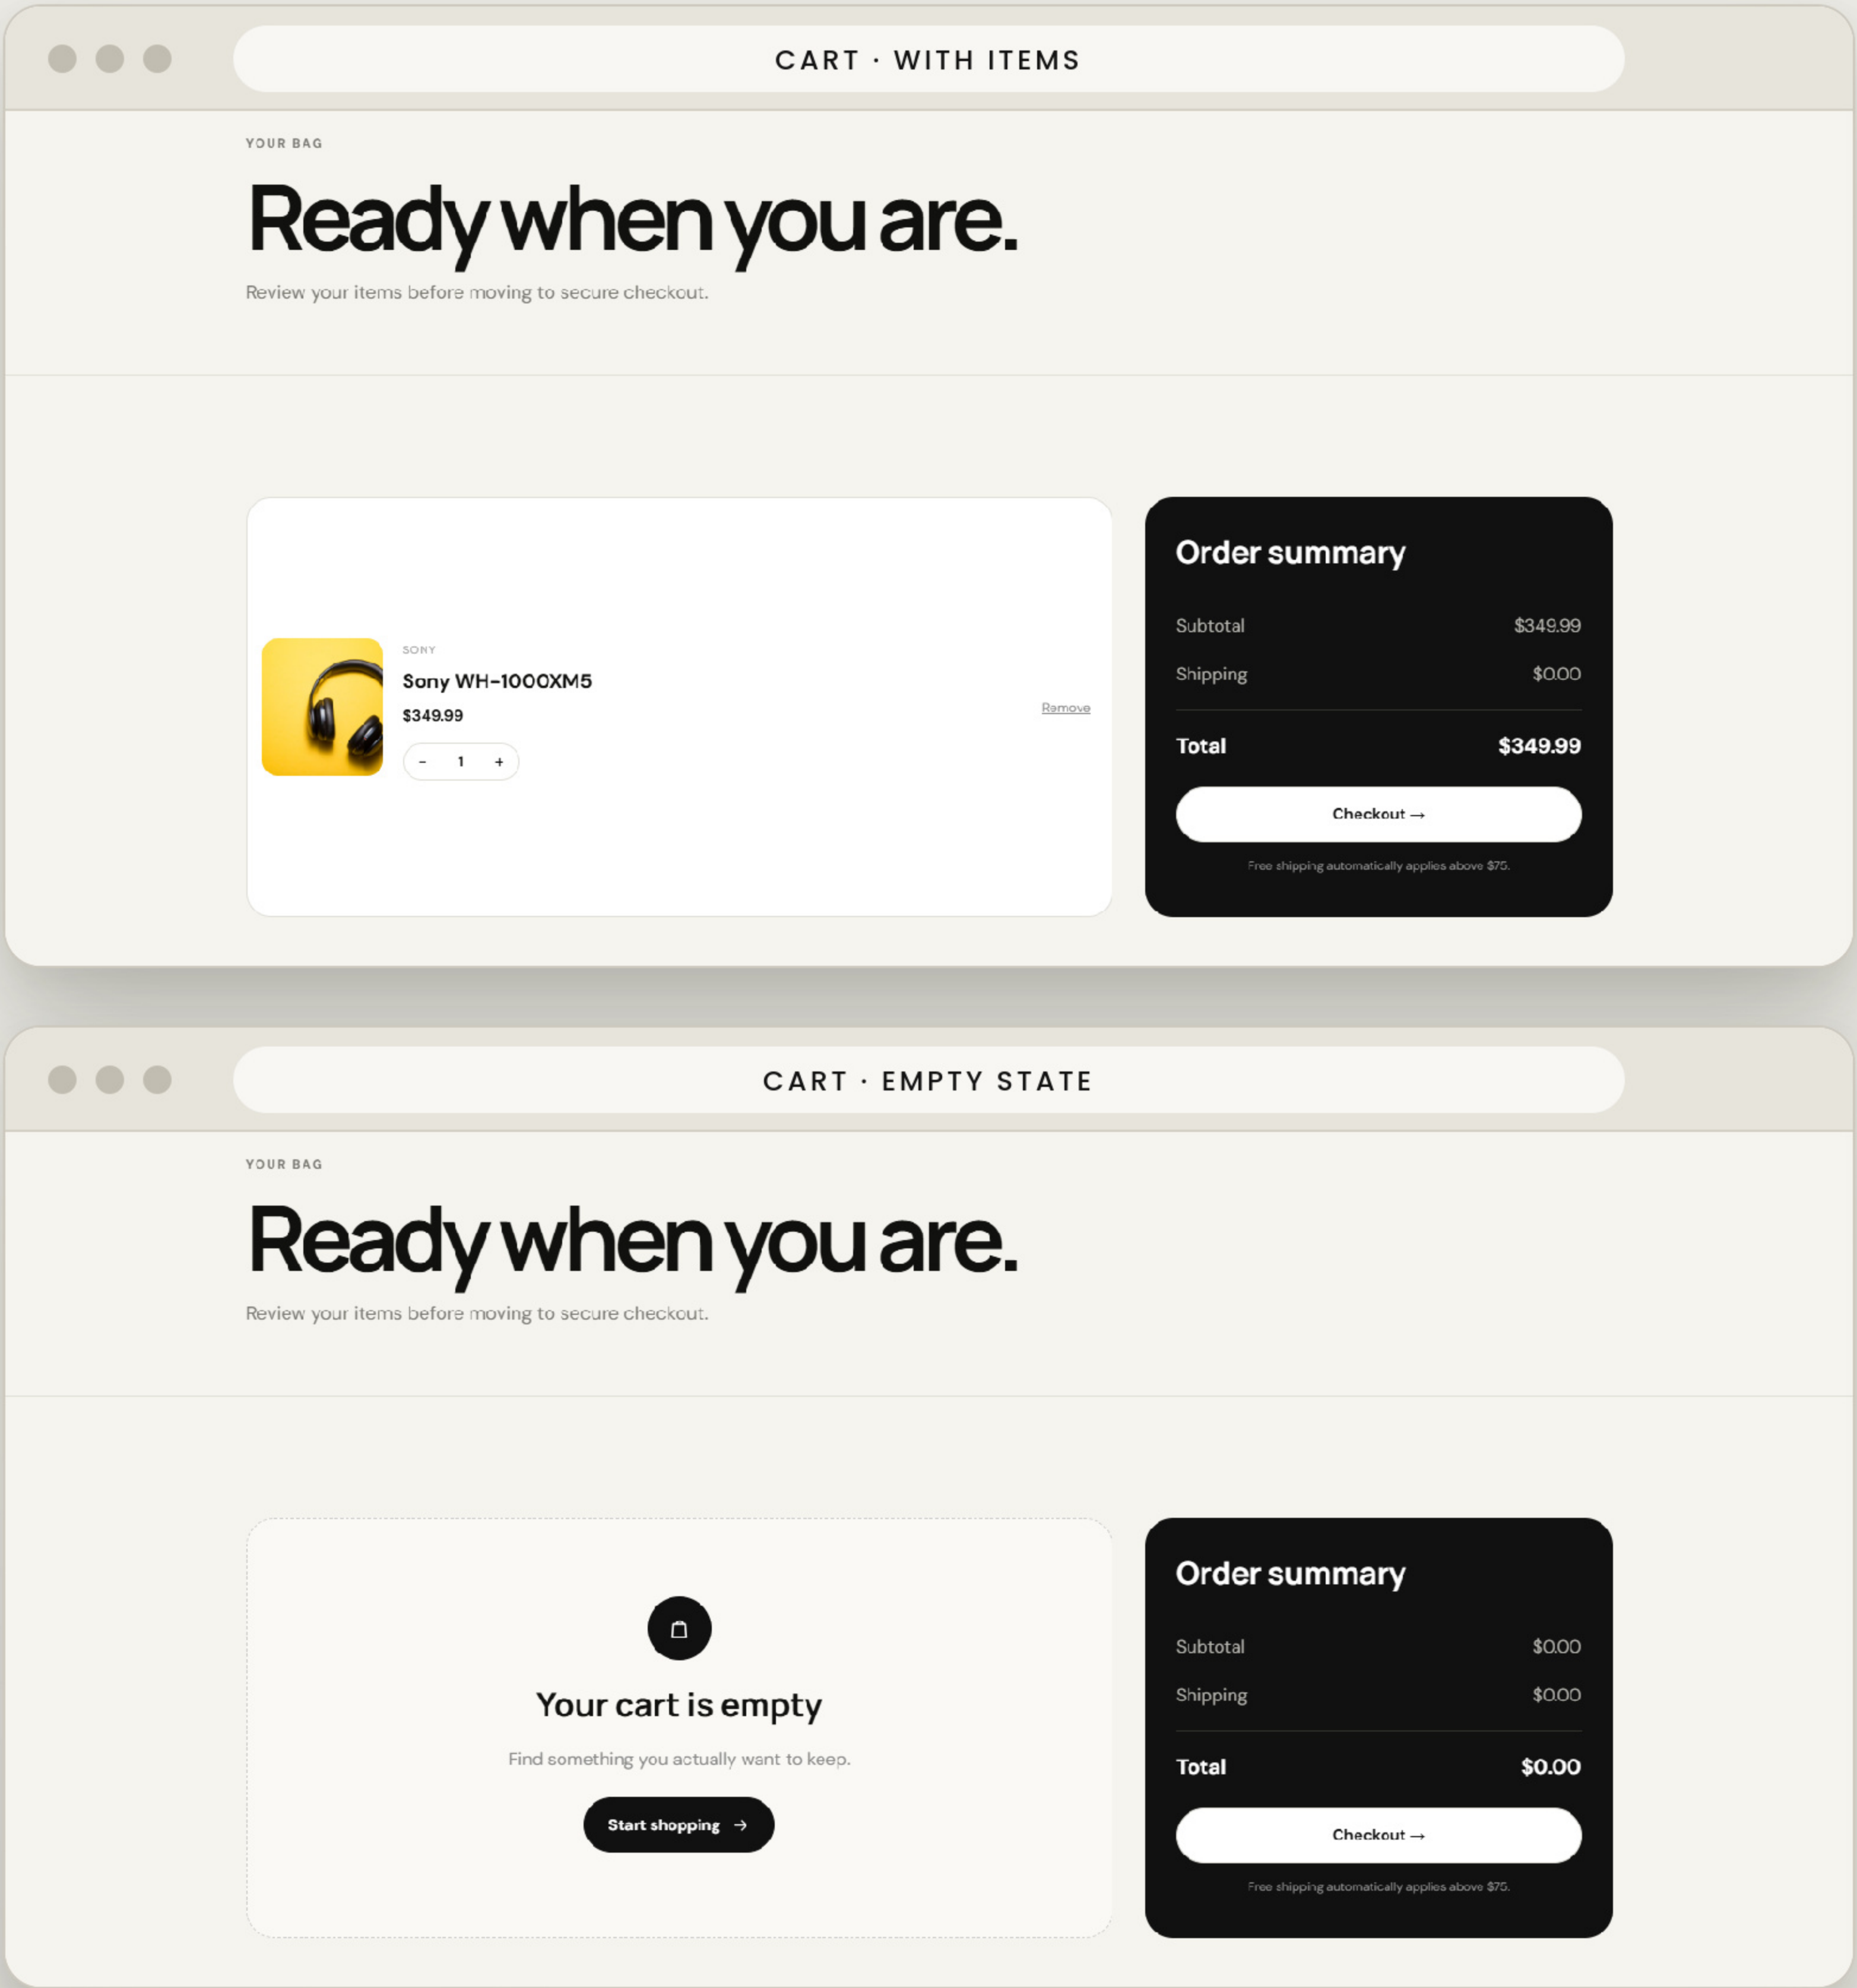

A focused product page: large gallery, rating and verified reviews, discounted pricing, color options, quantity selector and Add to cart — with shipping, returns and secure-checkout info.

- 4.9 rating · 891 verified reviews
- Color & quantity options
- Free shipping · 30-day returns

Shopping *cart*

Review items, change quantities or remove them, and watch a live order summary — free shipping applies automatically above \$75, with a friendly empty state.

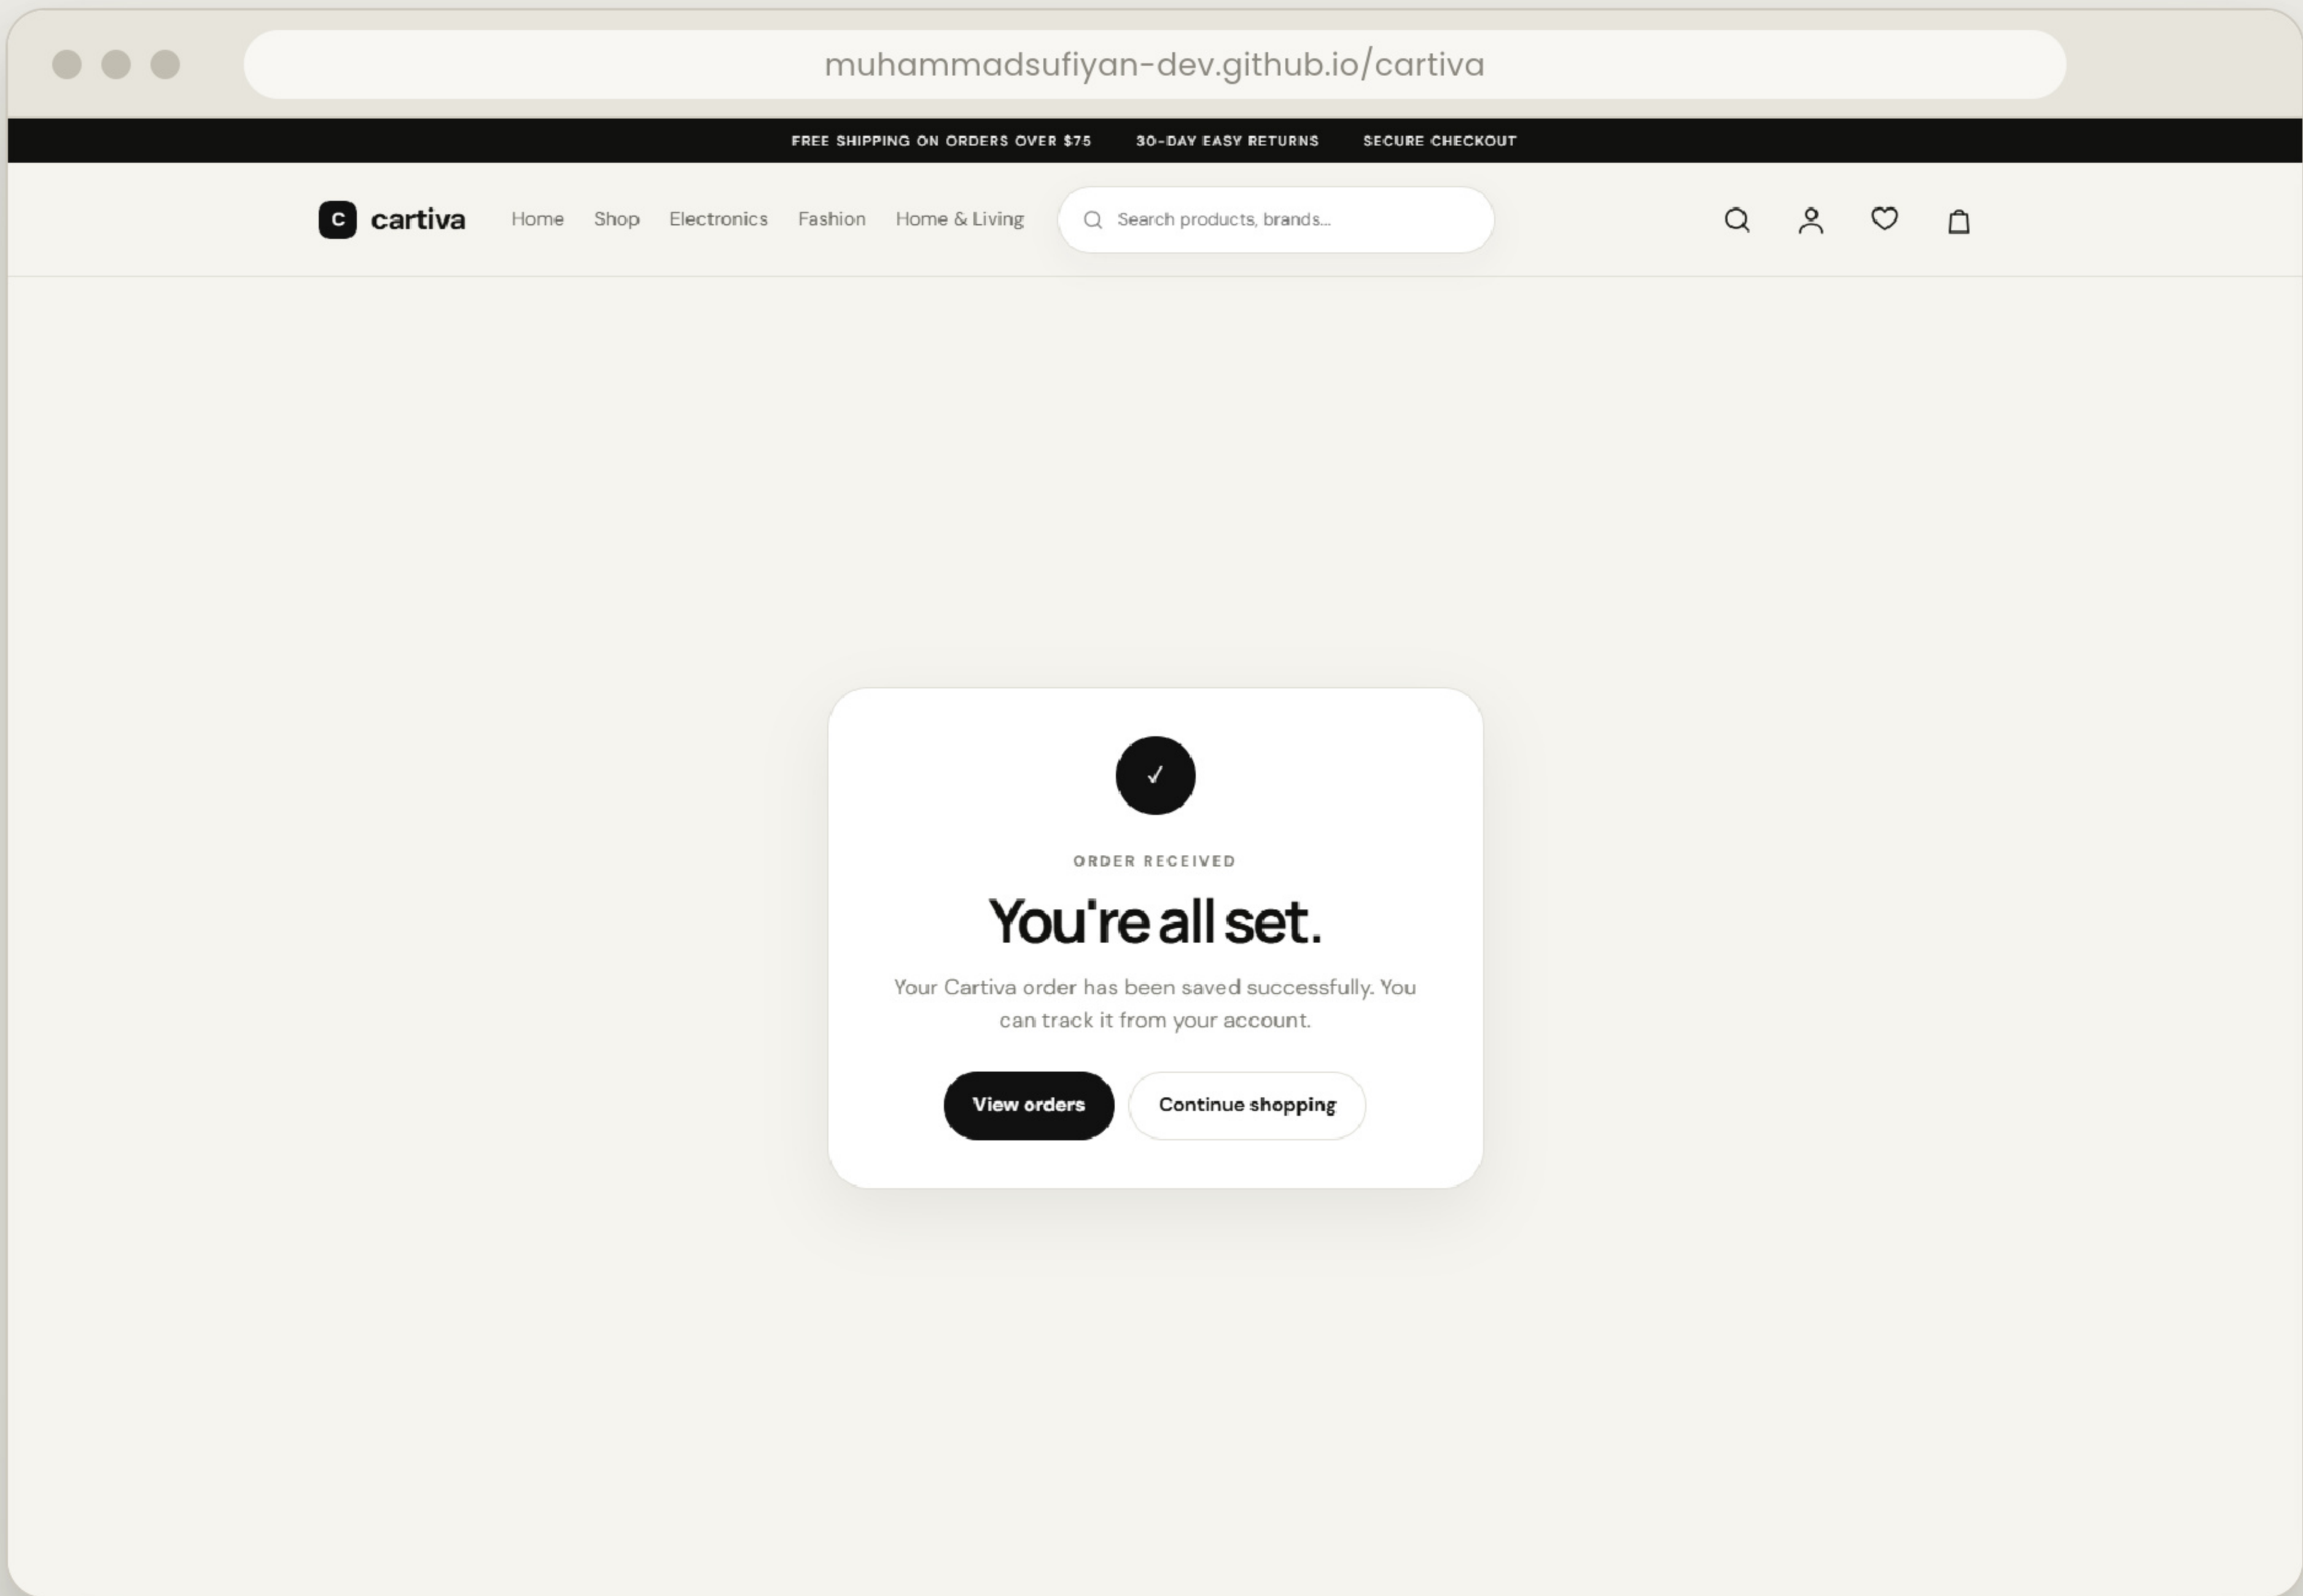

A simple delivery details form, a country selector and Cash on Delivery — with online payment marked “coming soon”, ready for a secure gateway later.

- @MuhammadSufiyan

Order confirmed

A clear confirmation that the order was saved, with quick links to view orders or keep shopping.

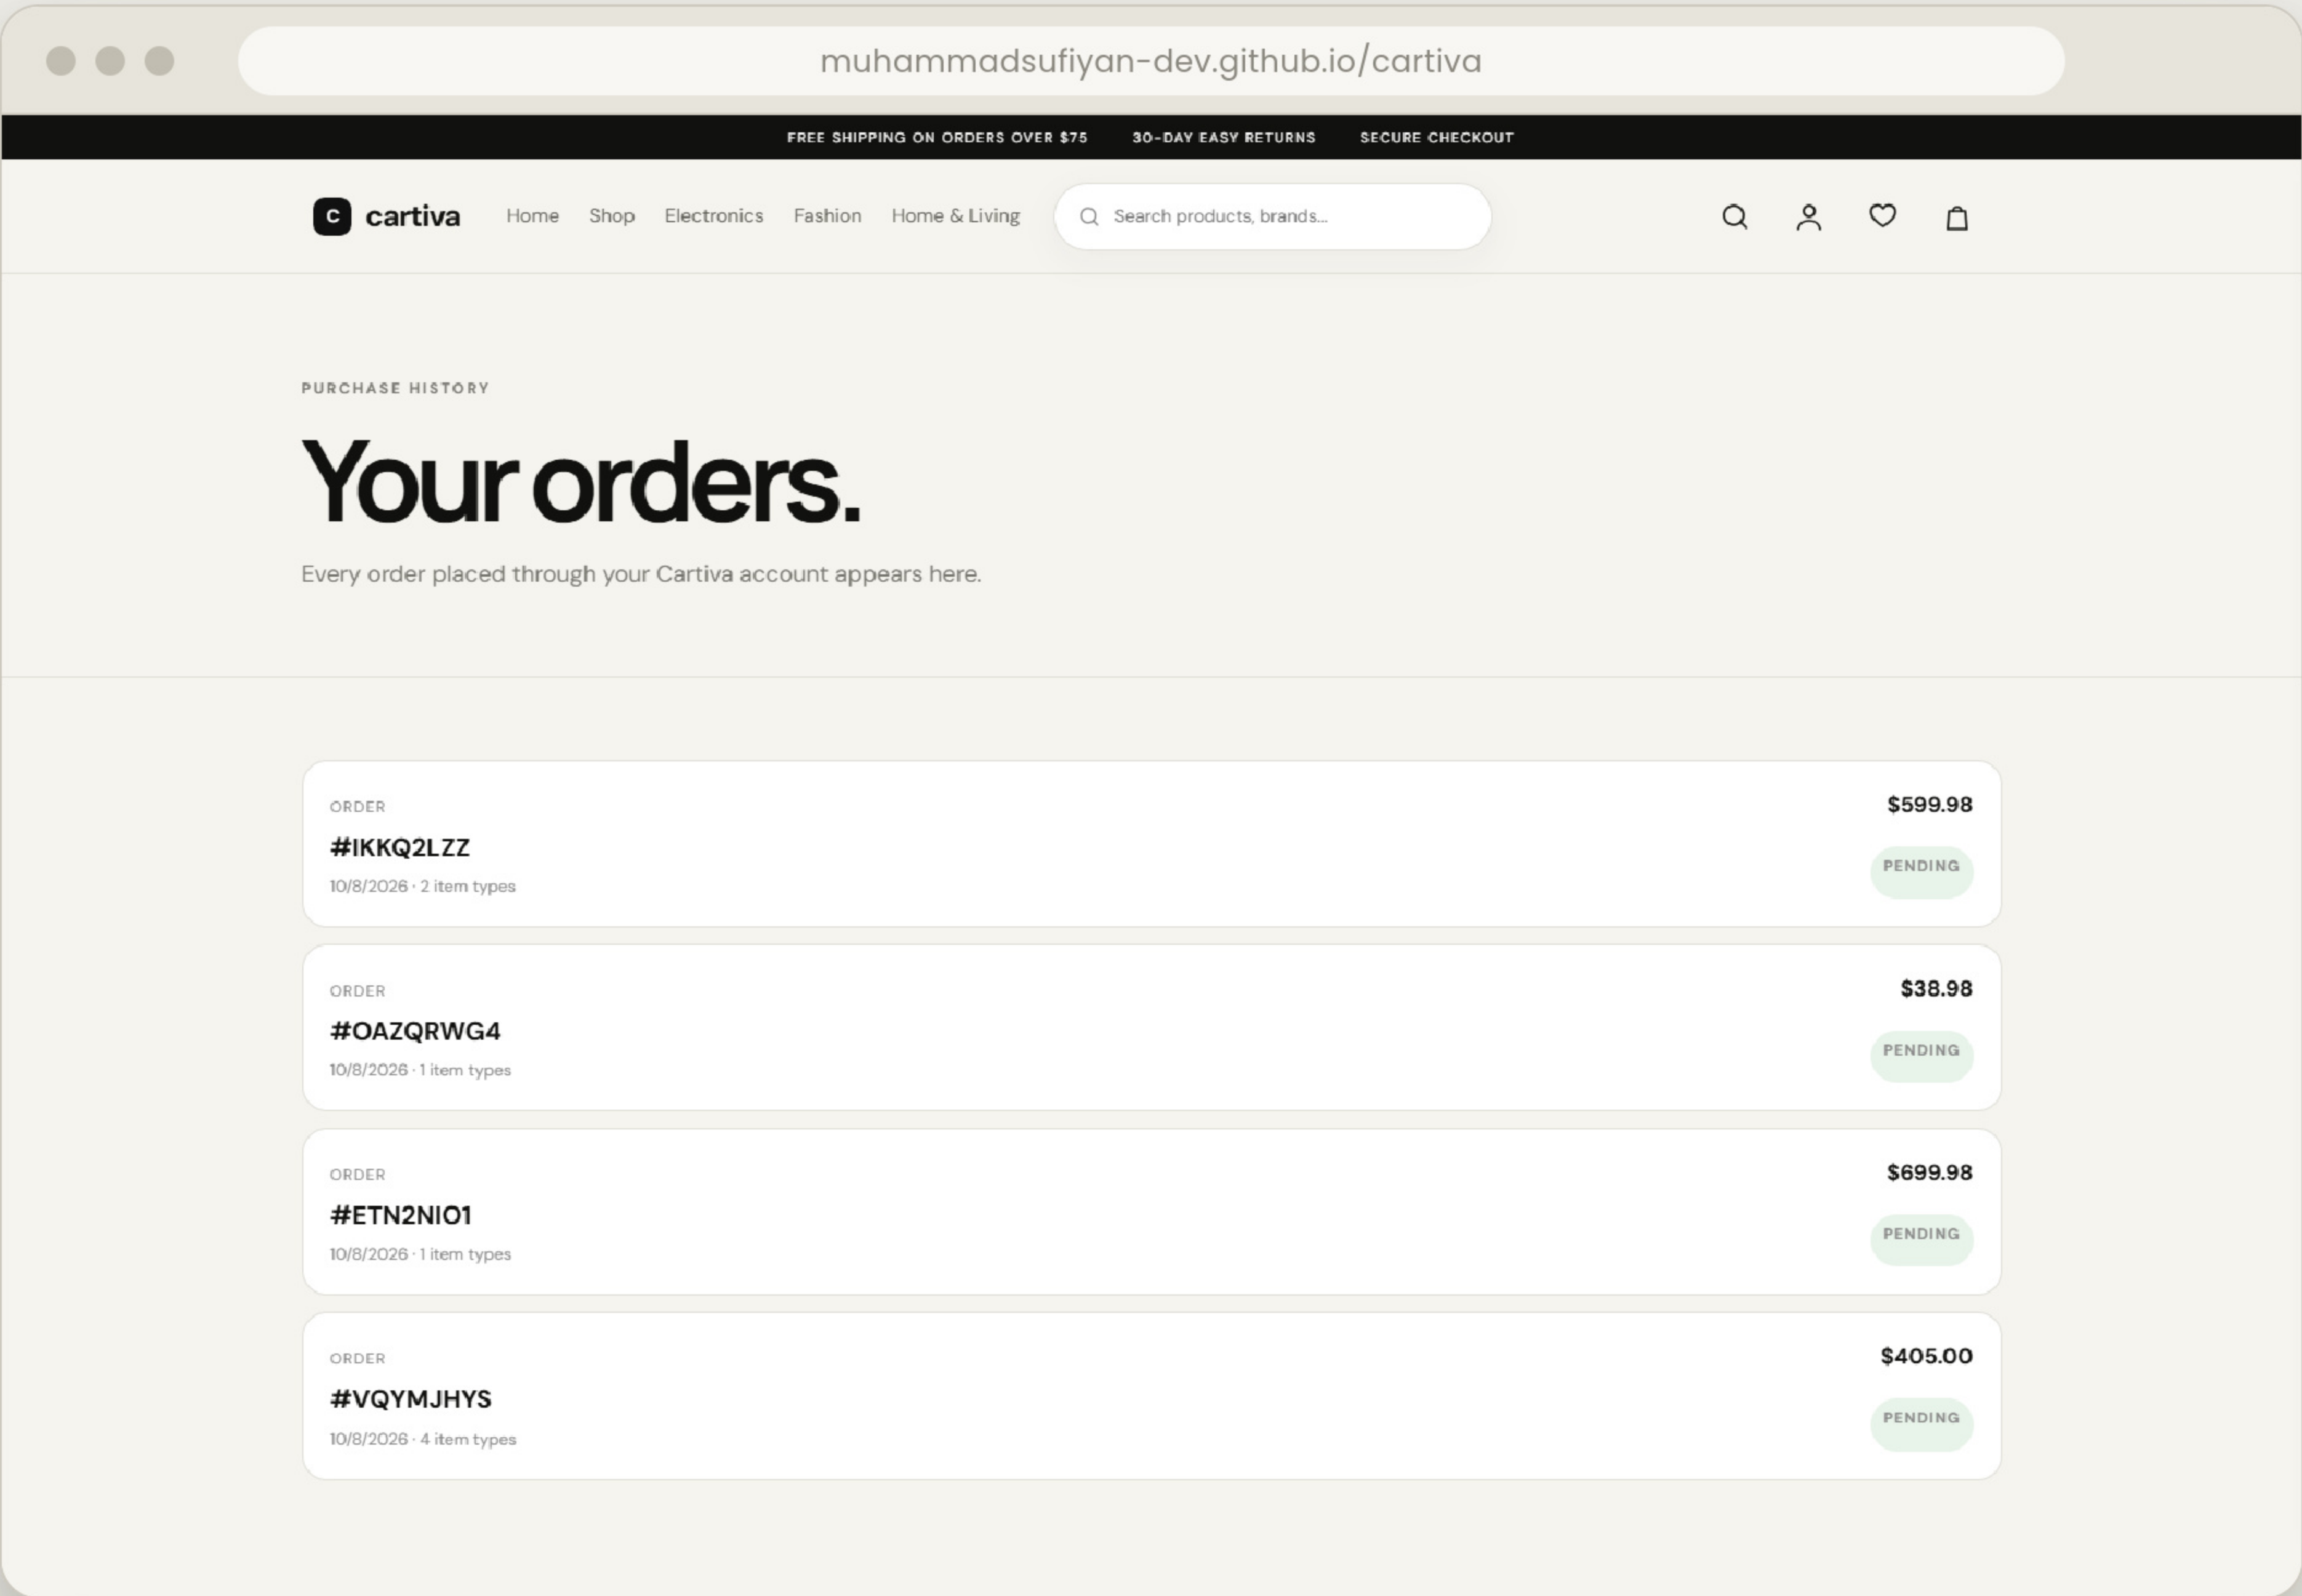

● Order saved confirmation

● Track it from your account

● View orders · Continue shopping

Order *history*

Every order placed through the account appears here — with order ID, date, item count, total and a status badge.

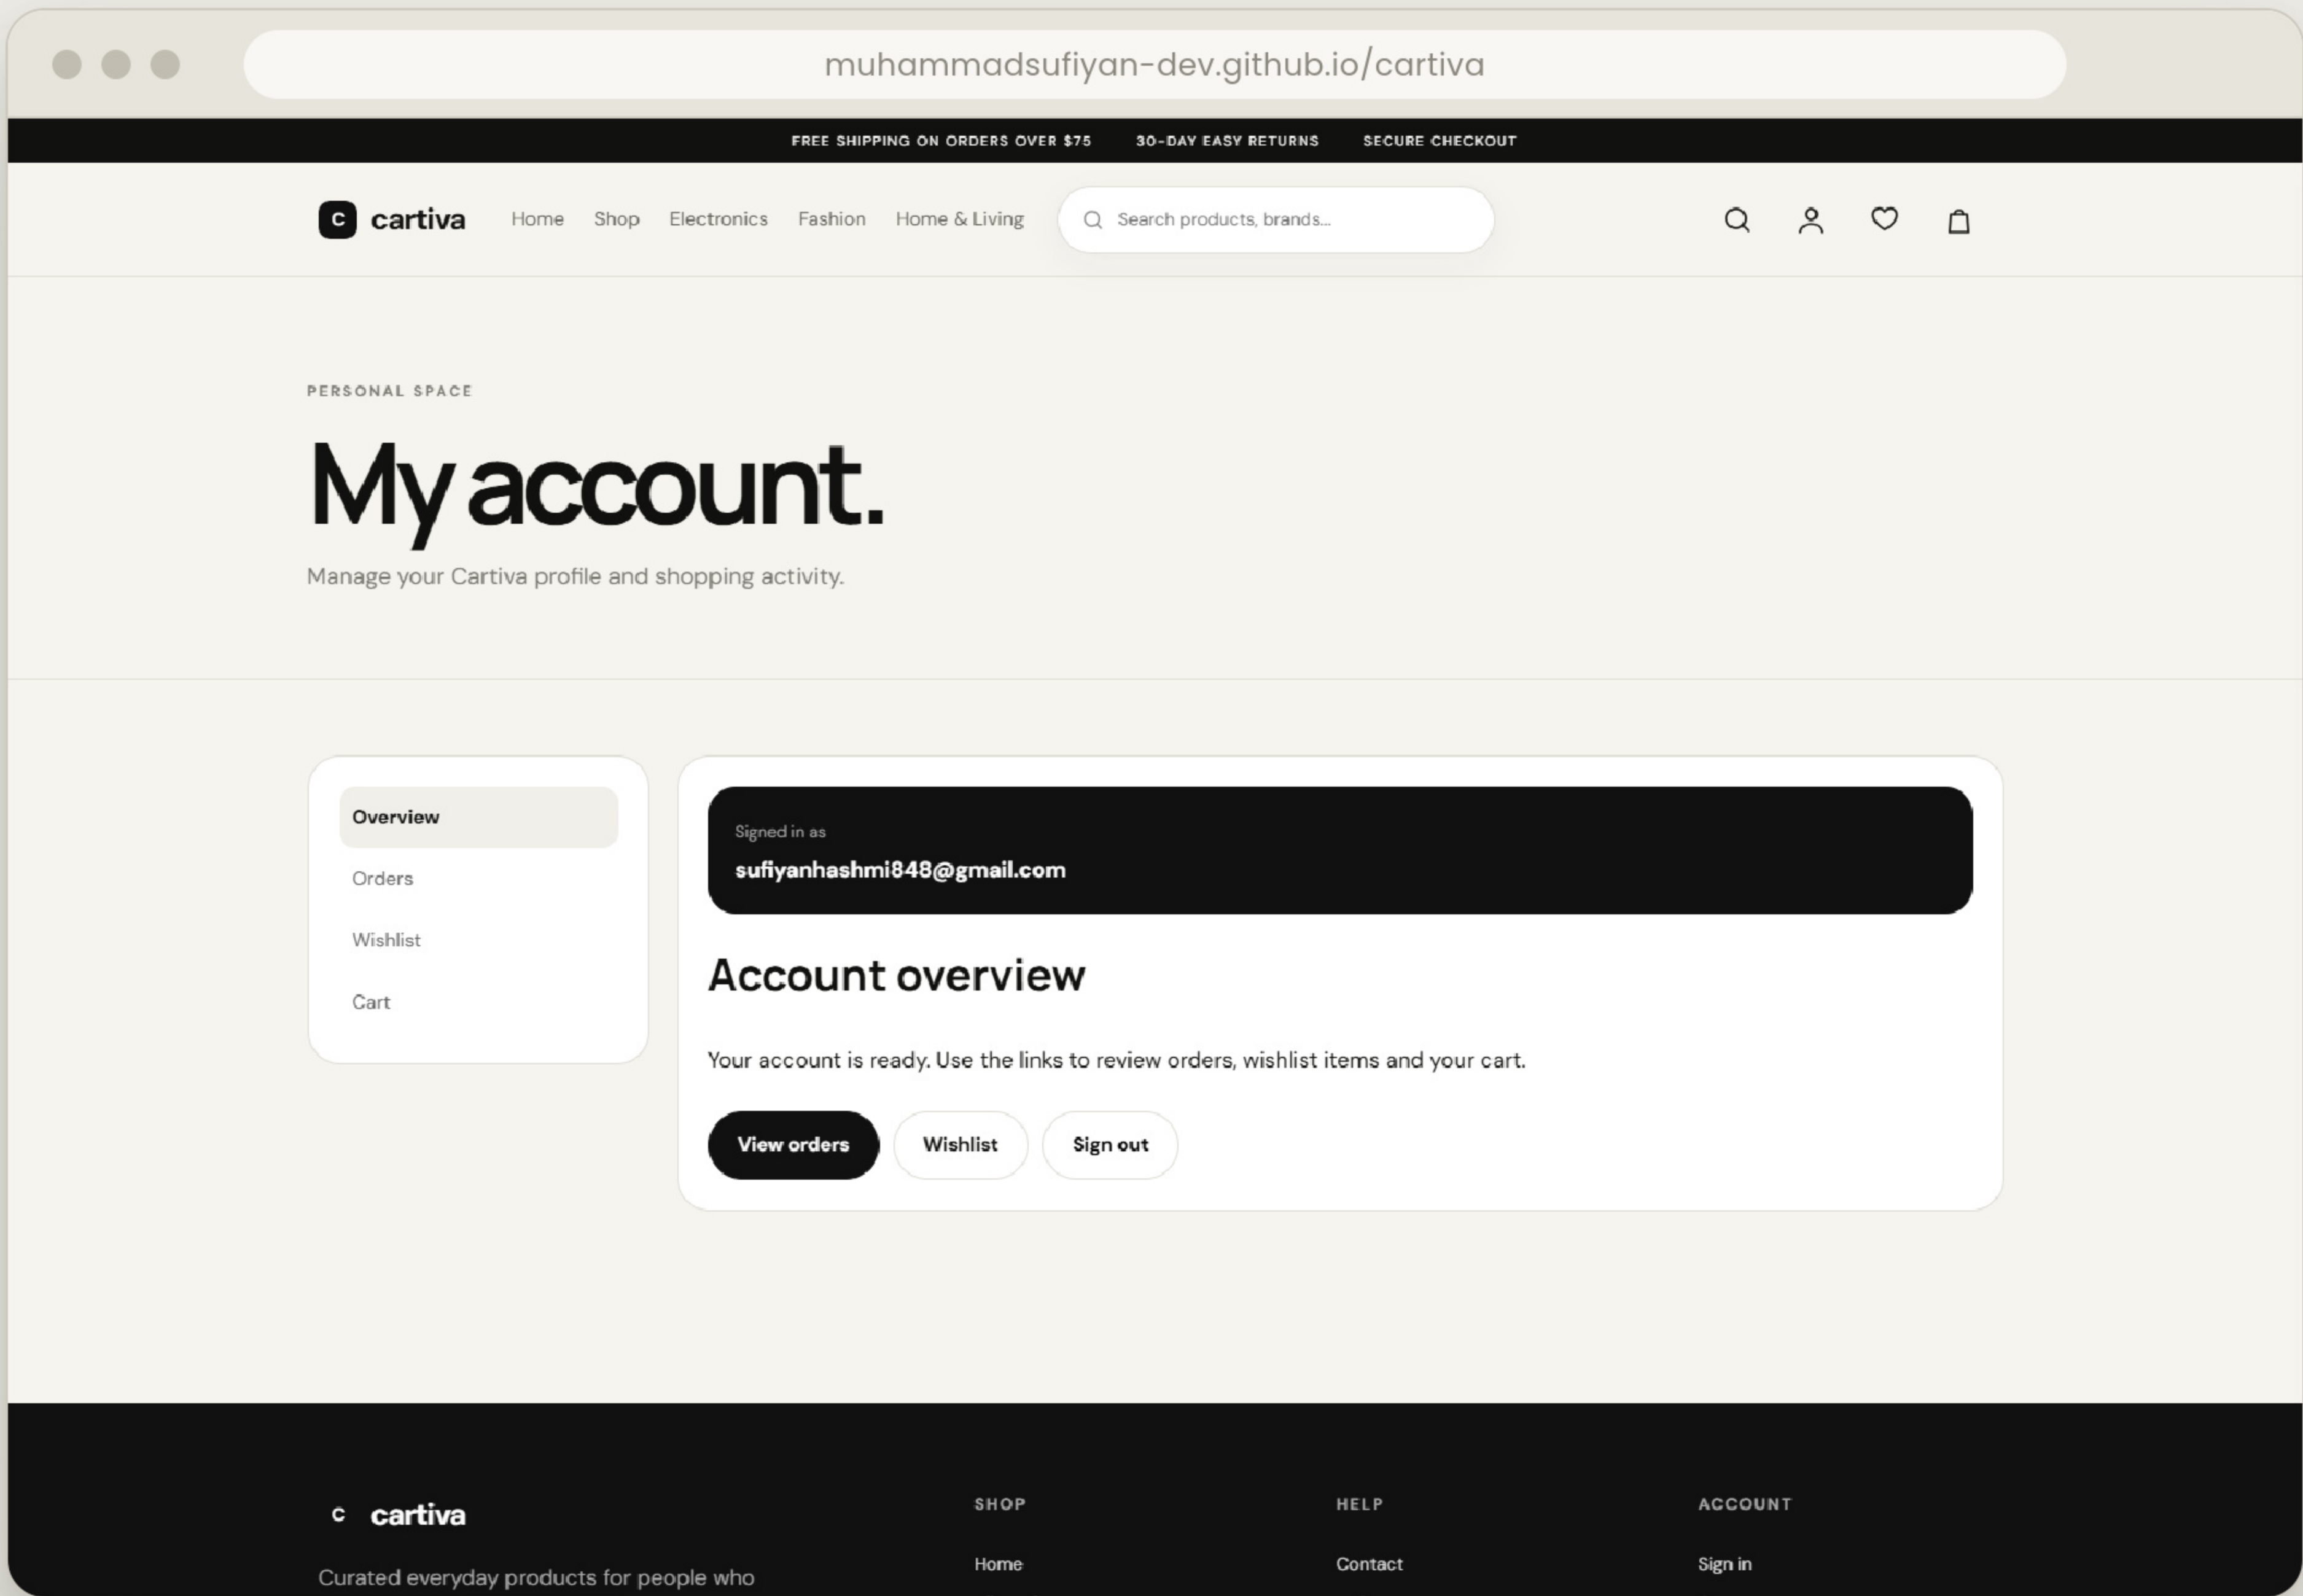

● Unique order IDs

● Date, items & total

● Live status badges

My account

A personal space that shows who is signed in and offers quick links to orders, wishlist, cart and sign out.

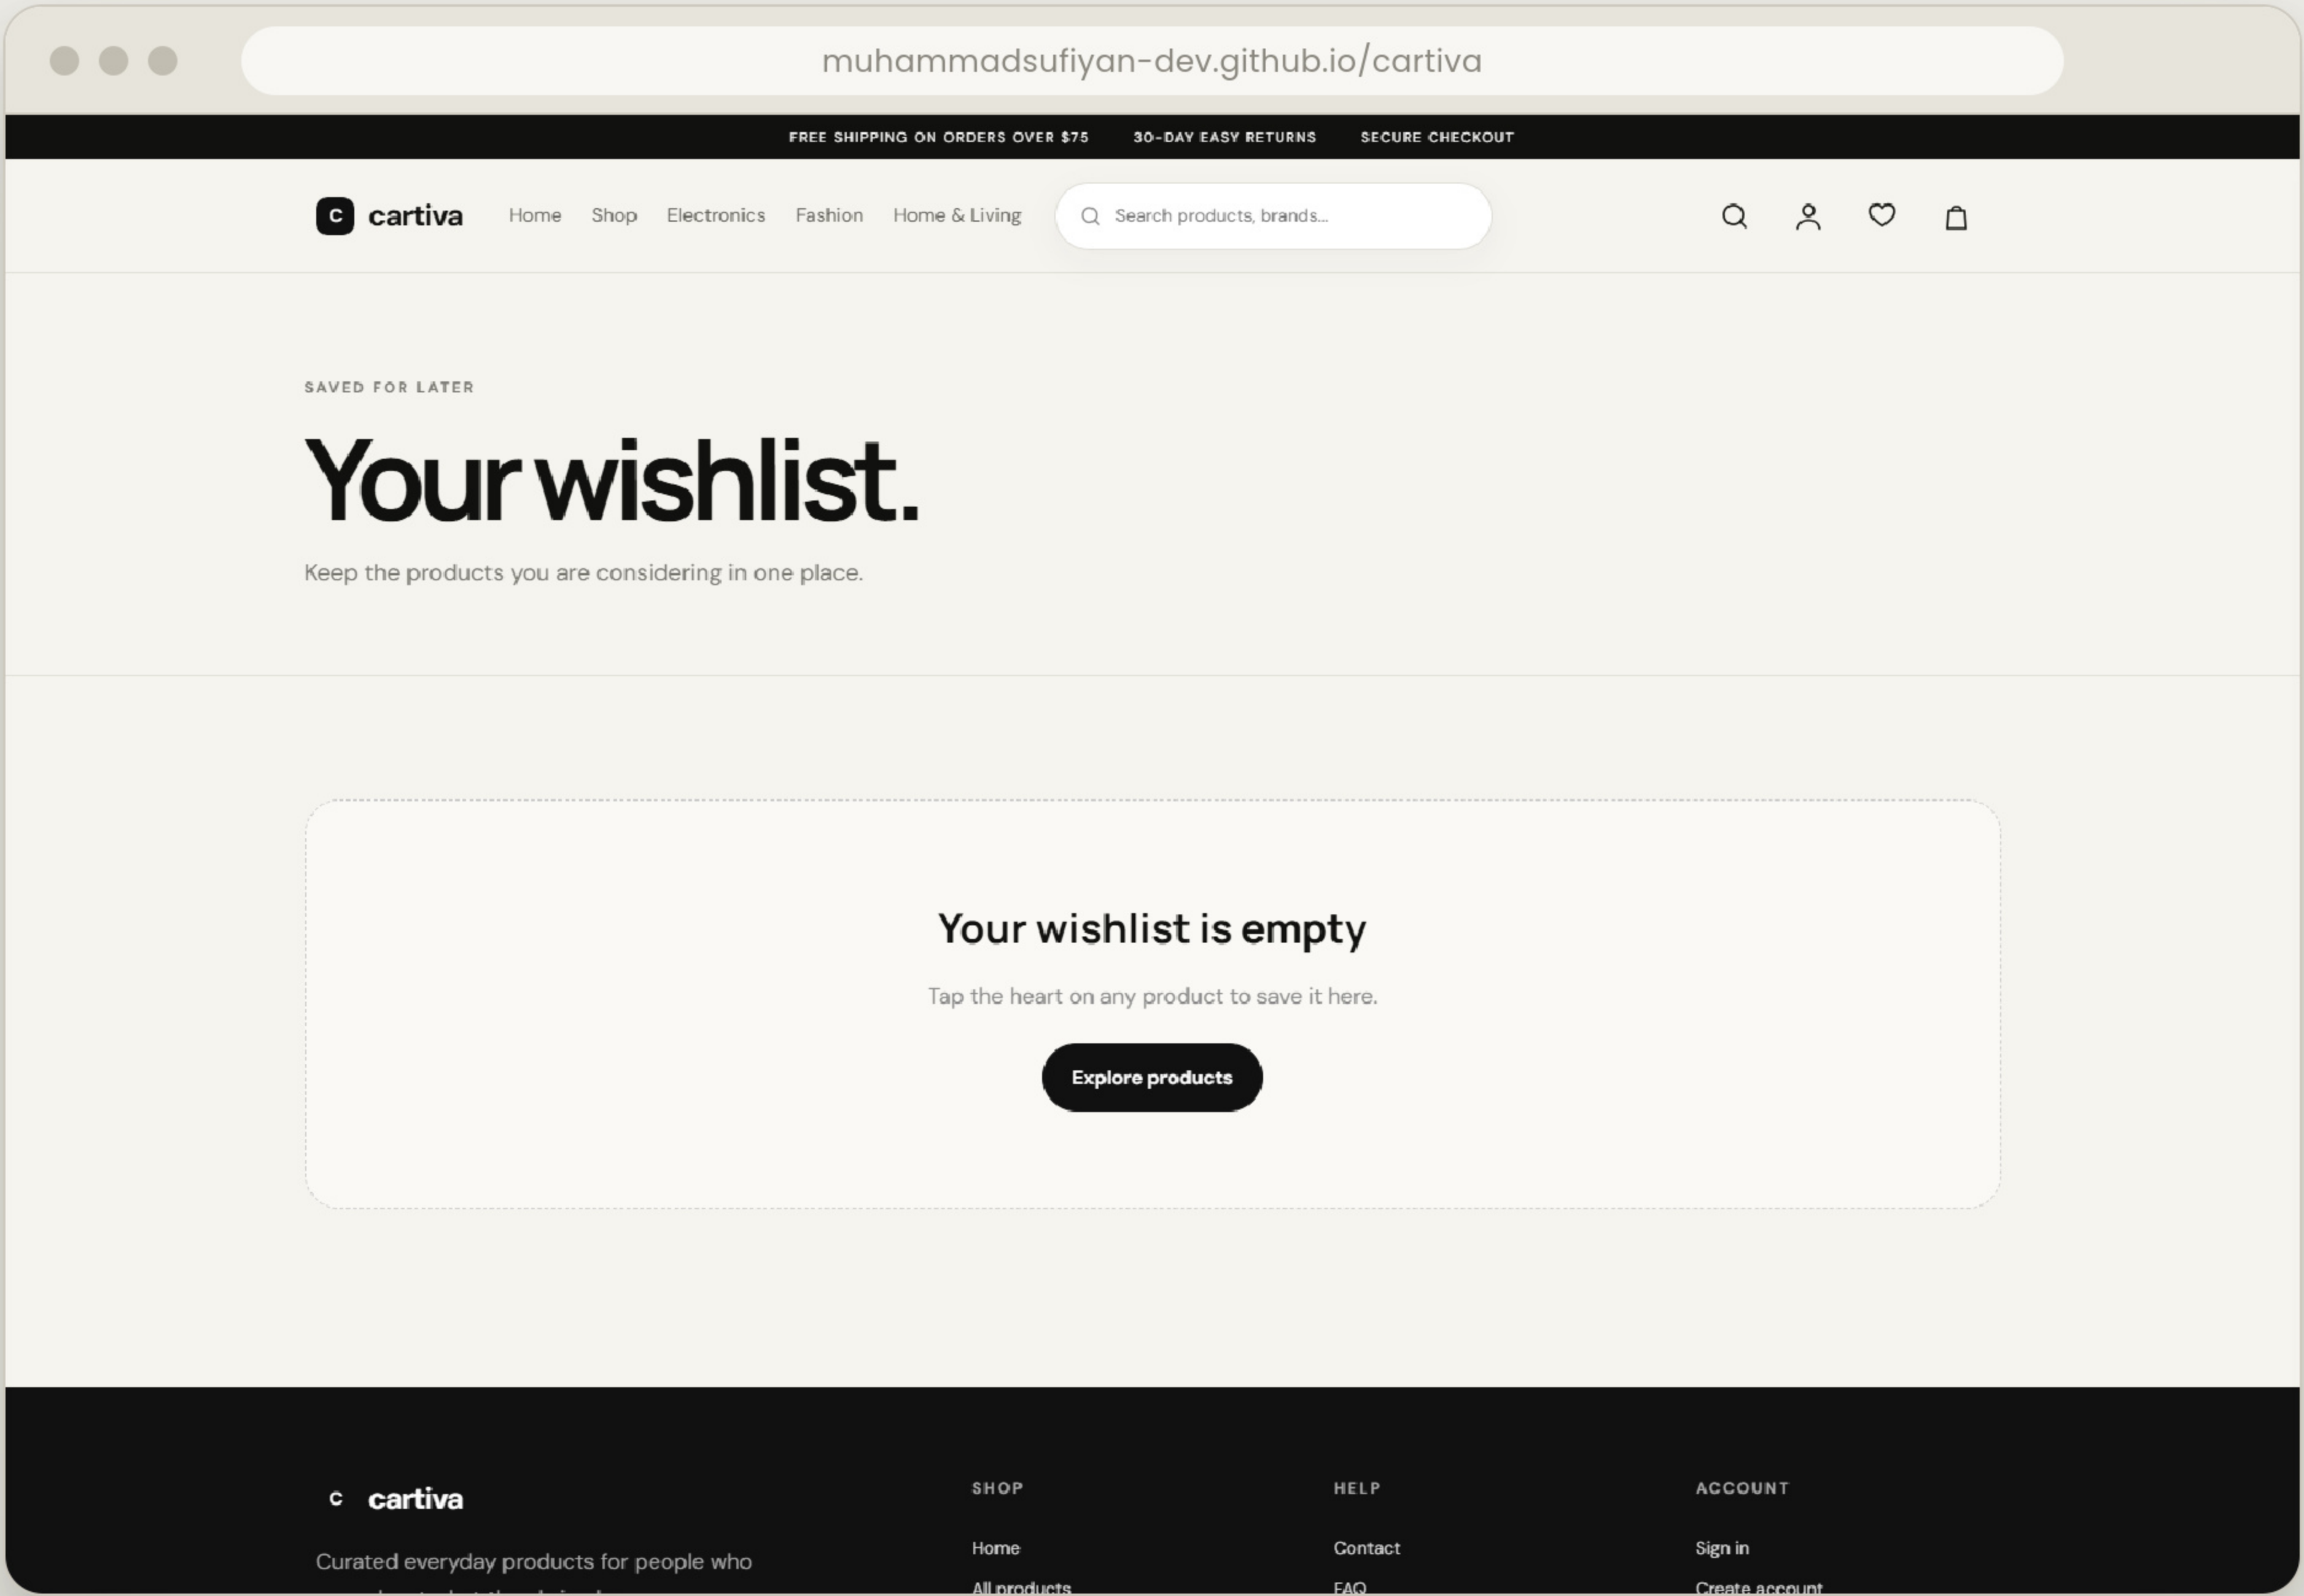

• Signed-in profile

• Orders · Wishlist · Cart

• One-tap sign out

Your *wishlist*

Tap the heart on any product to save it for later — with a helpful empty state that sends shoppers back to the catalog.

- Tap the heart to save
- User-specific list
- Helpful empty state

LET'S CONNECT

Let's build something like *this*.

Have a website or app idea? Let's turn it into a fast, polished, real product — designed with care and built to perform.
