

Introducing *Mindora*

Notes, flashcards, quizzes, a focus timer and a study helper — one calm workspace to learn smarter.

ABOUT THE PROJECT

What is *Mindora*?

Mindora is an AI-powered study assistant designed to help students learn smarter and improve their productivity. It provides a modern, responsive interface that makes studying more organized and efficient.

The project focuses on simplifying the learning process through an intuitive user experience and AI-assisted study support — from an overview dashboard to notes, flashcards, quizzes, a focus room and a study helper.

Your study *overview*

01

A calm dashboard with a motivating hero, focus time, notes, flashcards and streak stats, recent notes, today's plan and a flashcard of the day.

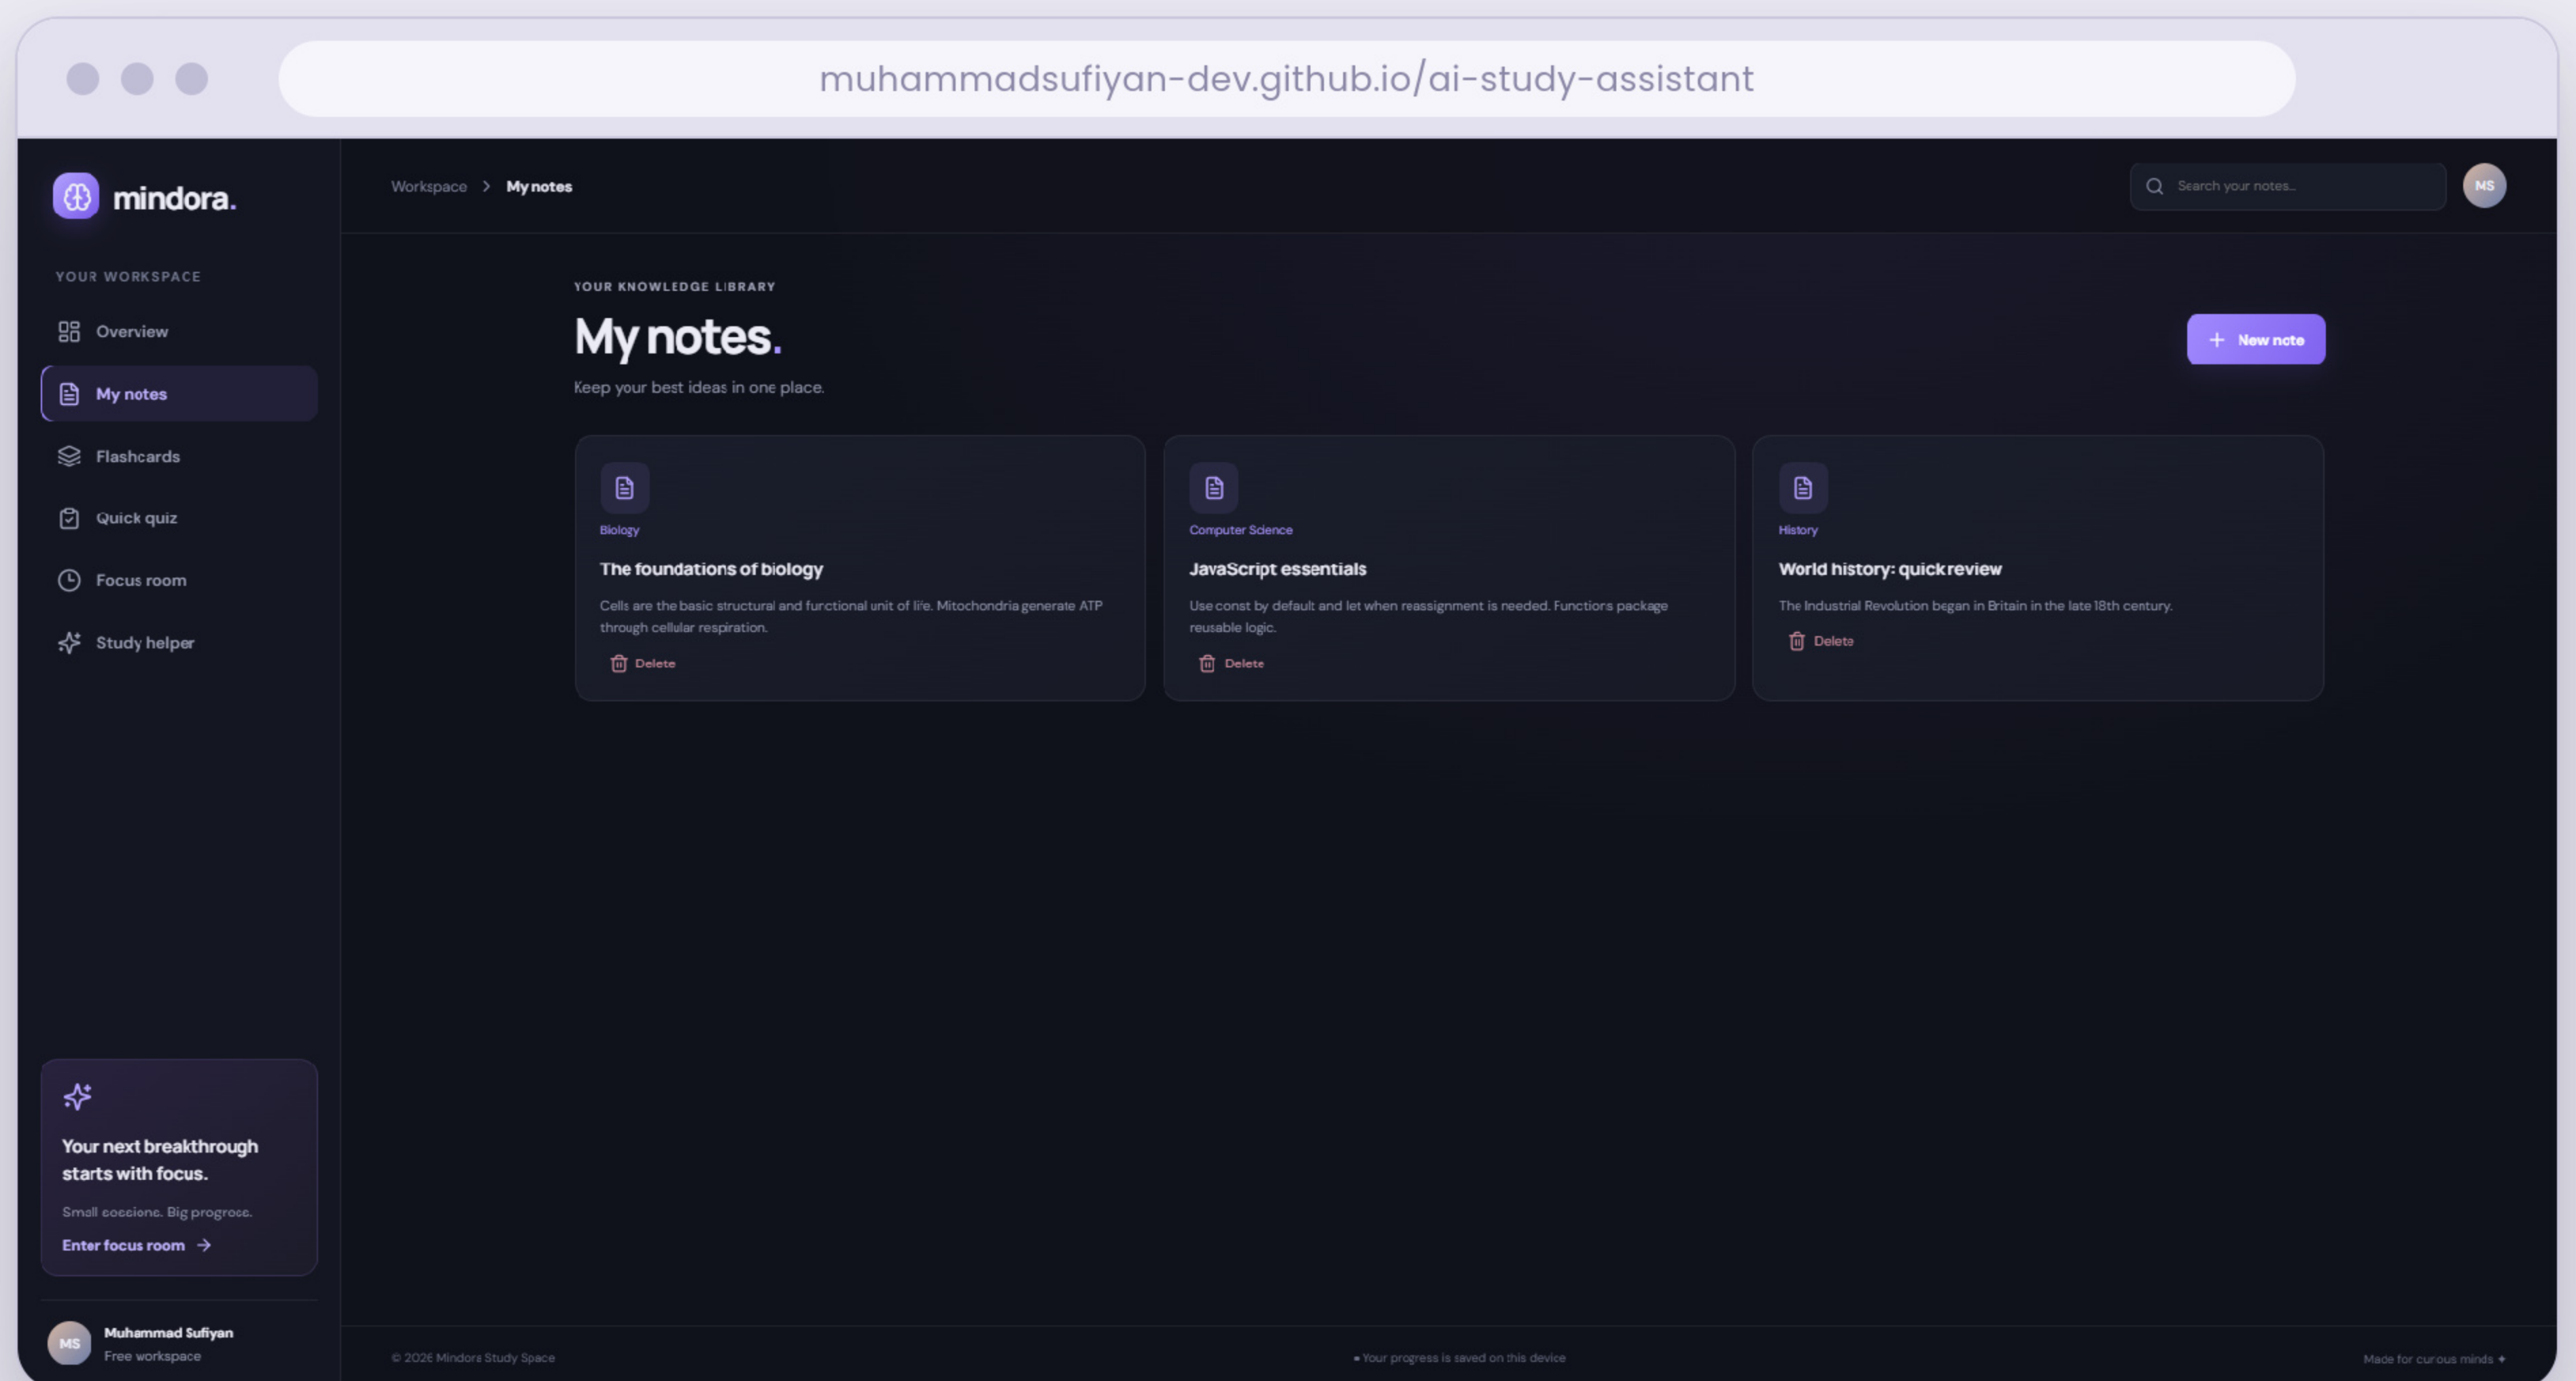

● Focus time & streak stats

● Today's plan checklist

● Flashcard of the day

My notes.

Your knowledge library — every note shows its subject, a short preview and a delete action, with a New note button always within reach.

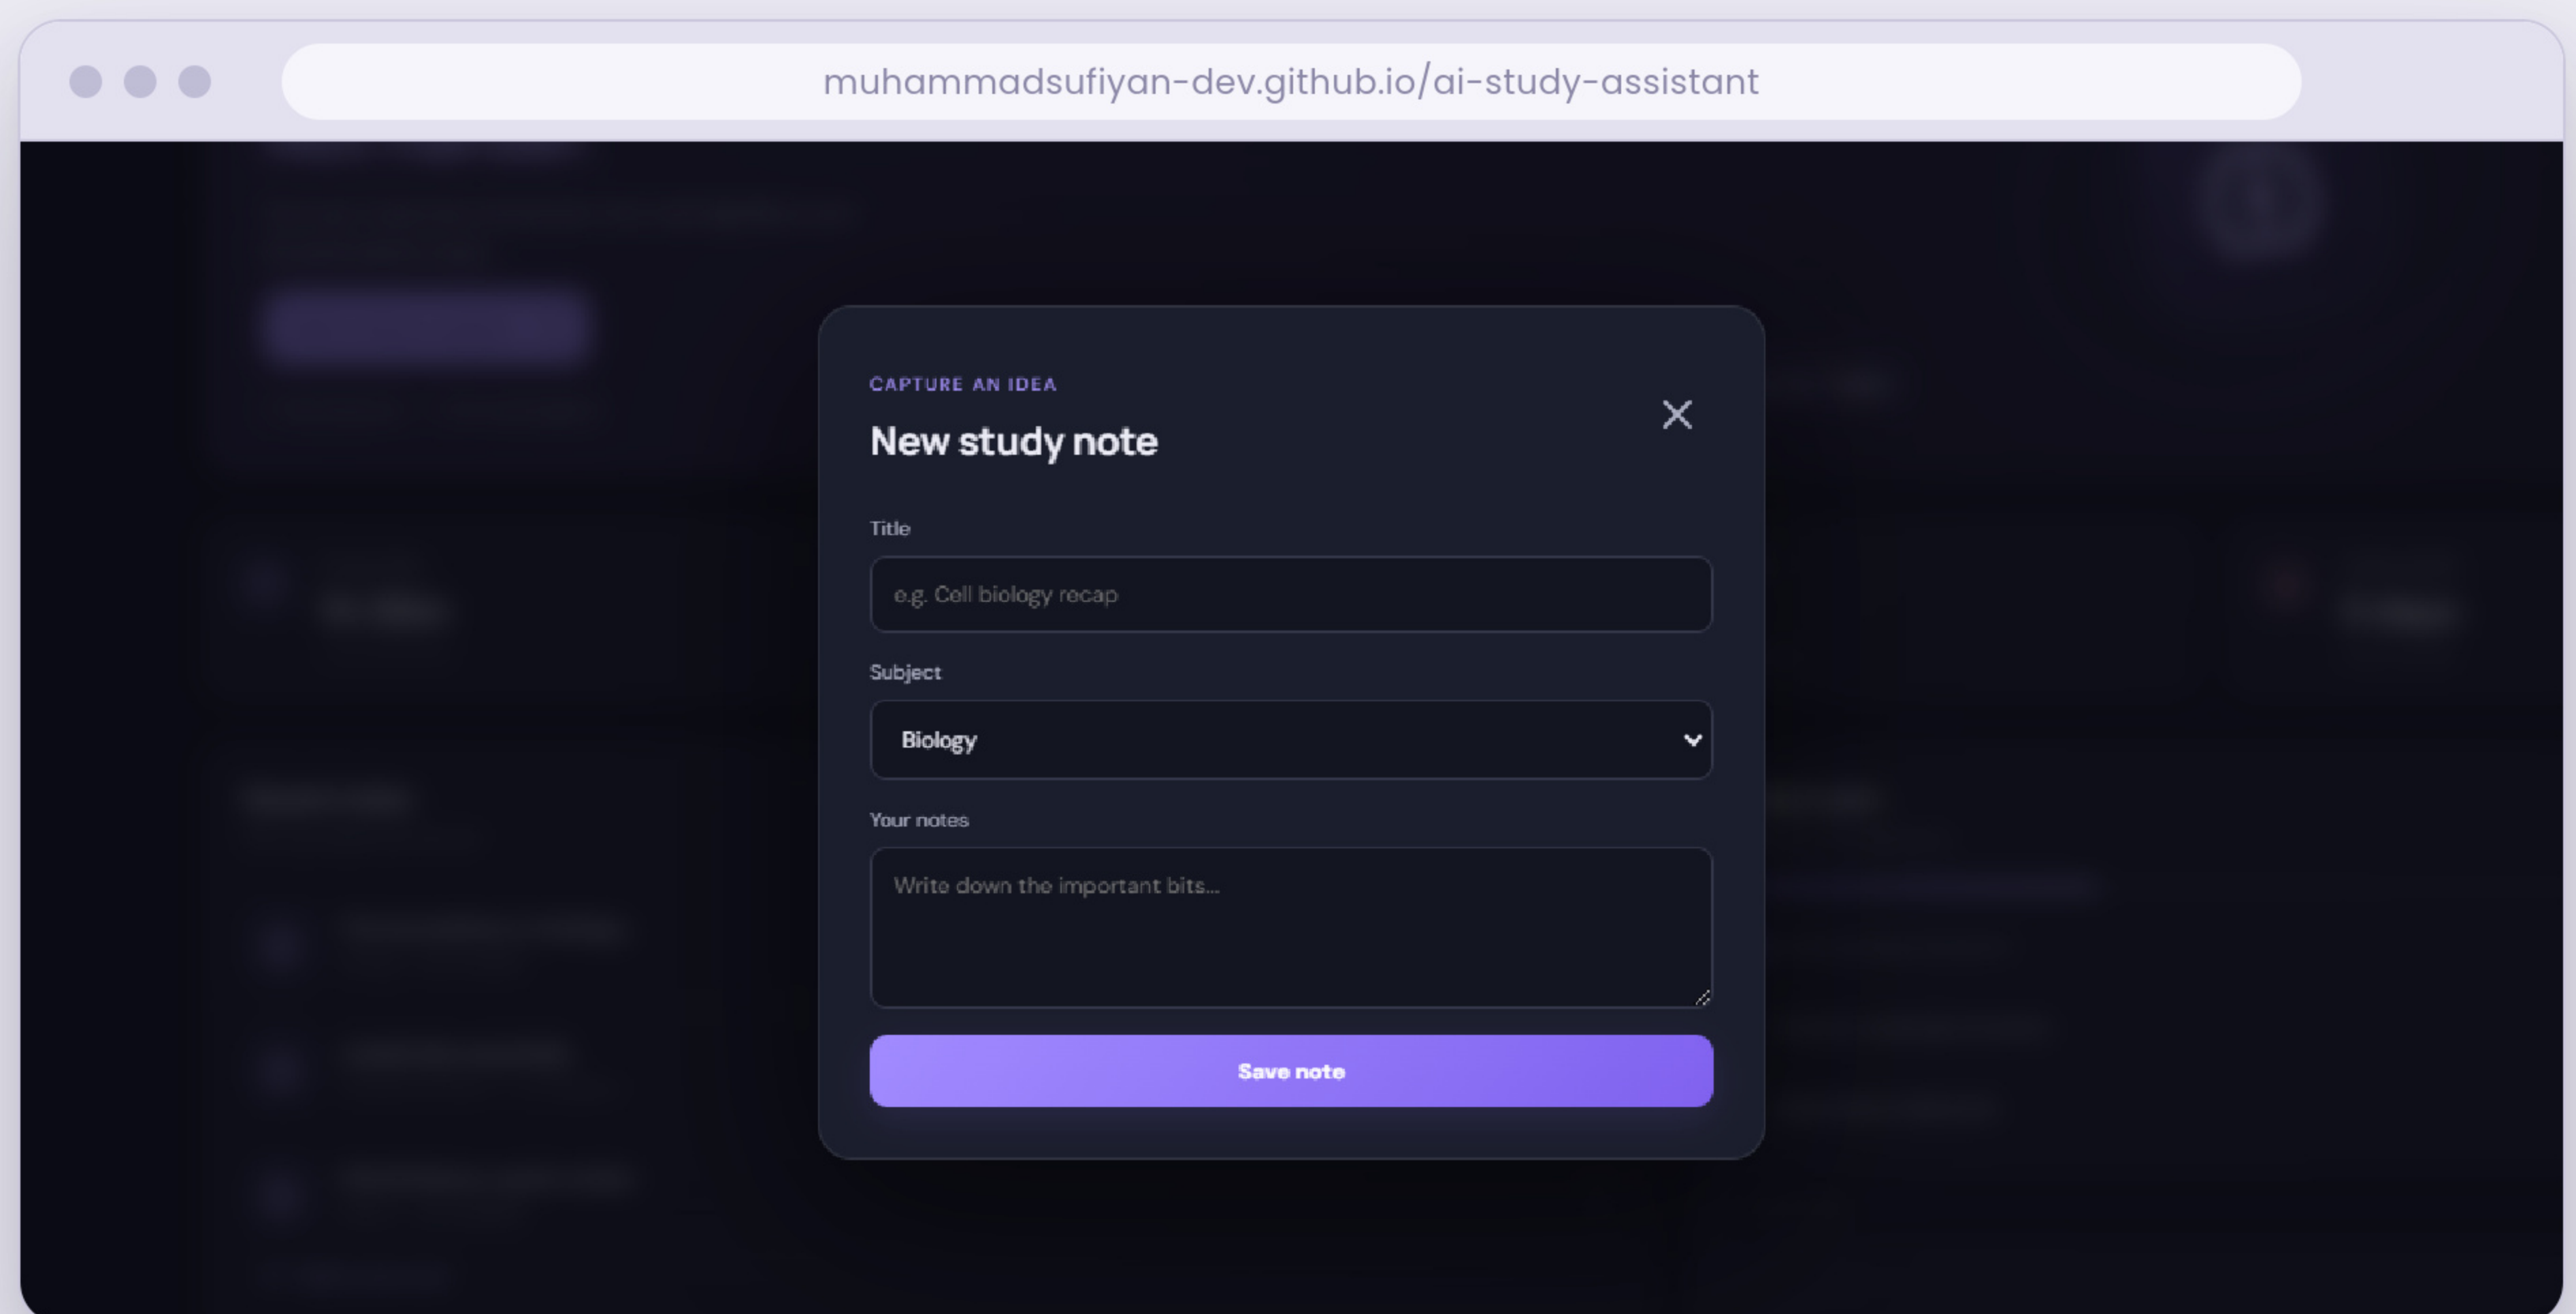

● Notes grouped by subject

● Preview of each note

● New note & delete actions

Capture an *idea*

Add a study note in seconds — give it a title, pick a subject, write the important bits and save.

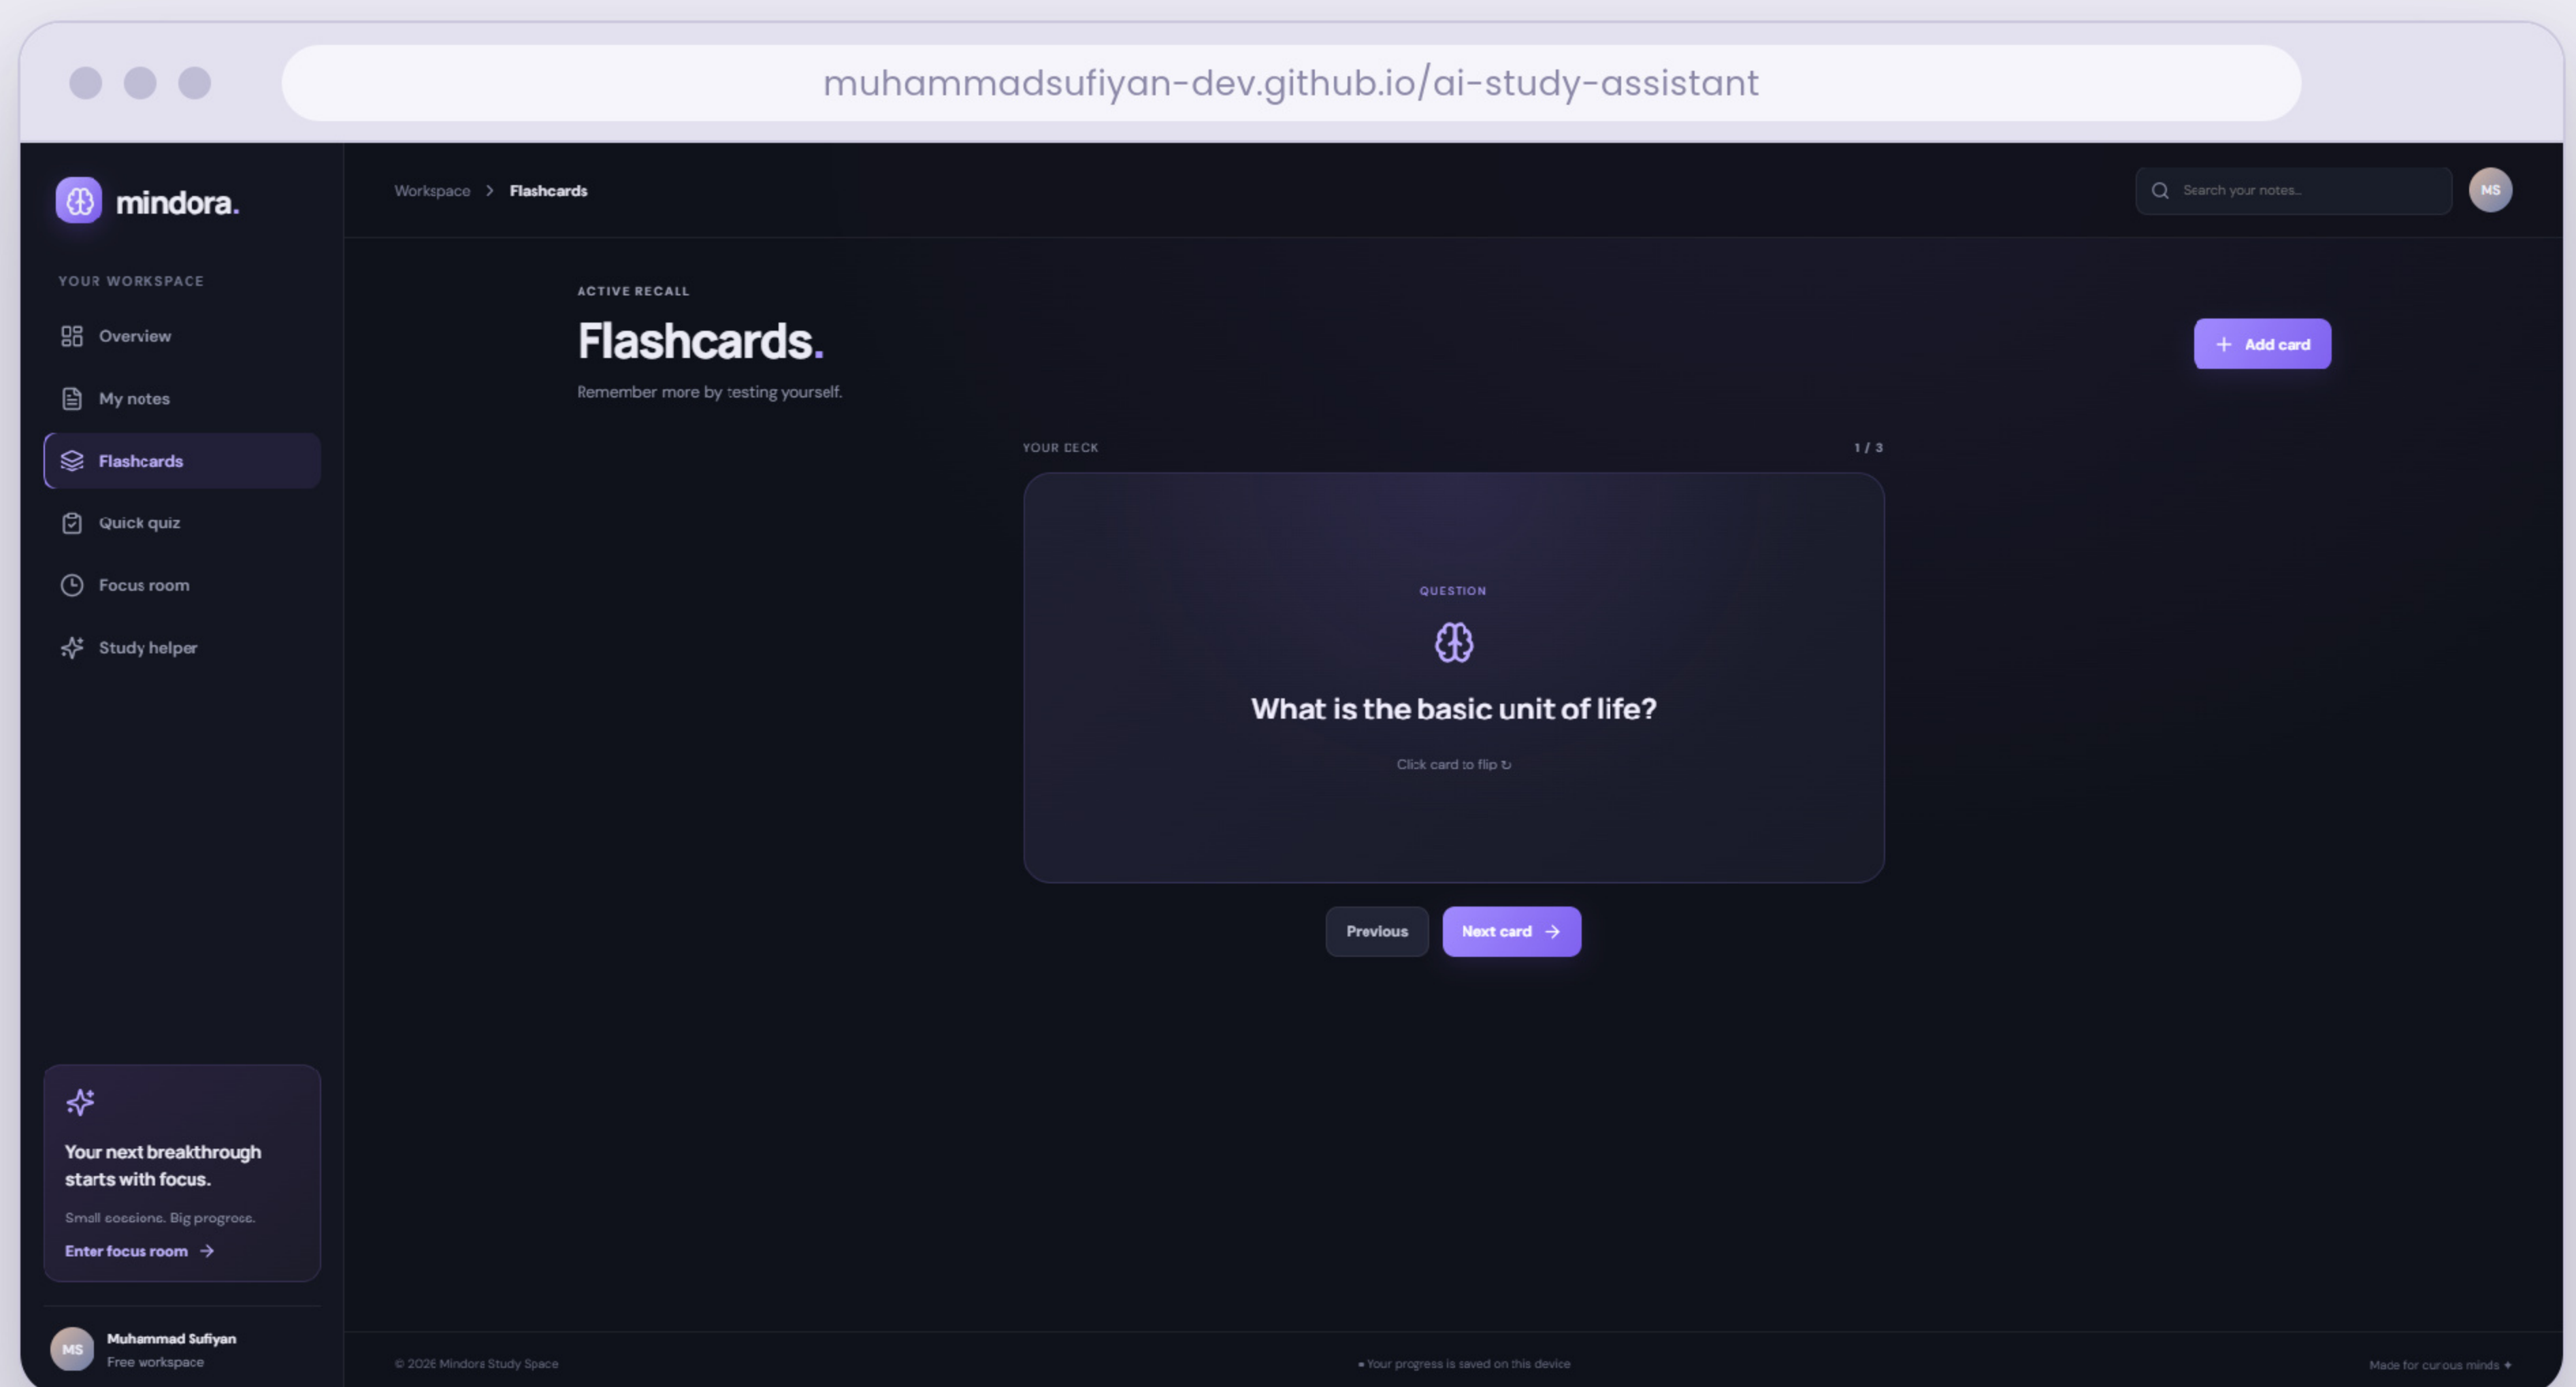

• Title field

• Subject selector

• One-tap Save note

Flashcards.

Active recall with flip cards — read the question, click to reveal the answer and move through the deck with Previous and Next.

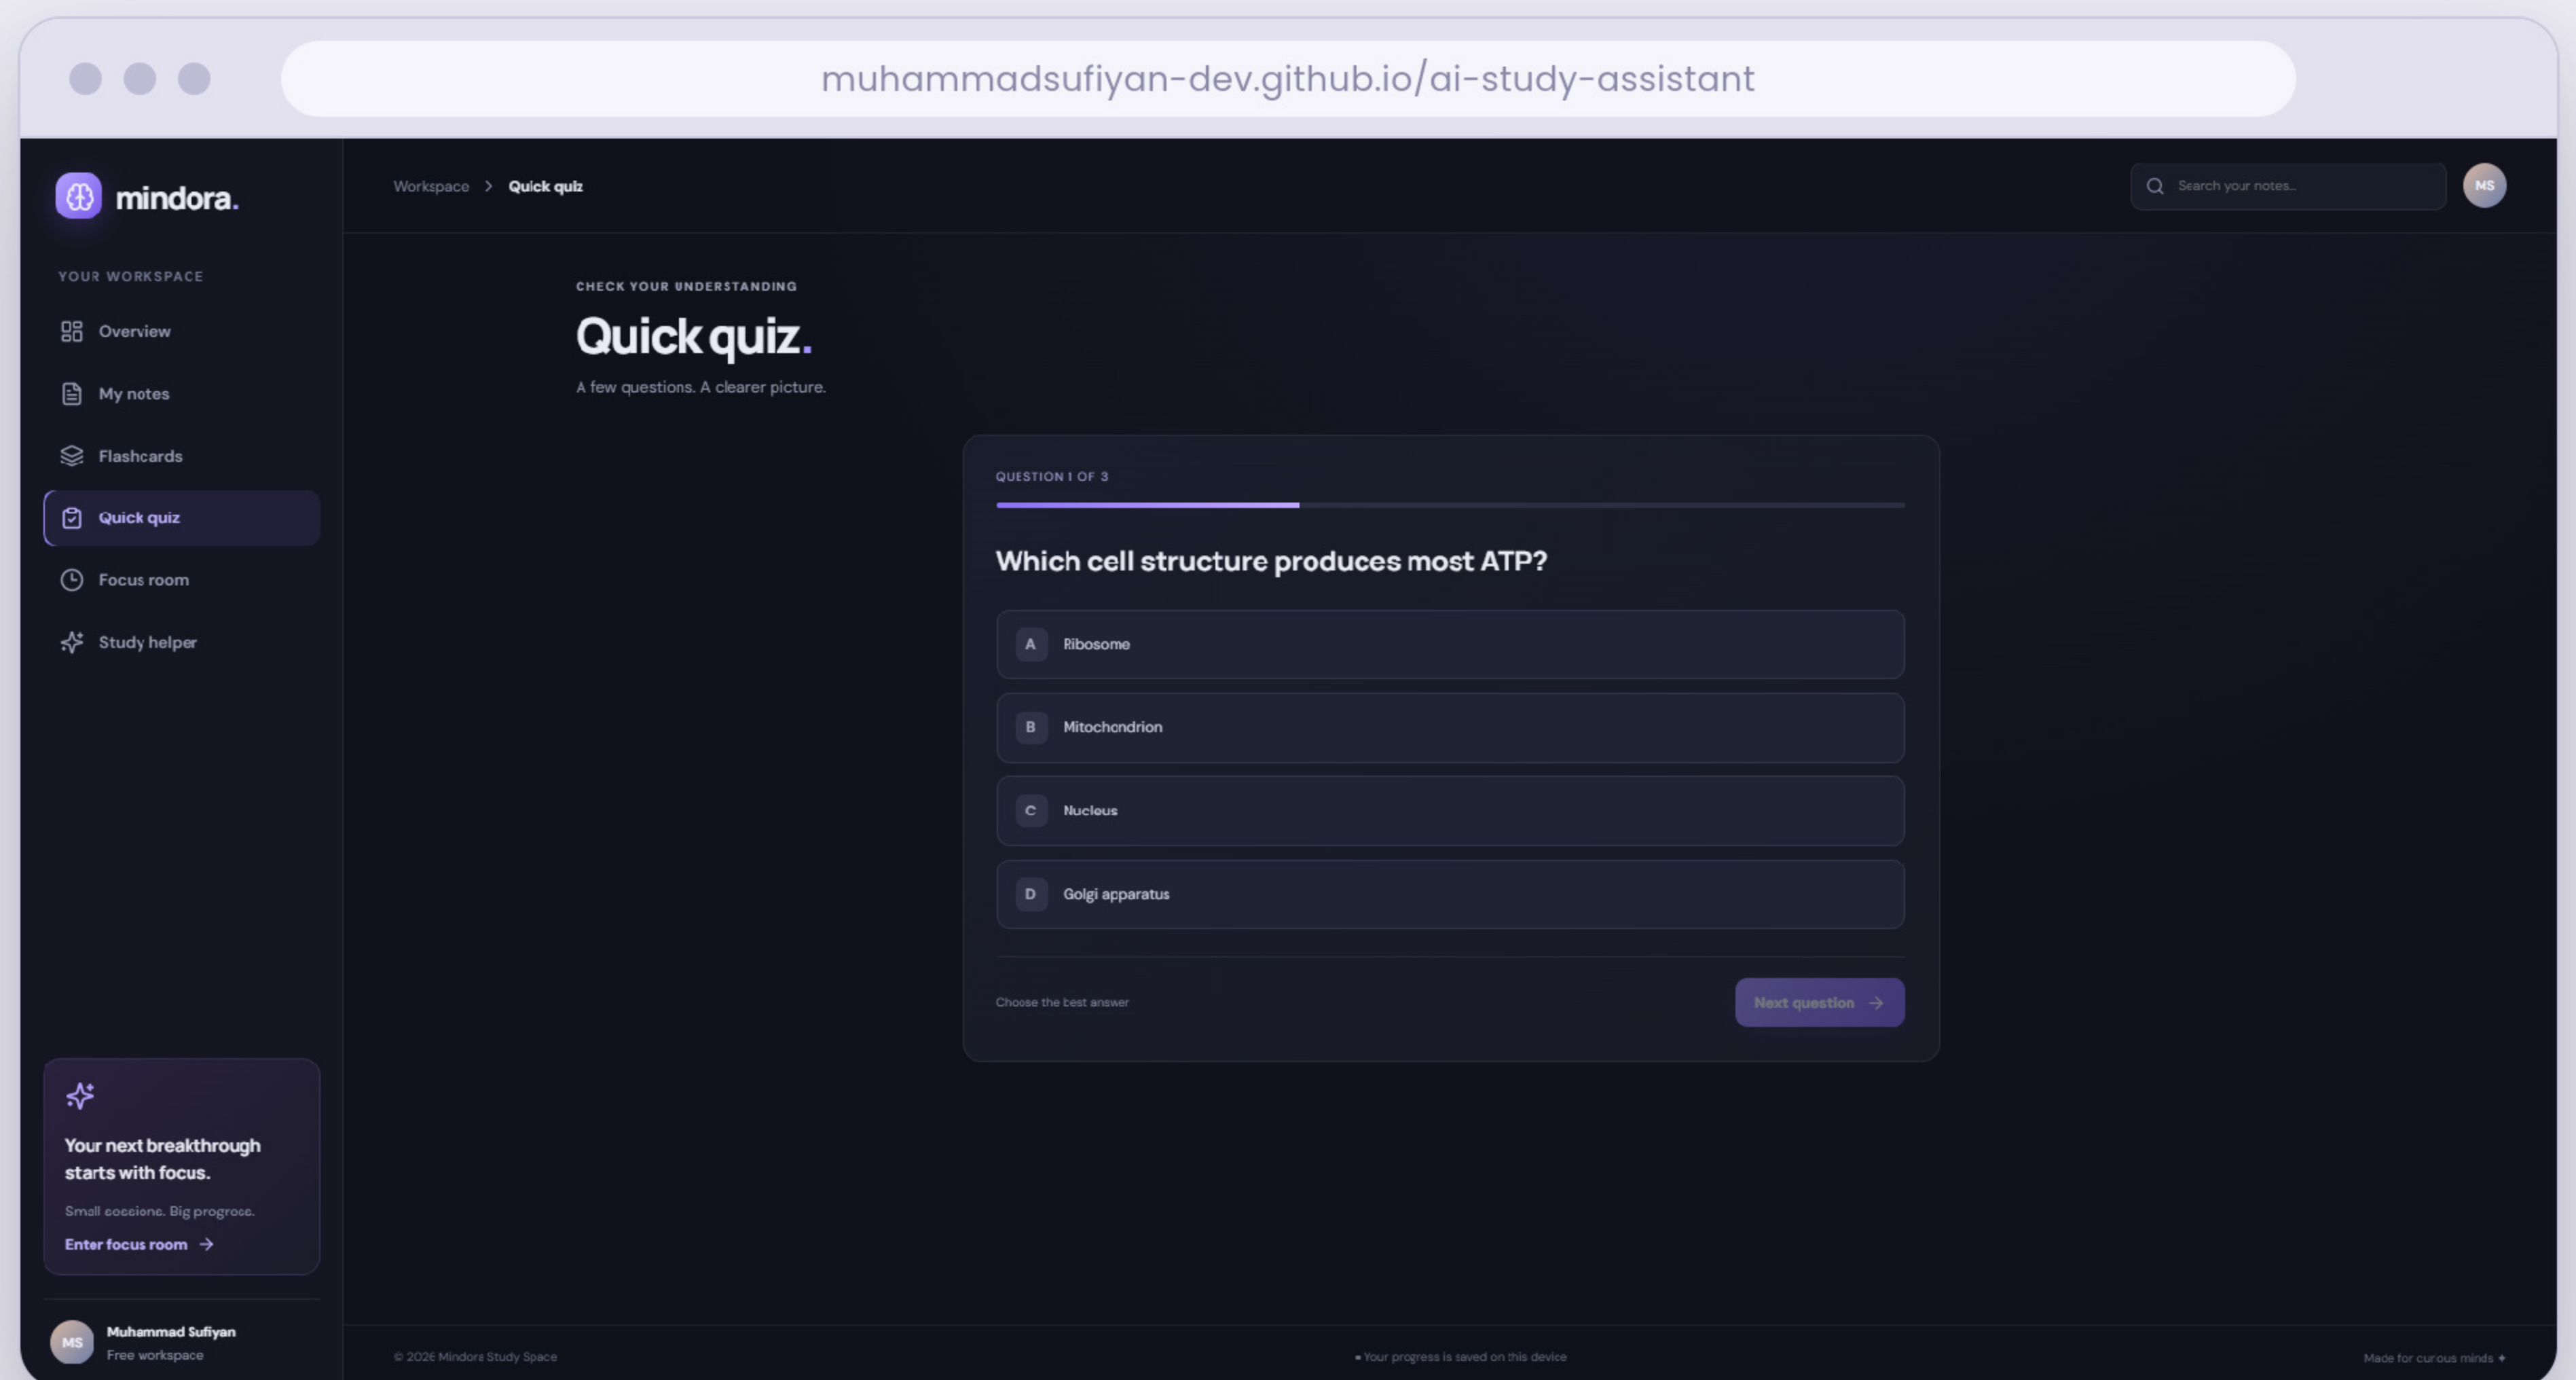

● Click card to flip

● Previous · Next cards

● Deck counter

Quick *quiz.*

Check your understanding with multiple-choice questions, clear A–D options and a progress bar through the quiz.

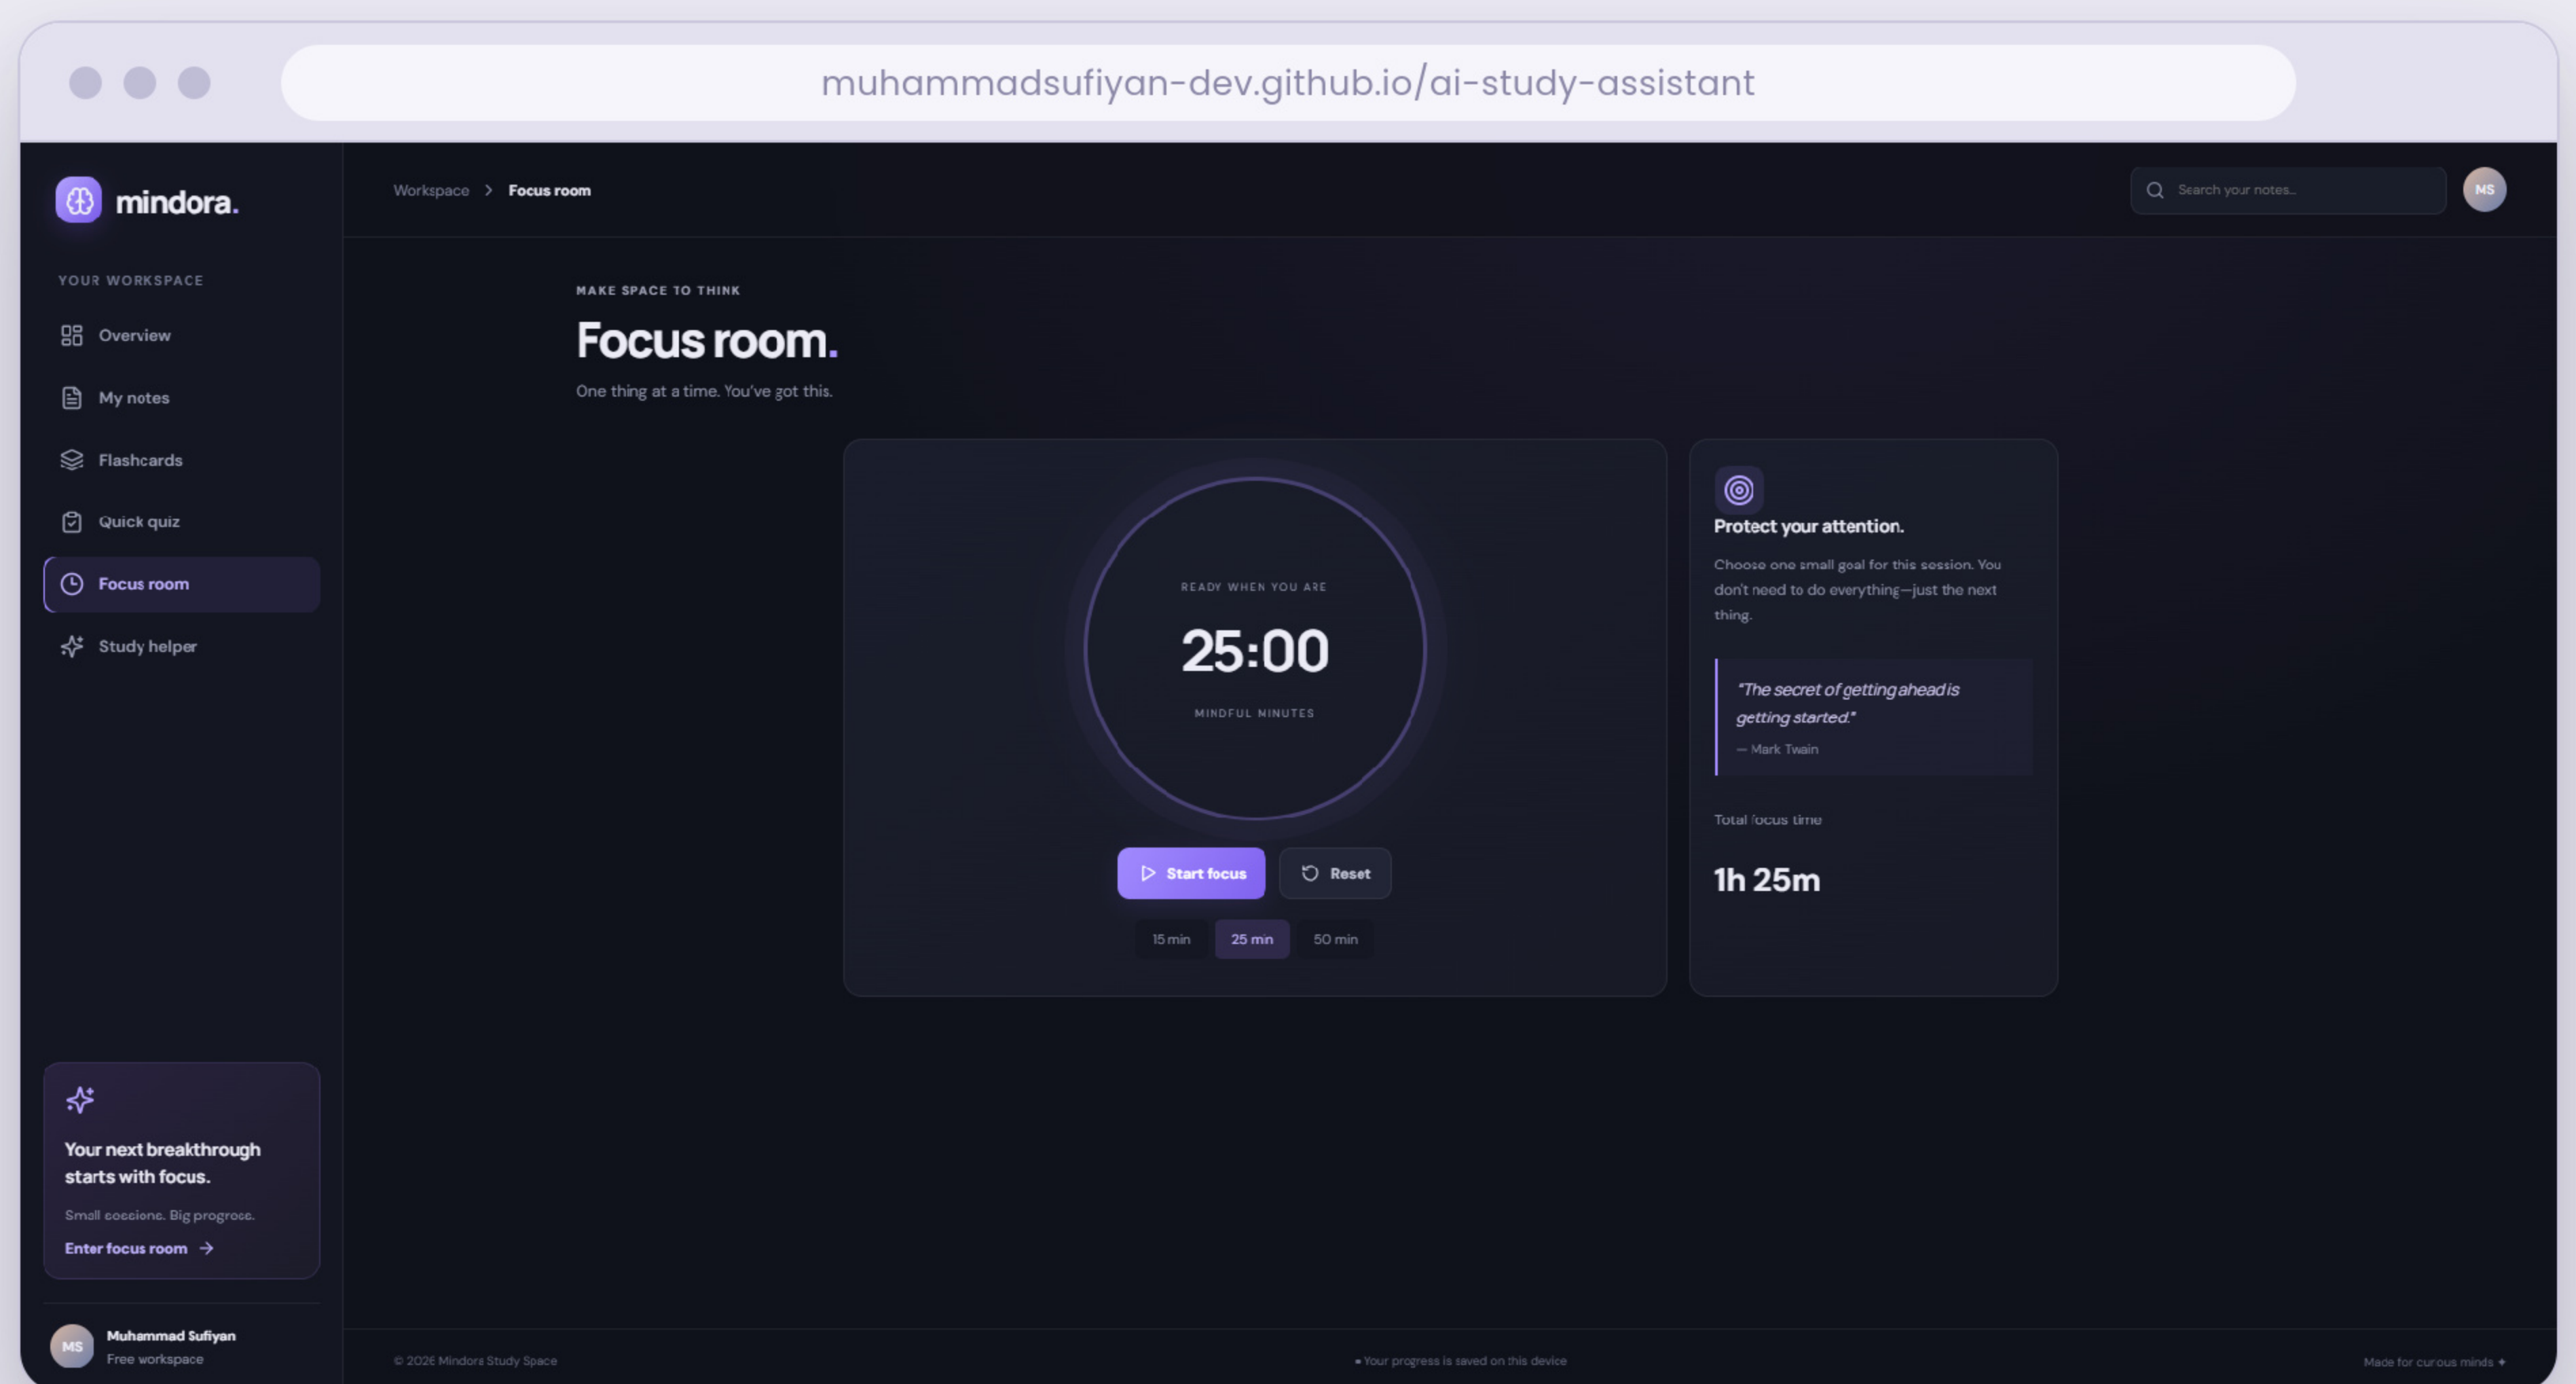

● Multiple-choice answers

● Progress bar

● Question 1 of 3

Focus room.

A distraction-free timer with 15, 25 and 50 minute sessions, a calming quote and your total focus time.

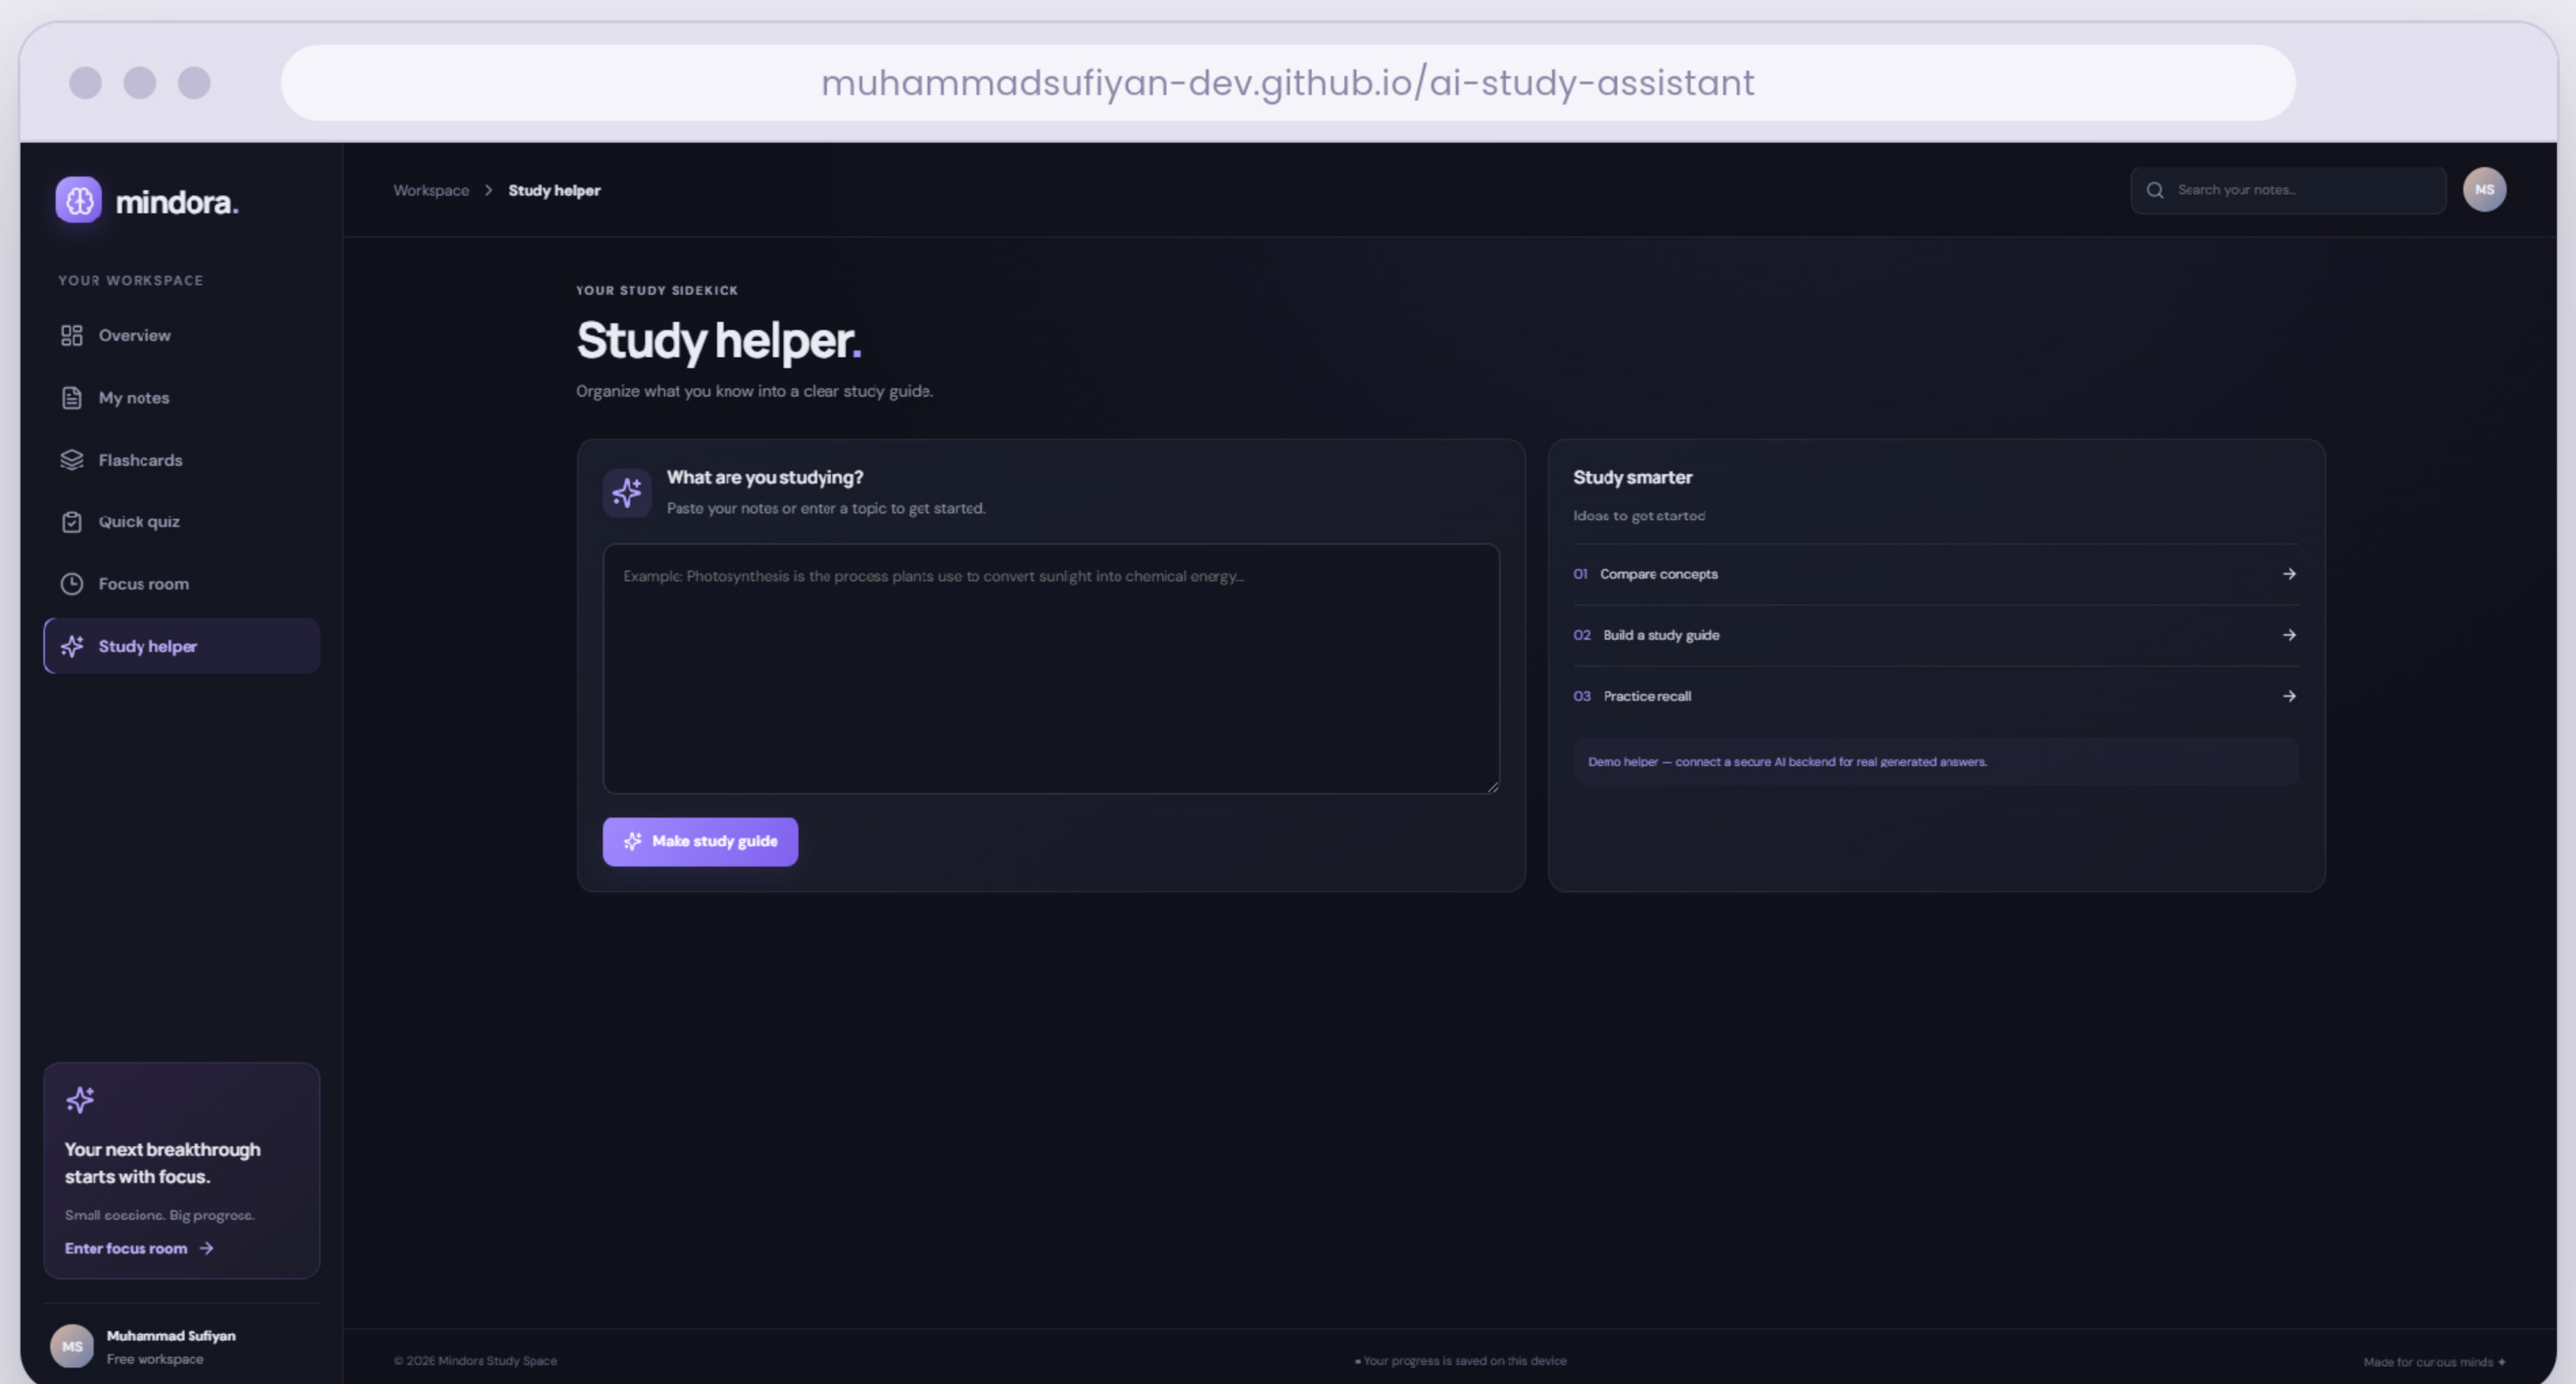

● 15 · 25 · 50 min sessions

● Start & Reset controls

● Total focus time

Study helper.

Organize what you know into a clear study guide — paste your notes or enter a topic, or start from ideas like compare concepts and practice recall.

● Paste notes or a topic

● Compare · Build · Practice

● Make study guide

LET'S CONNECT

Let's build something like *this*.

Have a website or app idea? Let's turn it into a fast, polished, real product — designed with care and built to perform.
