

TRAVEL DISCOVERY & TRIP PLANNING · CASE STUDY

Introducing *Roamora*

Discover destinations, save favorites and plan your next trip — a modern travel website built with Firebase.

ABOUT THE PROJECT

What is *Roamora*?

Roamora is a modern travel discovery and trip-planning website that helps travelers explore destinations around the world, discover unique experiences, save favorite places and organize future adventures — with destination cards, ratings, estimated prices, photo galleries and personalized trip planning.

Explore places like Hunza Valley, Bali, Istanbul, Kyoto, Marrakech and the Maldives. The platform includes user authentication, profile management, favorites, a trip planner and a contact form, with Firebase powering accounts and cloud data.

The *Home* page

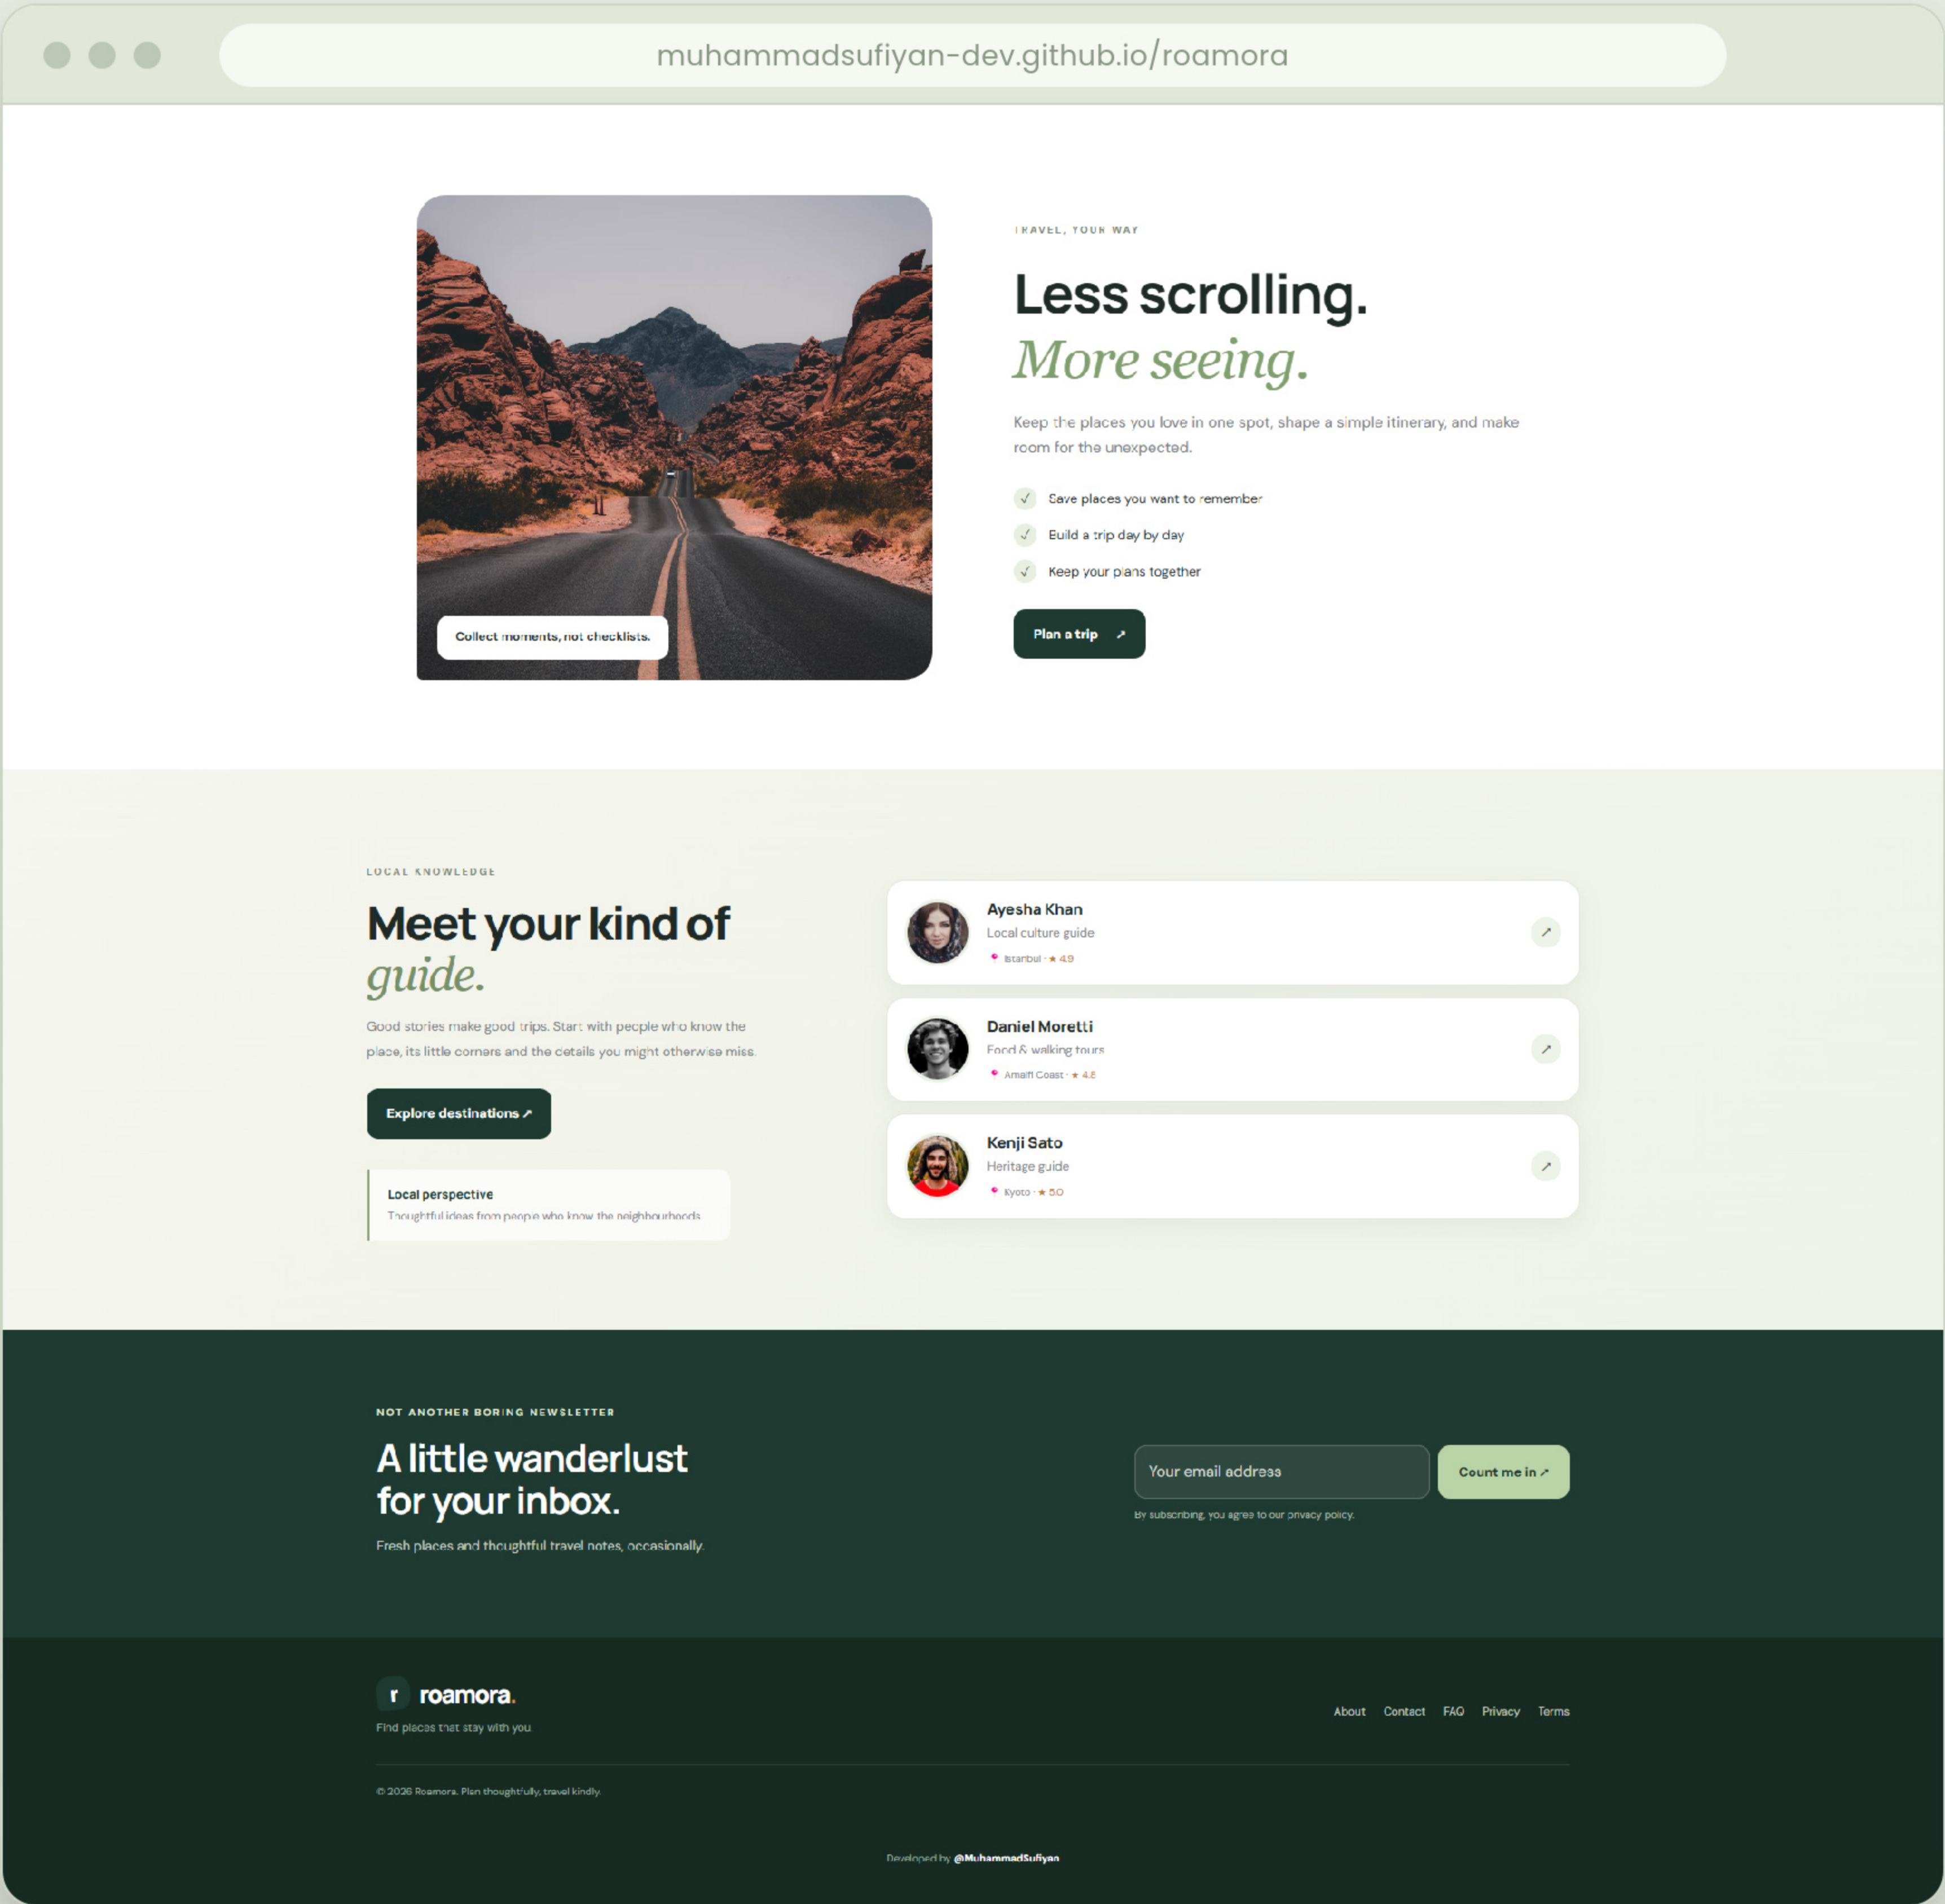

A cinematic hero with search by place and travel style, traveler stats, and a “Where to next?” row of handpicked destination cards with ratings and prices.

Plan, guides & *inbox*

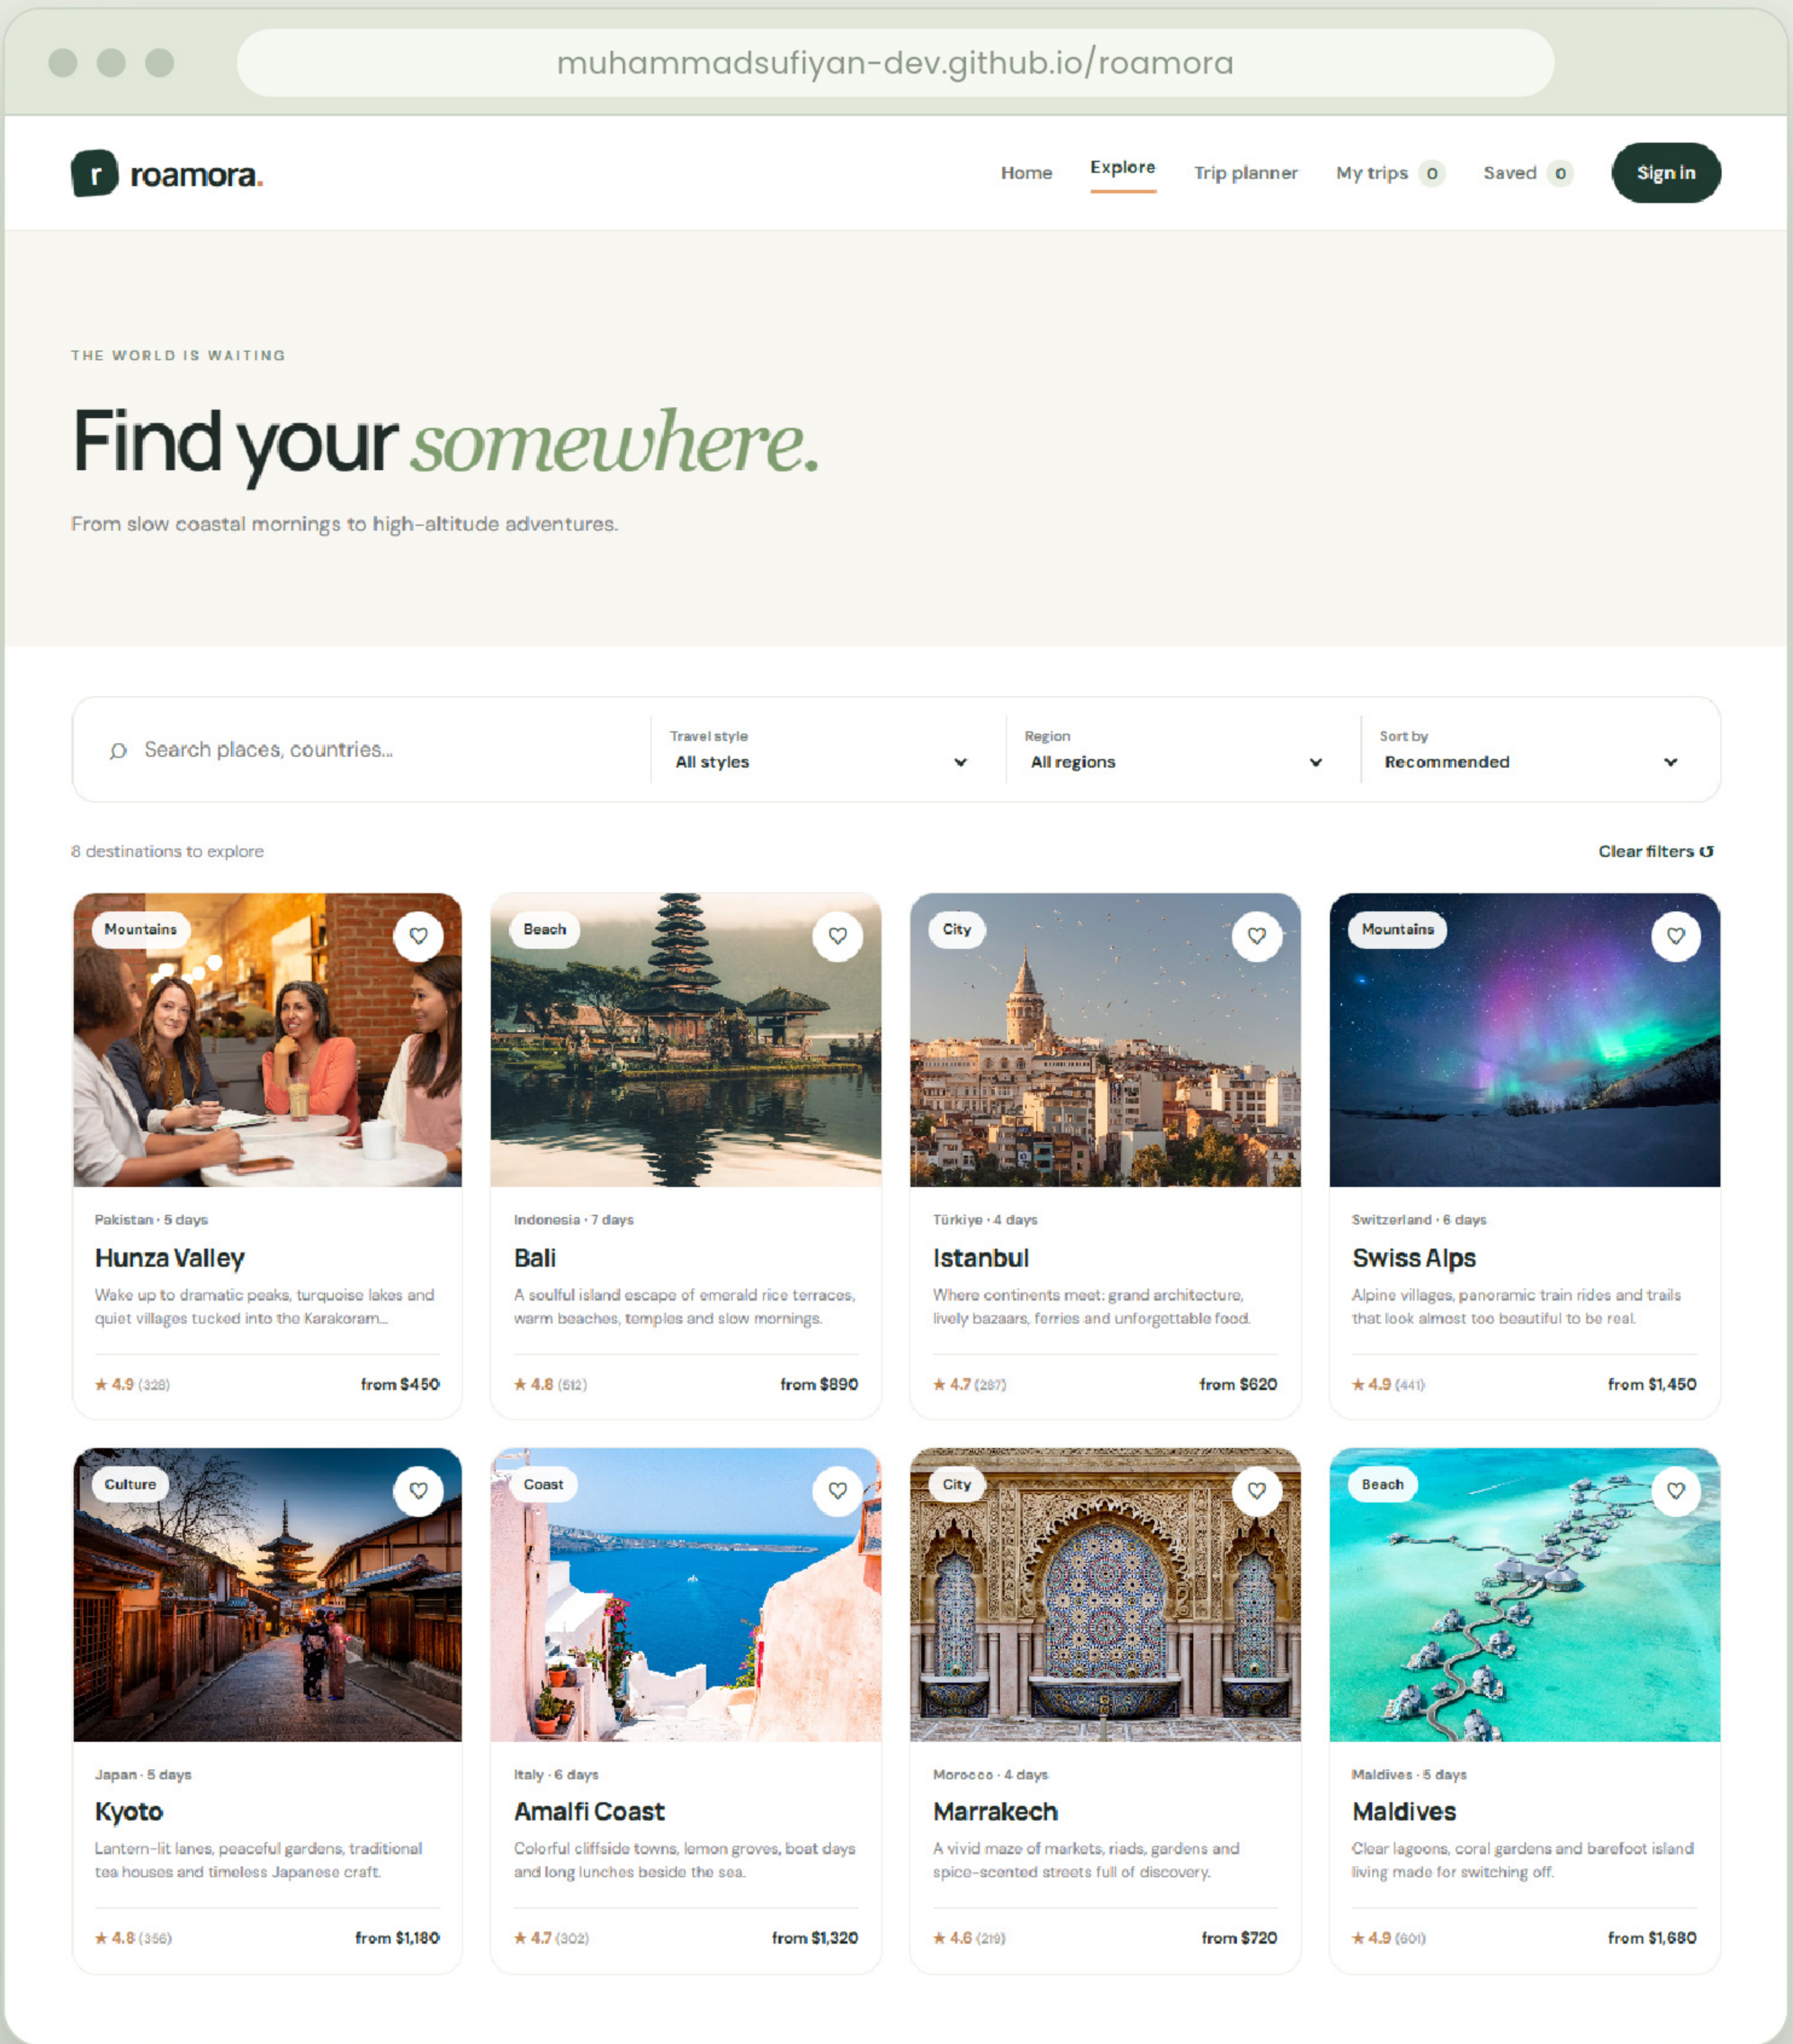

Trip-planning highlights, local guides with ratings, a newsletter signup and a clean footer — the full Roamora story on one page.

02

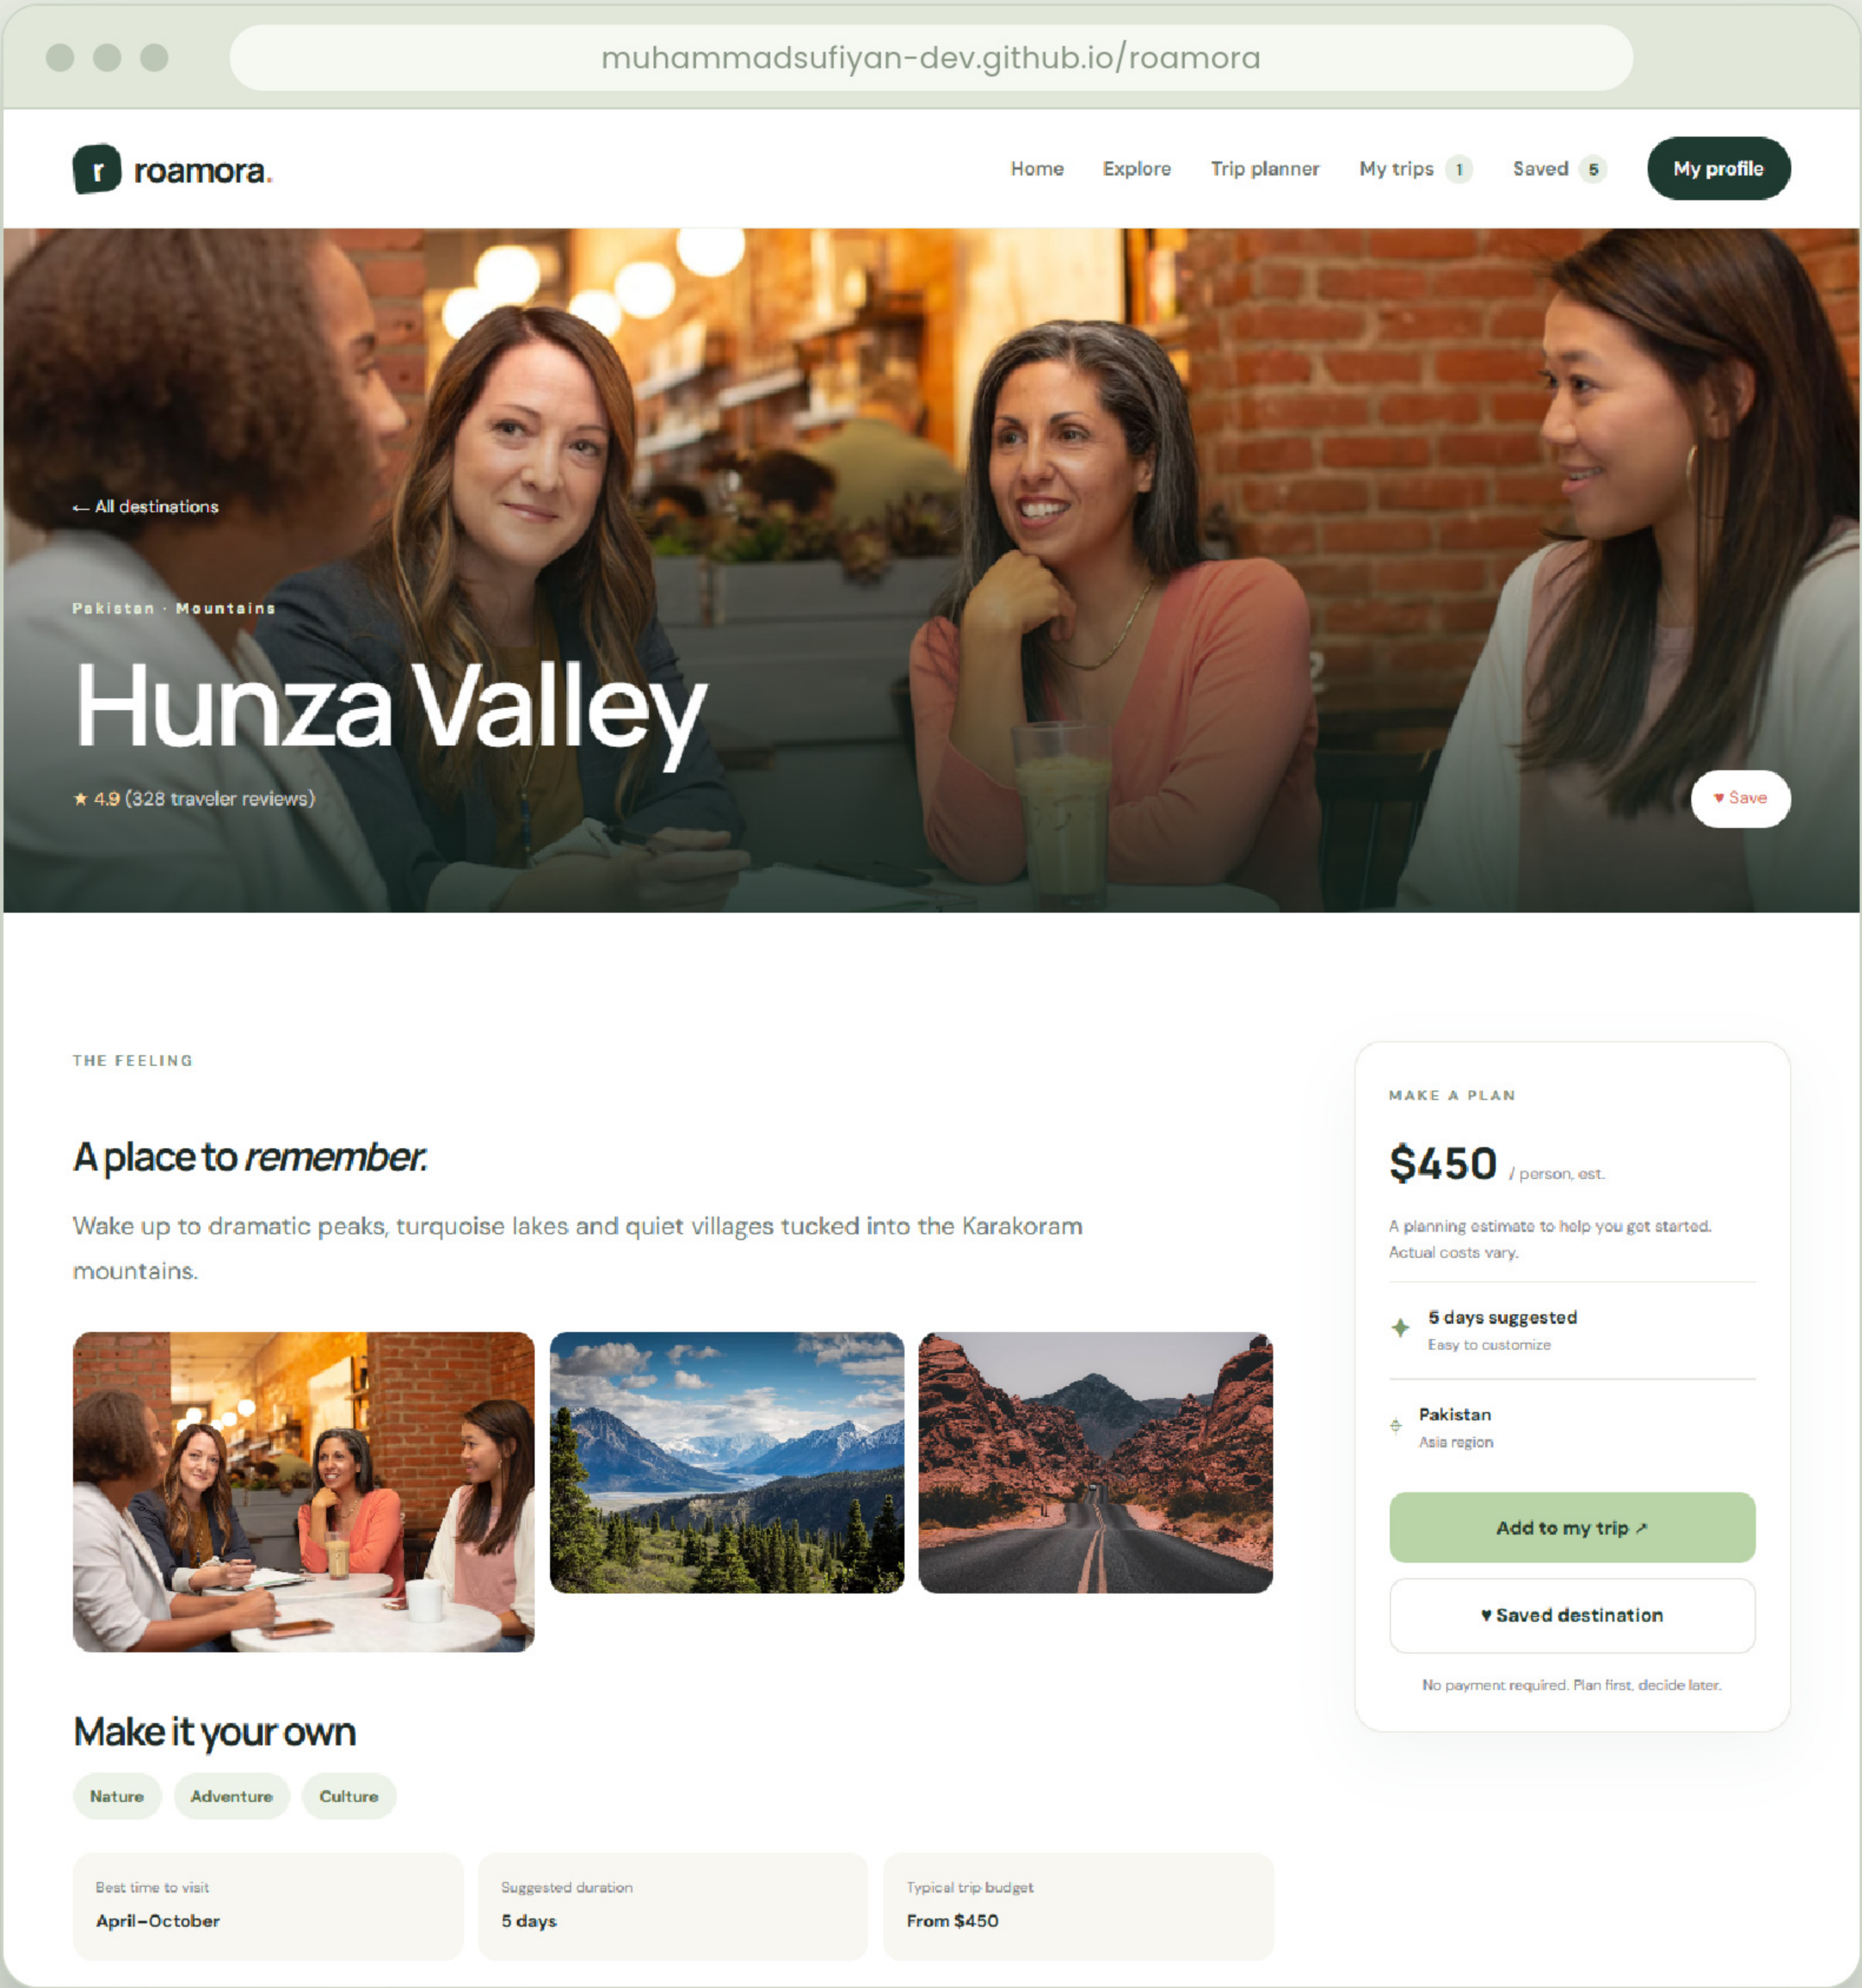

Find your *somewhere*.

Search places and countries, filter by travel style and region, sort results and browse destination cards with trip length, ratings and from-prices.

Destination *details*

A full-bleed hero with rating and save button, a “feeling” story, photo gallery, tags, best time to visit, budget — plus a plan card with Add to my trip.

Itinerary & notes

A simple day-by-day outline, traveler notes with star ratings, and a form for sharing your own rating and note.

muhammadsufiyan-dev.github.io/roamora

A simple 5-day outline

DAY 01

Arrive & get your bearings
Settle in, wander nearby streets and enjoy an easy first evening.

DAY 02

Explore the local favorites
Visit a landmark, try a local specialty and leave time to explore.

DAY 03

Take the scenic route
Make space for the views, a walk and an unplanned detour.

DAY 04

Find a hidden gem
Settle in, wander nearby streets and enjoy an easy first evening.

DAY 05

Slow down and soak it in
Visit a landmark, try a local specialty and leave time to explore.

Traveler notes

Mina R.

★★★★★

Beautiful place and a great reminder to leave room in the schedule for spontaneous stops.

Hassan A.

★★★★☆

The best moments were the small local places we found along the way.

Share your travel note

Your rating

★★★★★ — Loved it

What should another traveler know?

Post review

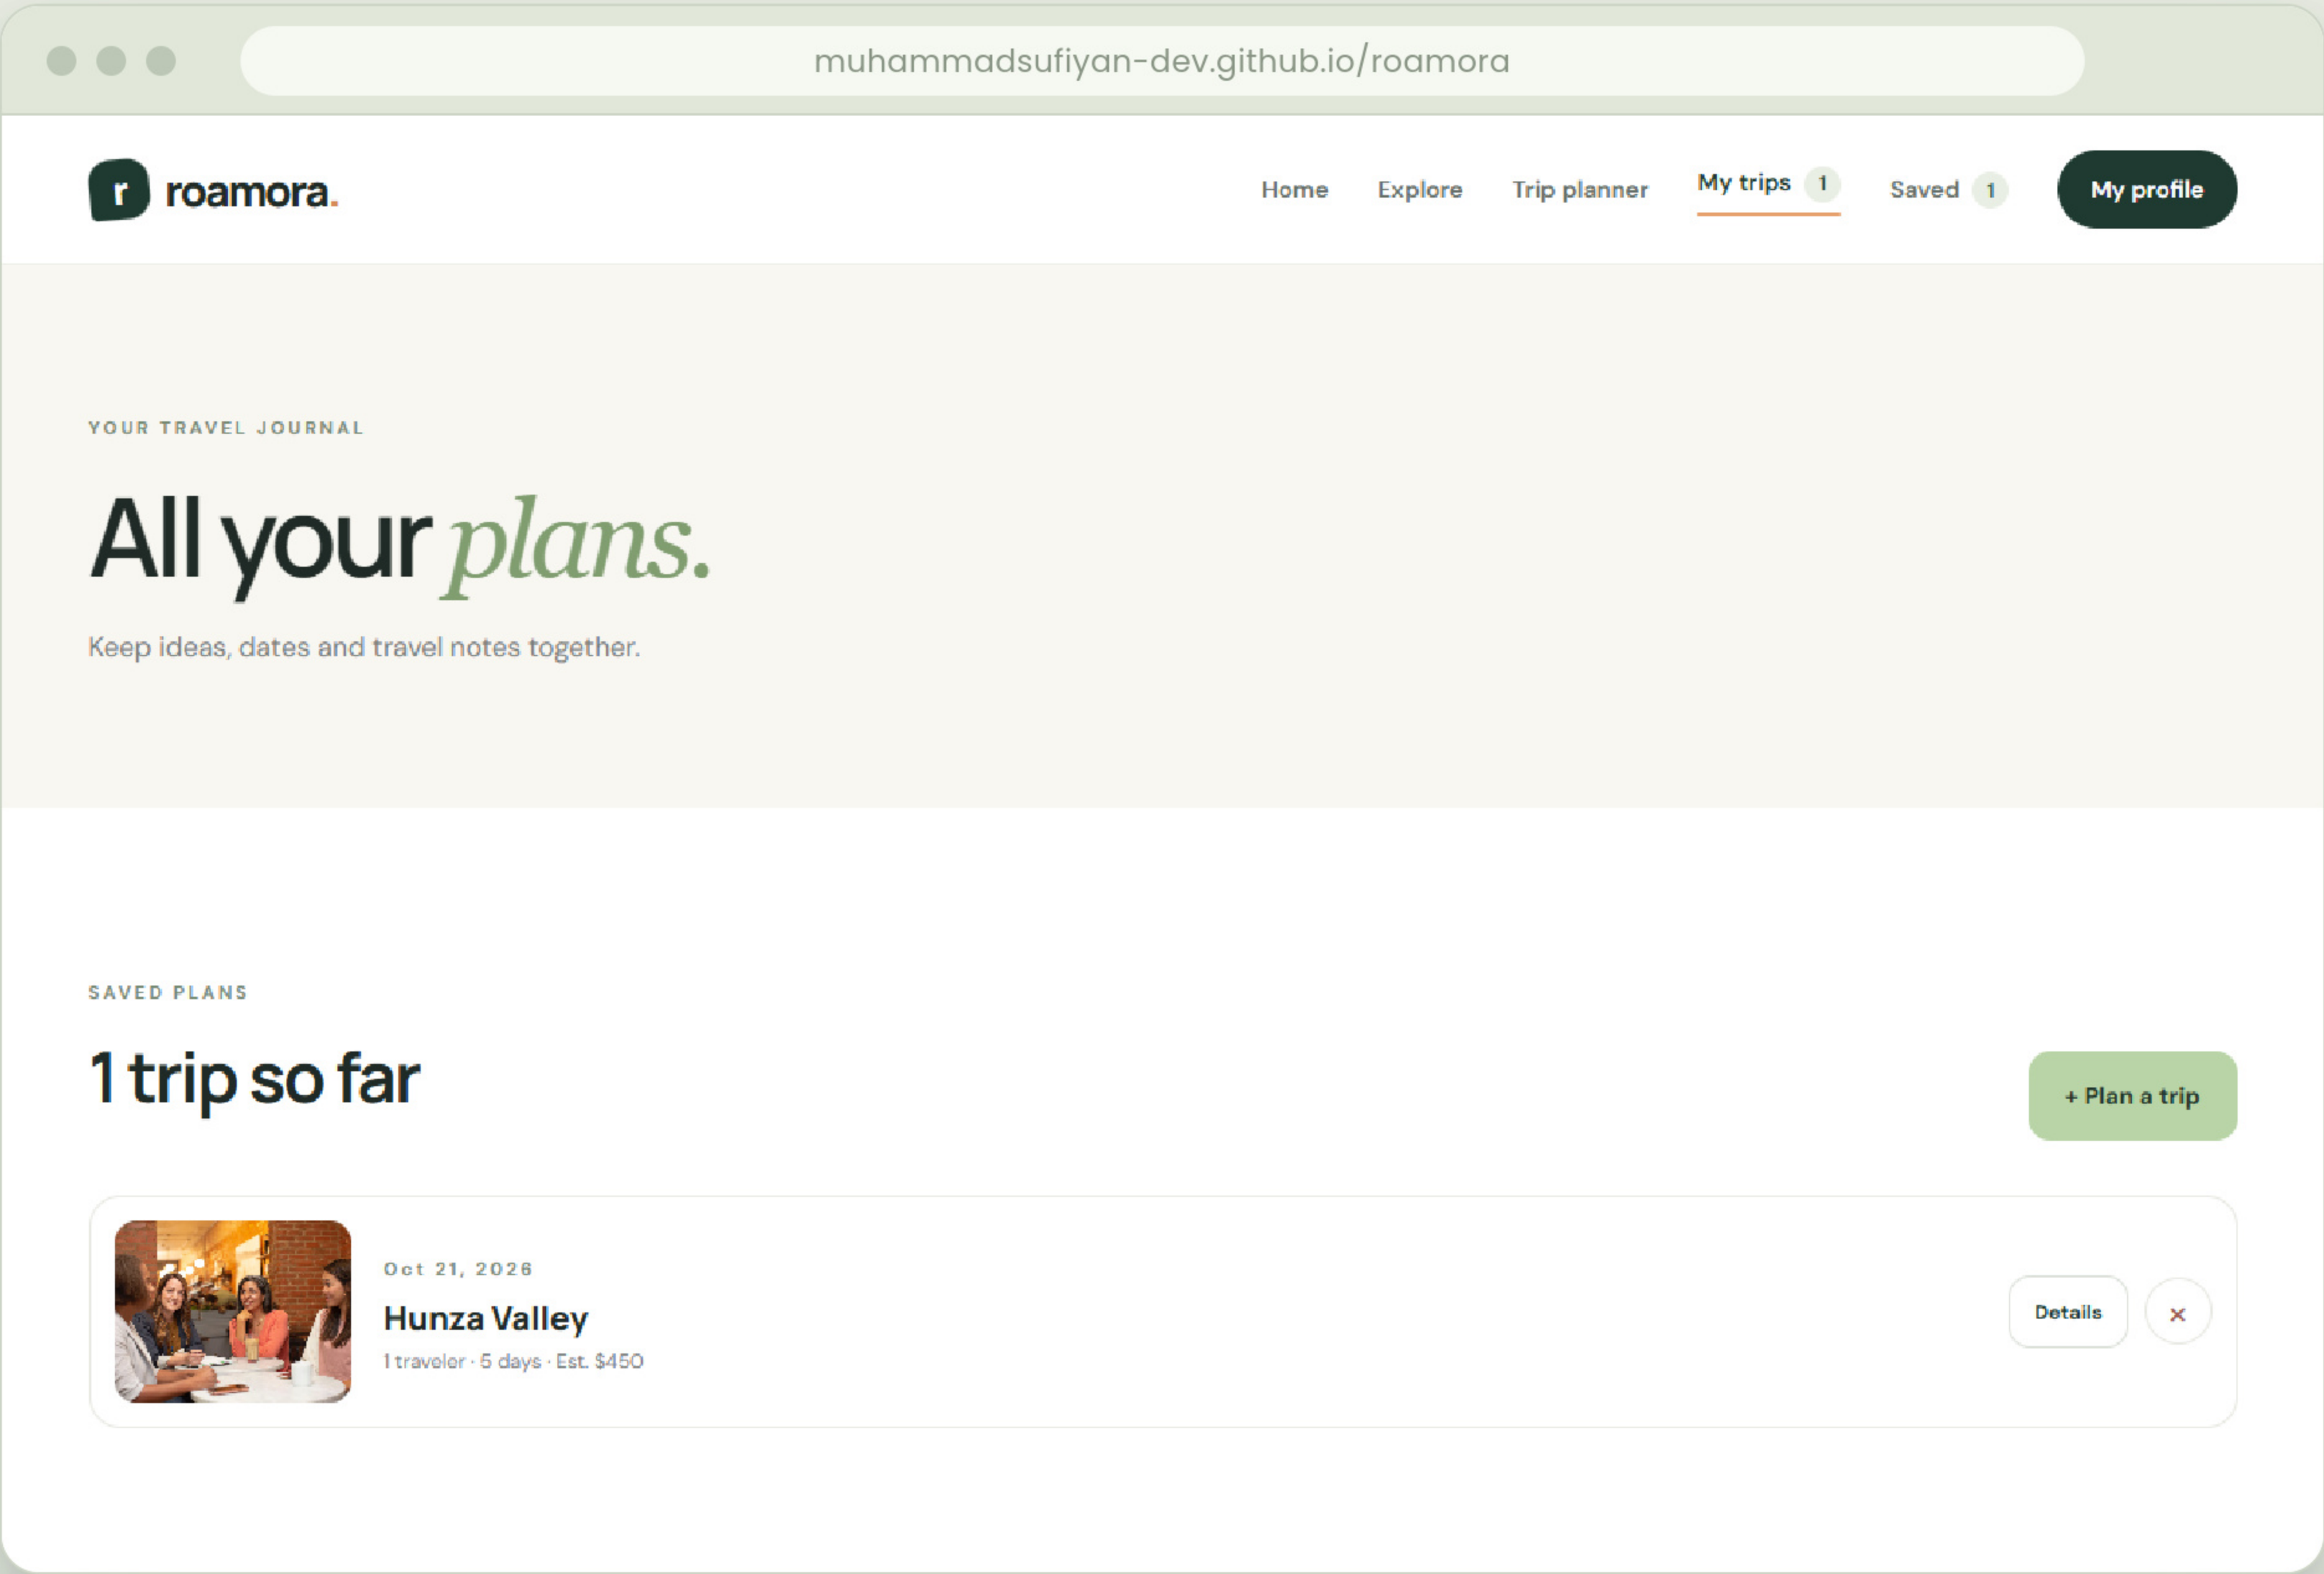

Trip *planner*

A simple trip builder — pick a destination, start date and travelers, add notes and save the plan — with a gentle reminder to keep room for wonder.

All your *plans*.

Every saved trip in one travel journal — date, destination, travelers, days and estimated cost, with Details and remove actions.

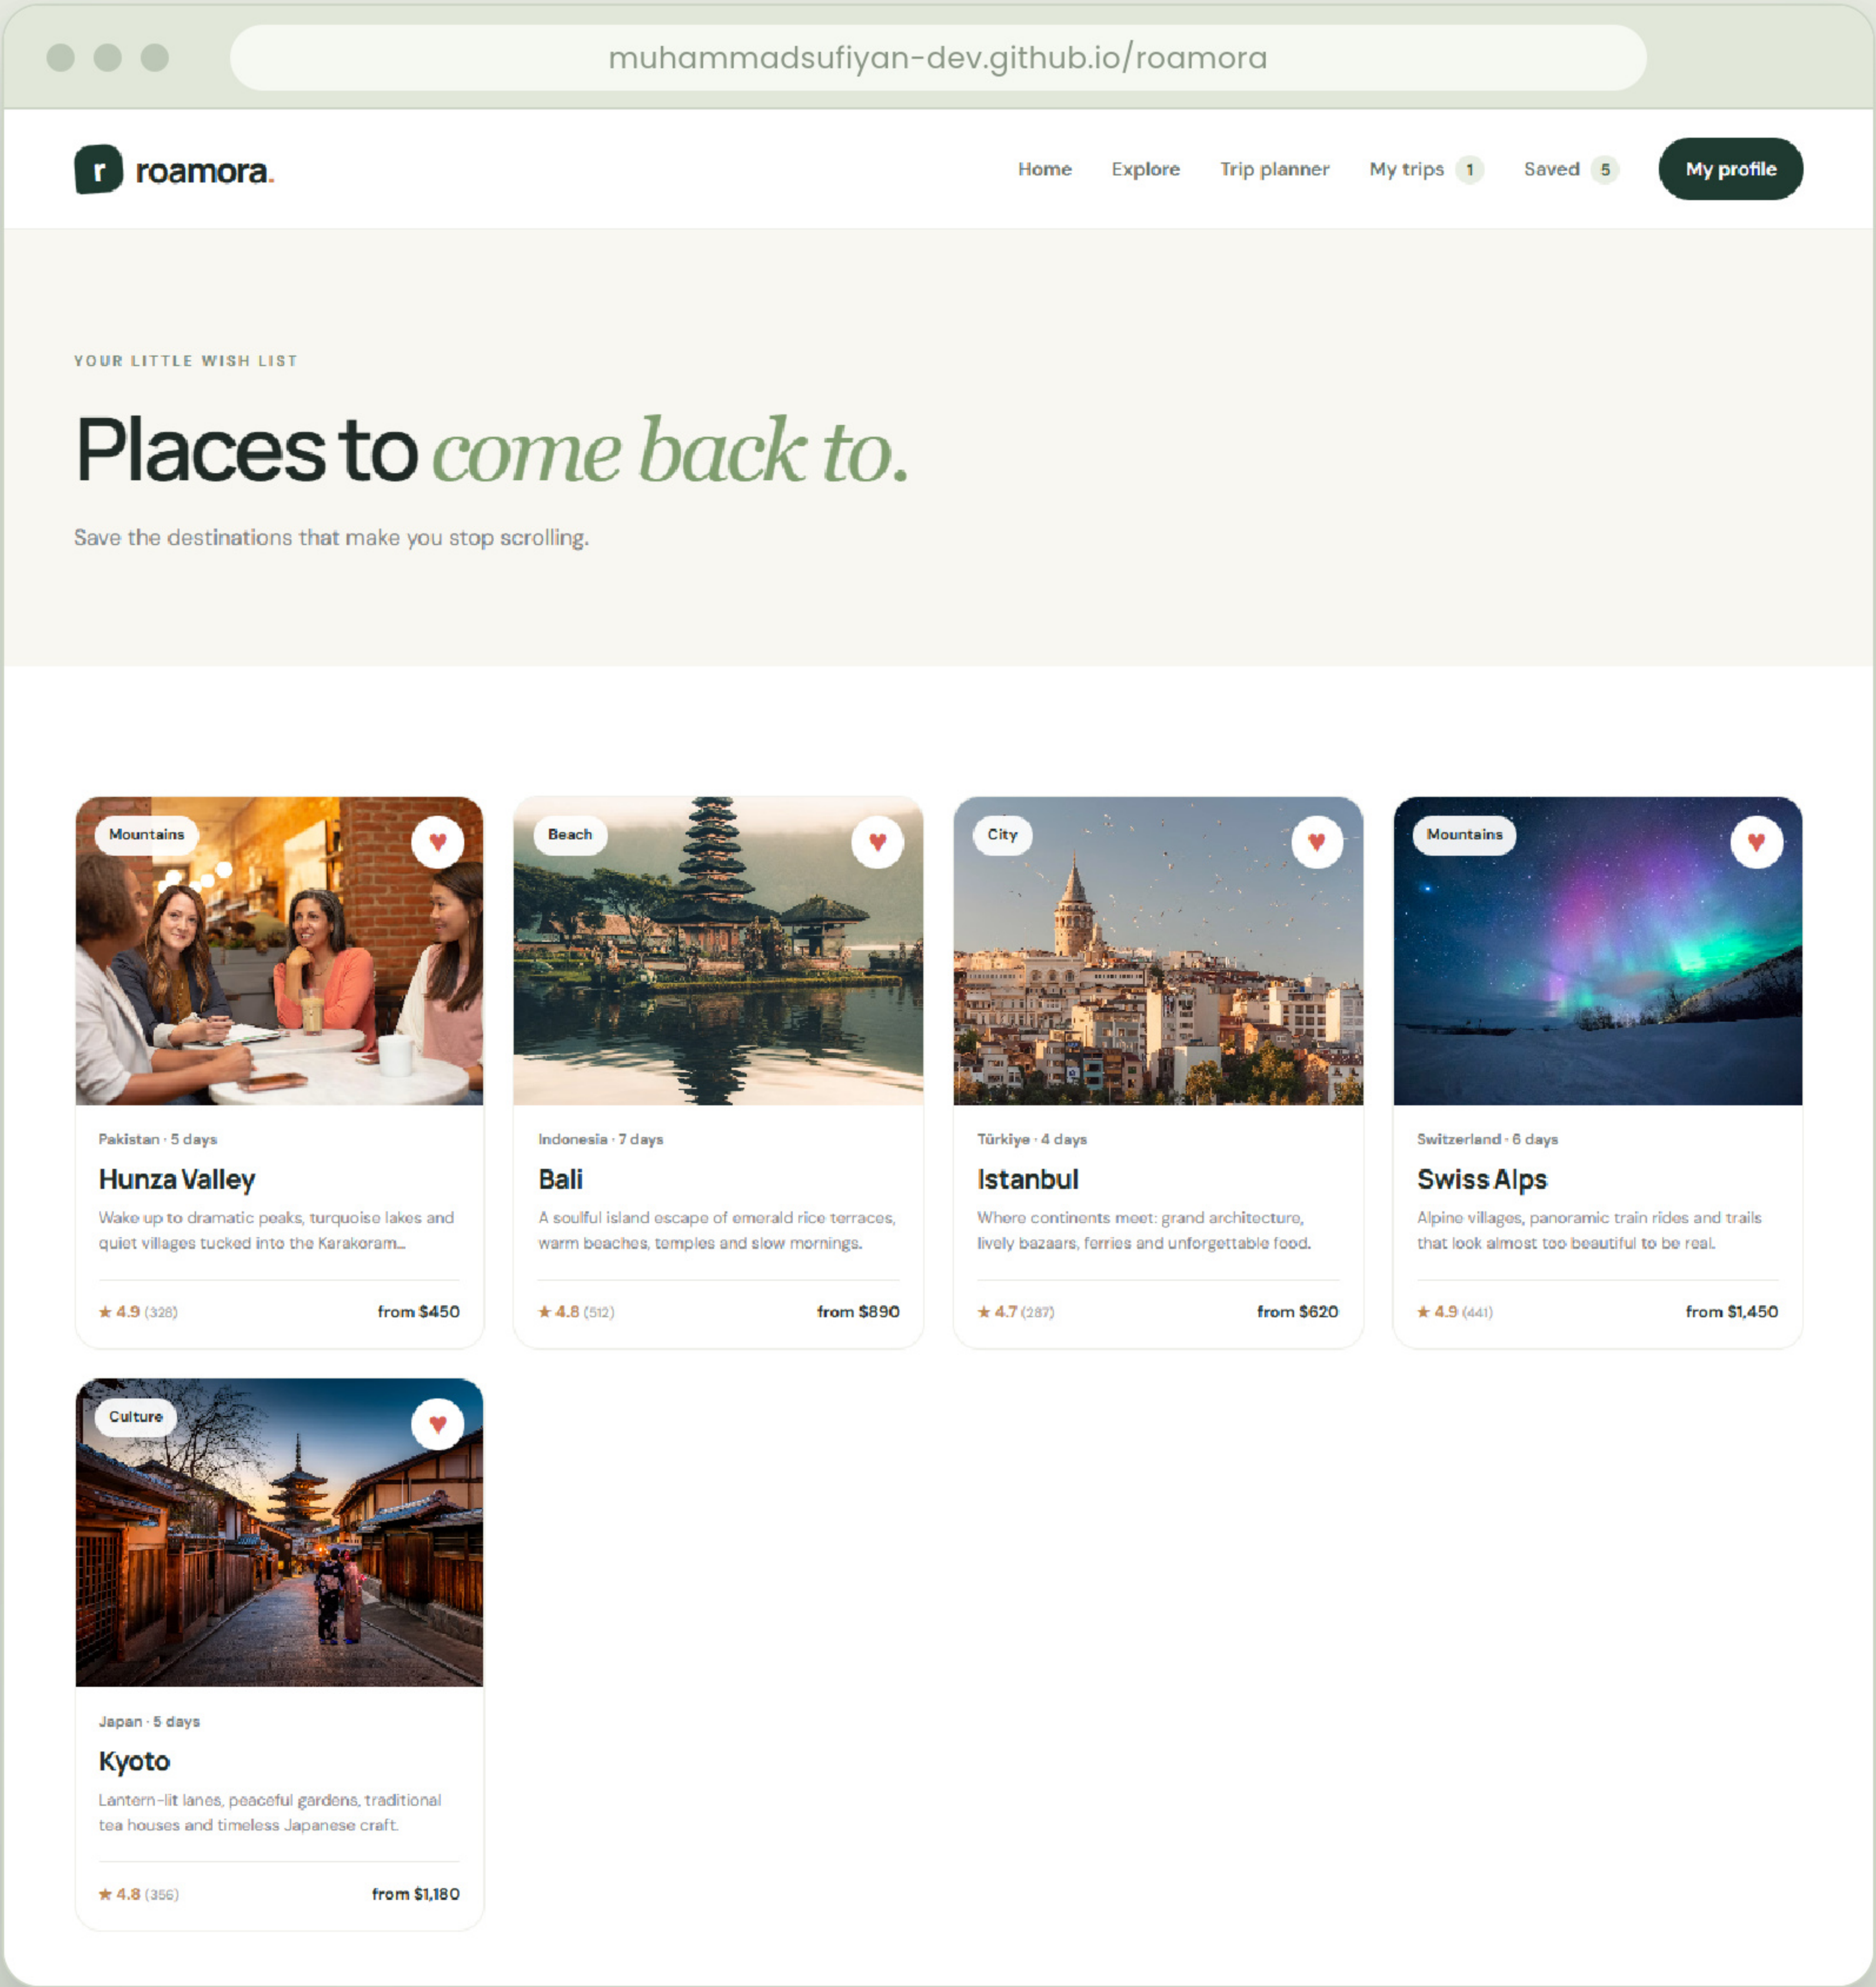

- Saved plans in one place
- Date · travelers · days · est. cost
- Quick Plan a trip button

Places to *come back to.*

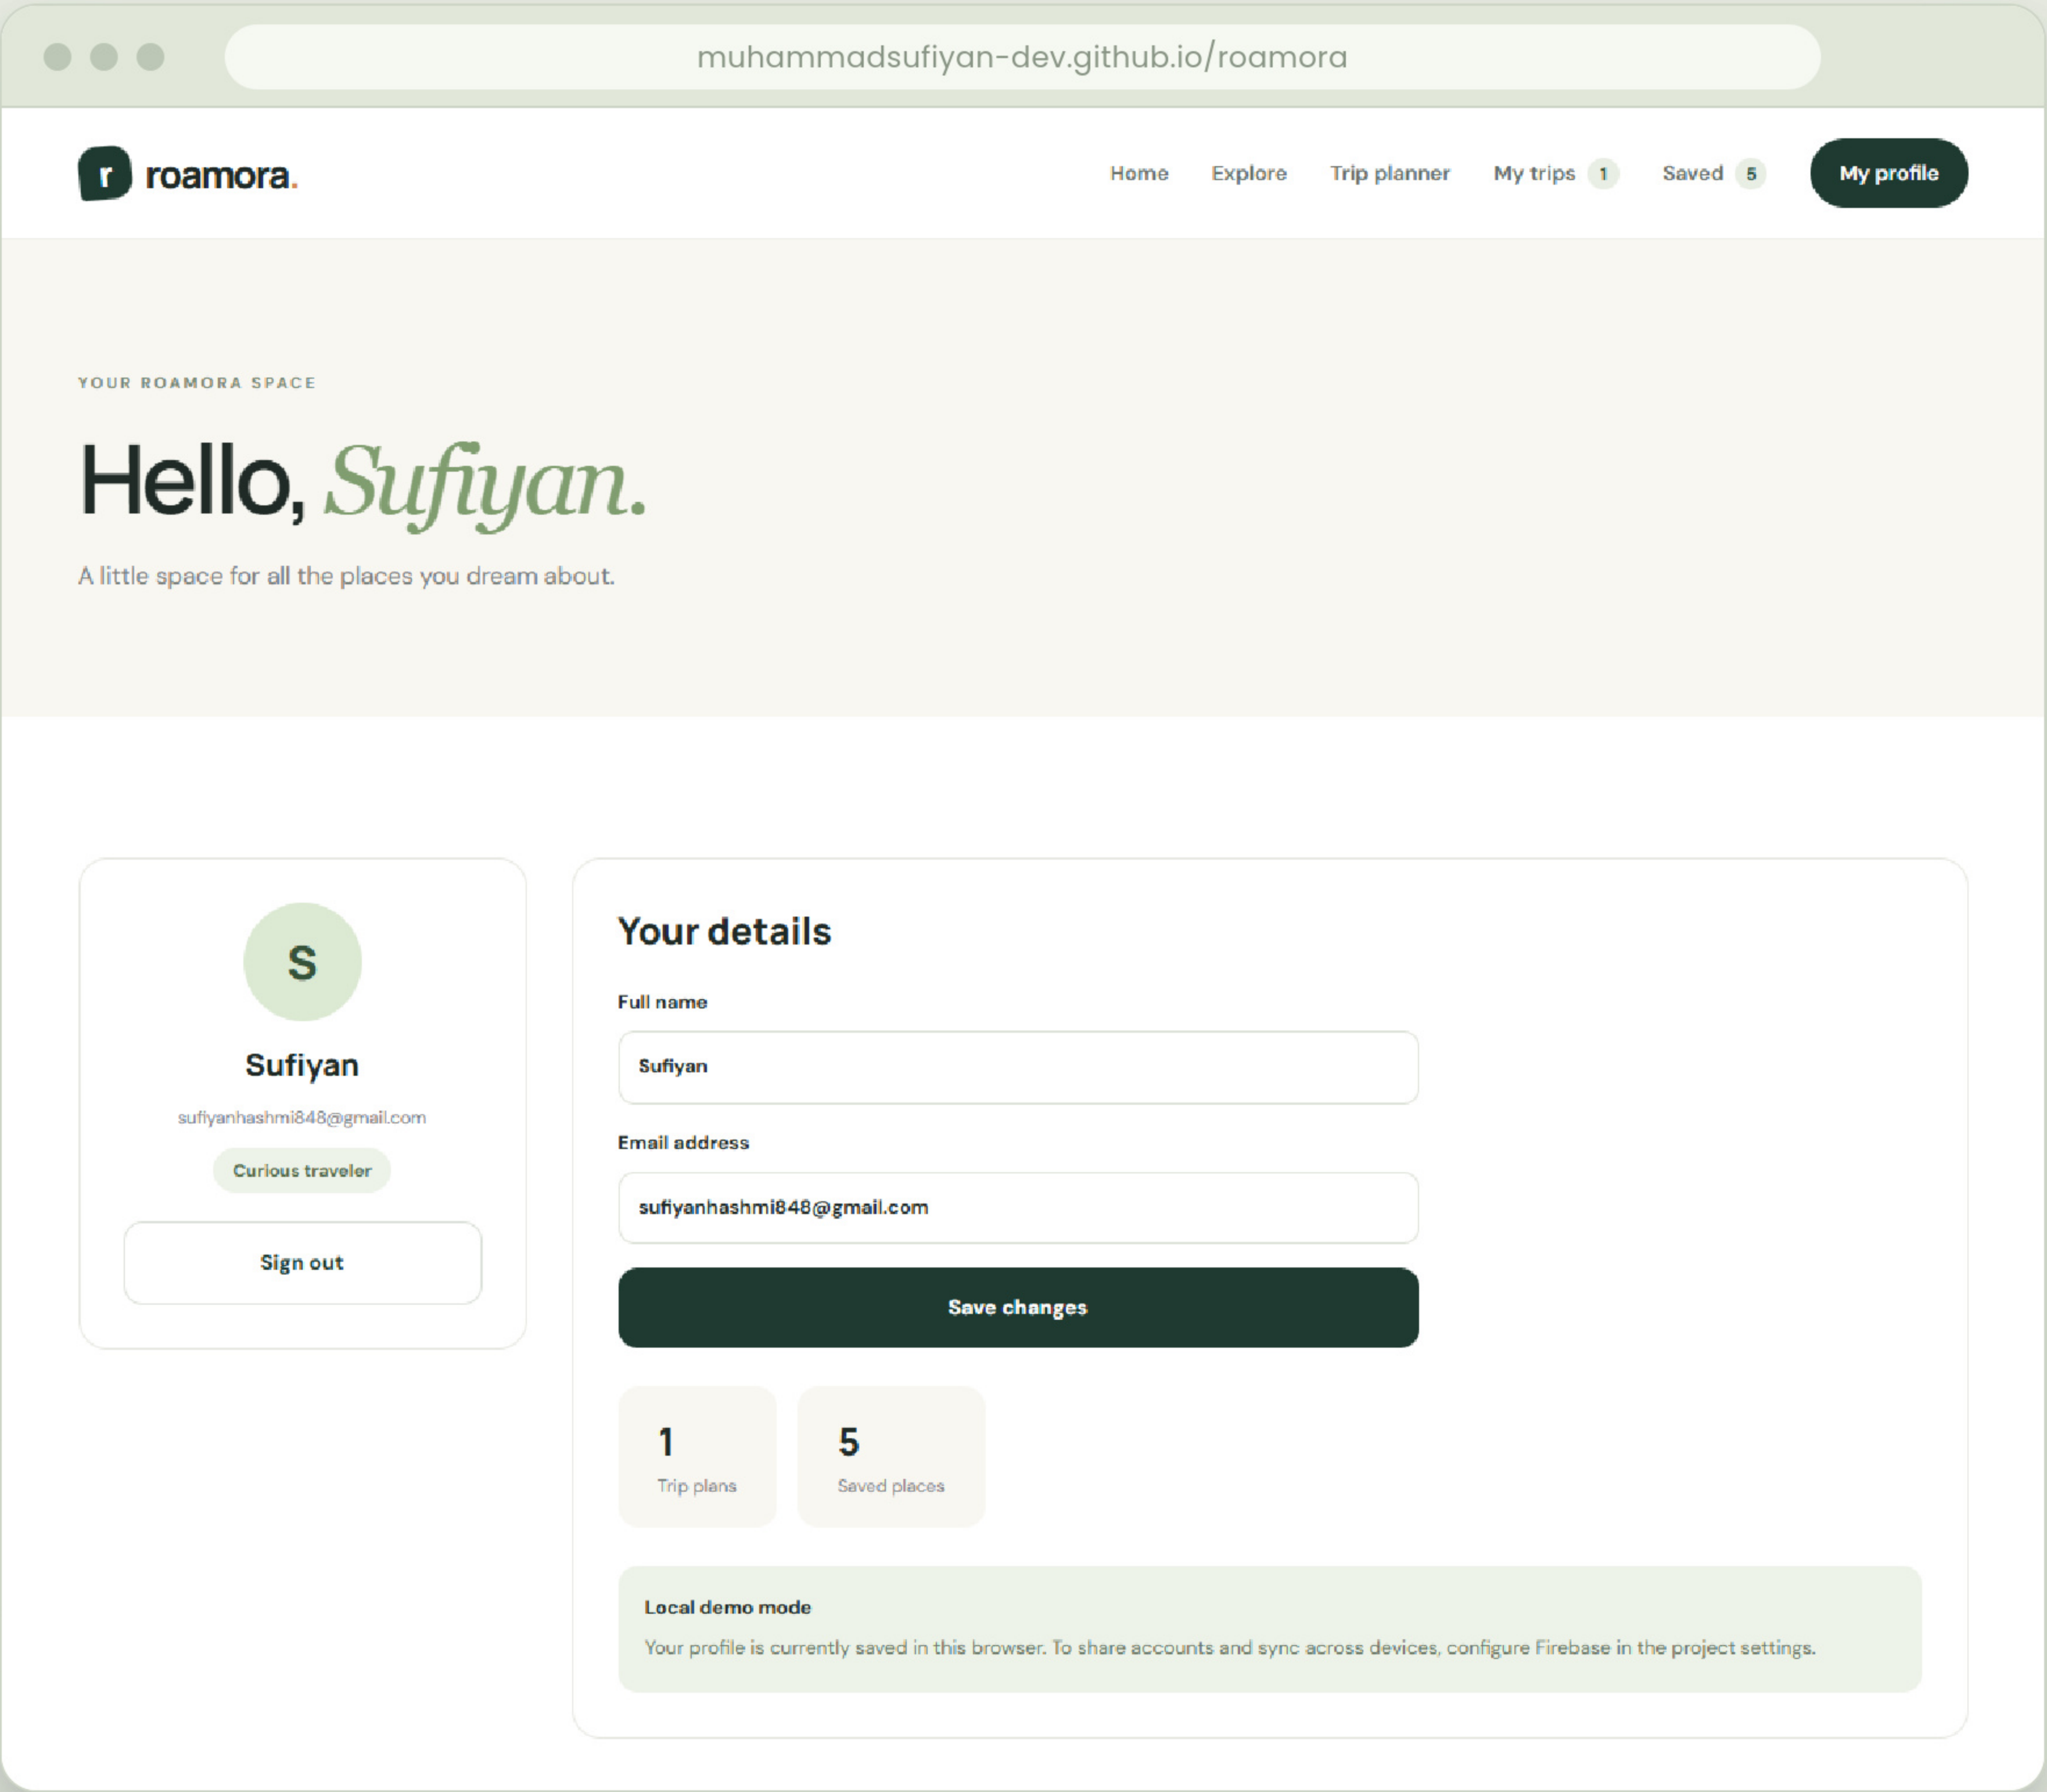

Favorites saved with a heart live in one wish list — with country, trip length, rating and from-price on every card.

08

Your *profile*

A personal space with avatar, name and email, editable details, trip and saved counts, and sign out.

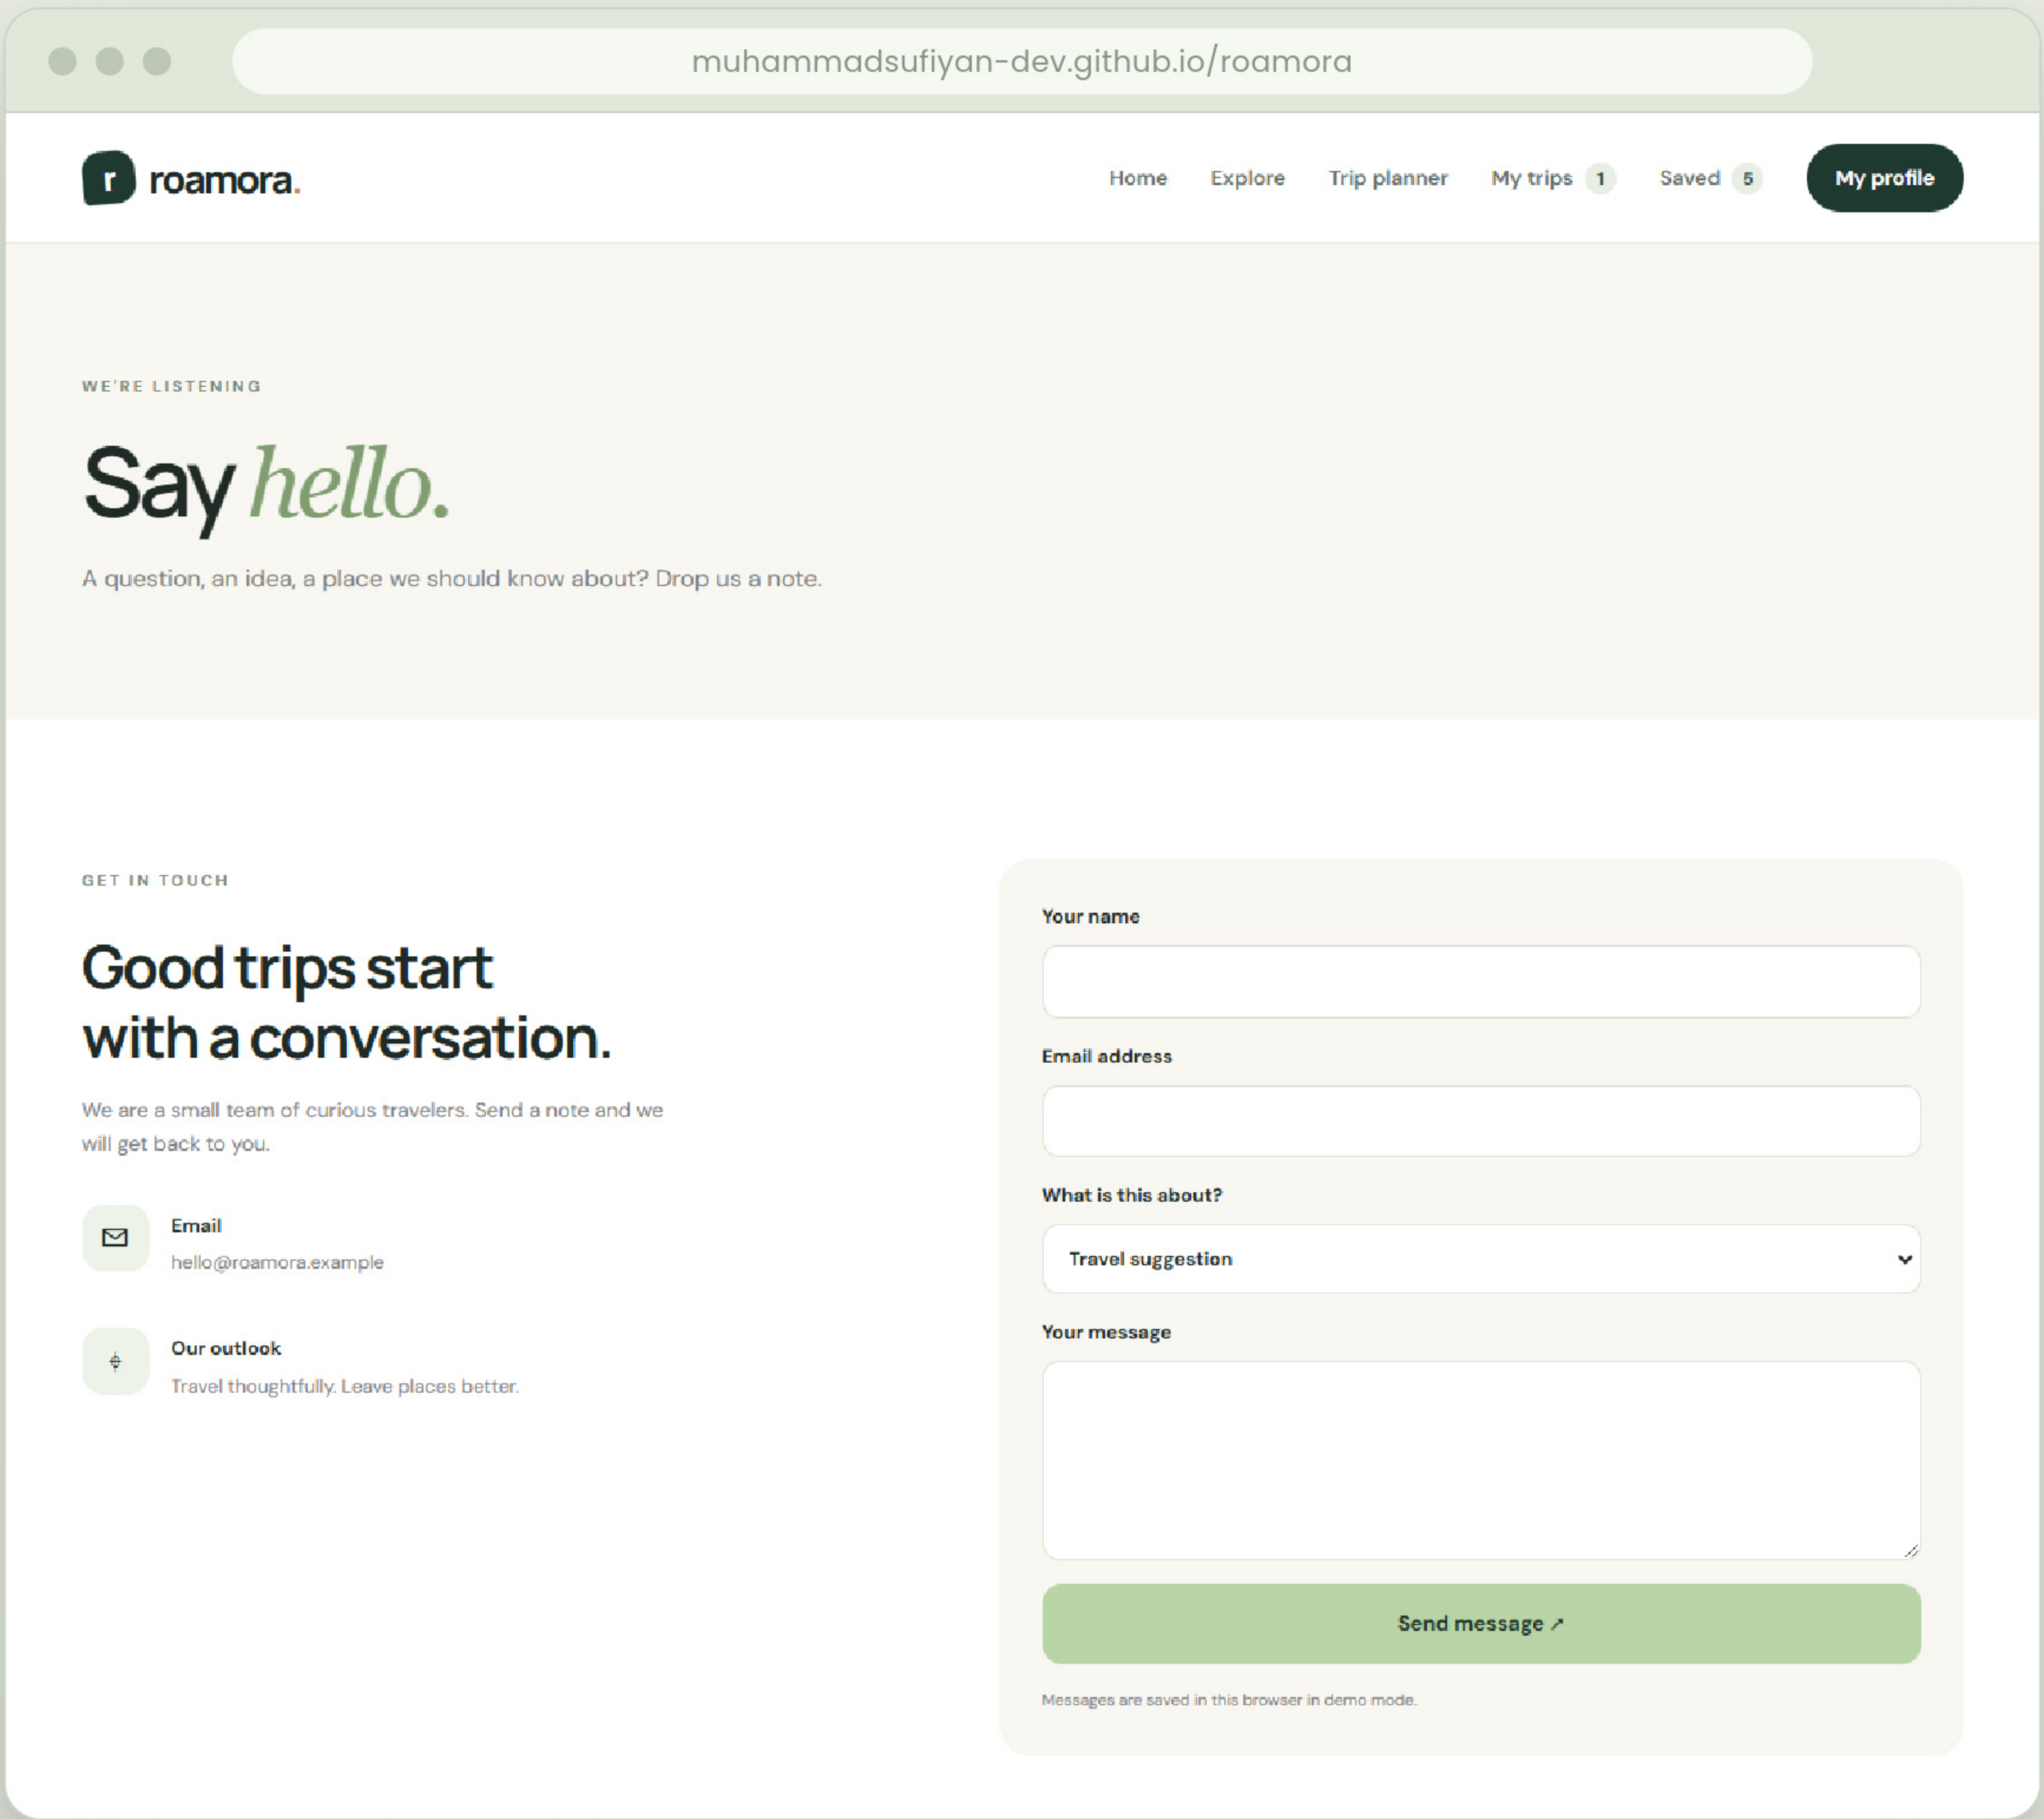

• Editable details

• Trips & saved counters

• Sign out in one tap

Say *hello.*

A friendly contact page with a message form — name, email, topic and message — alongside email details and the Roamora outlook.

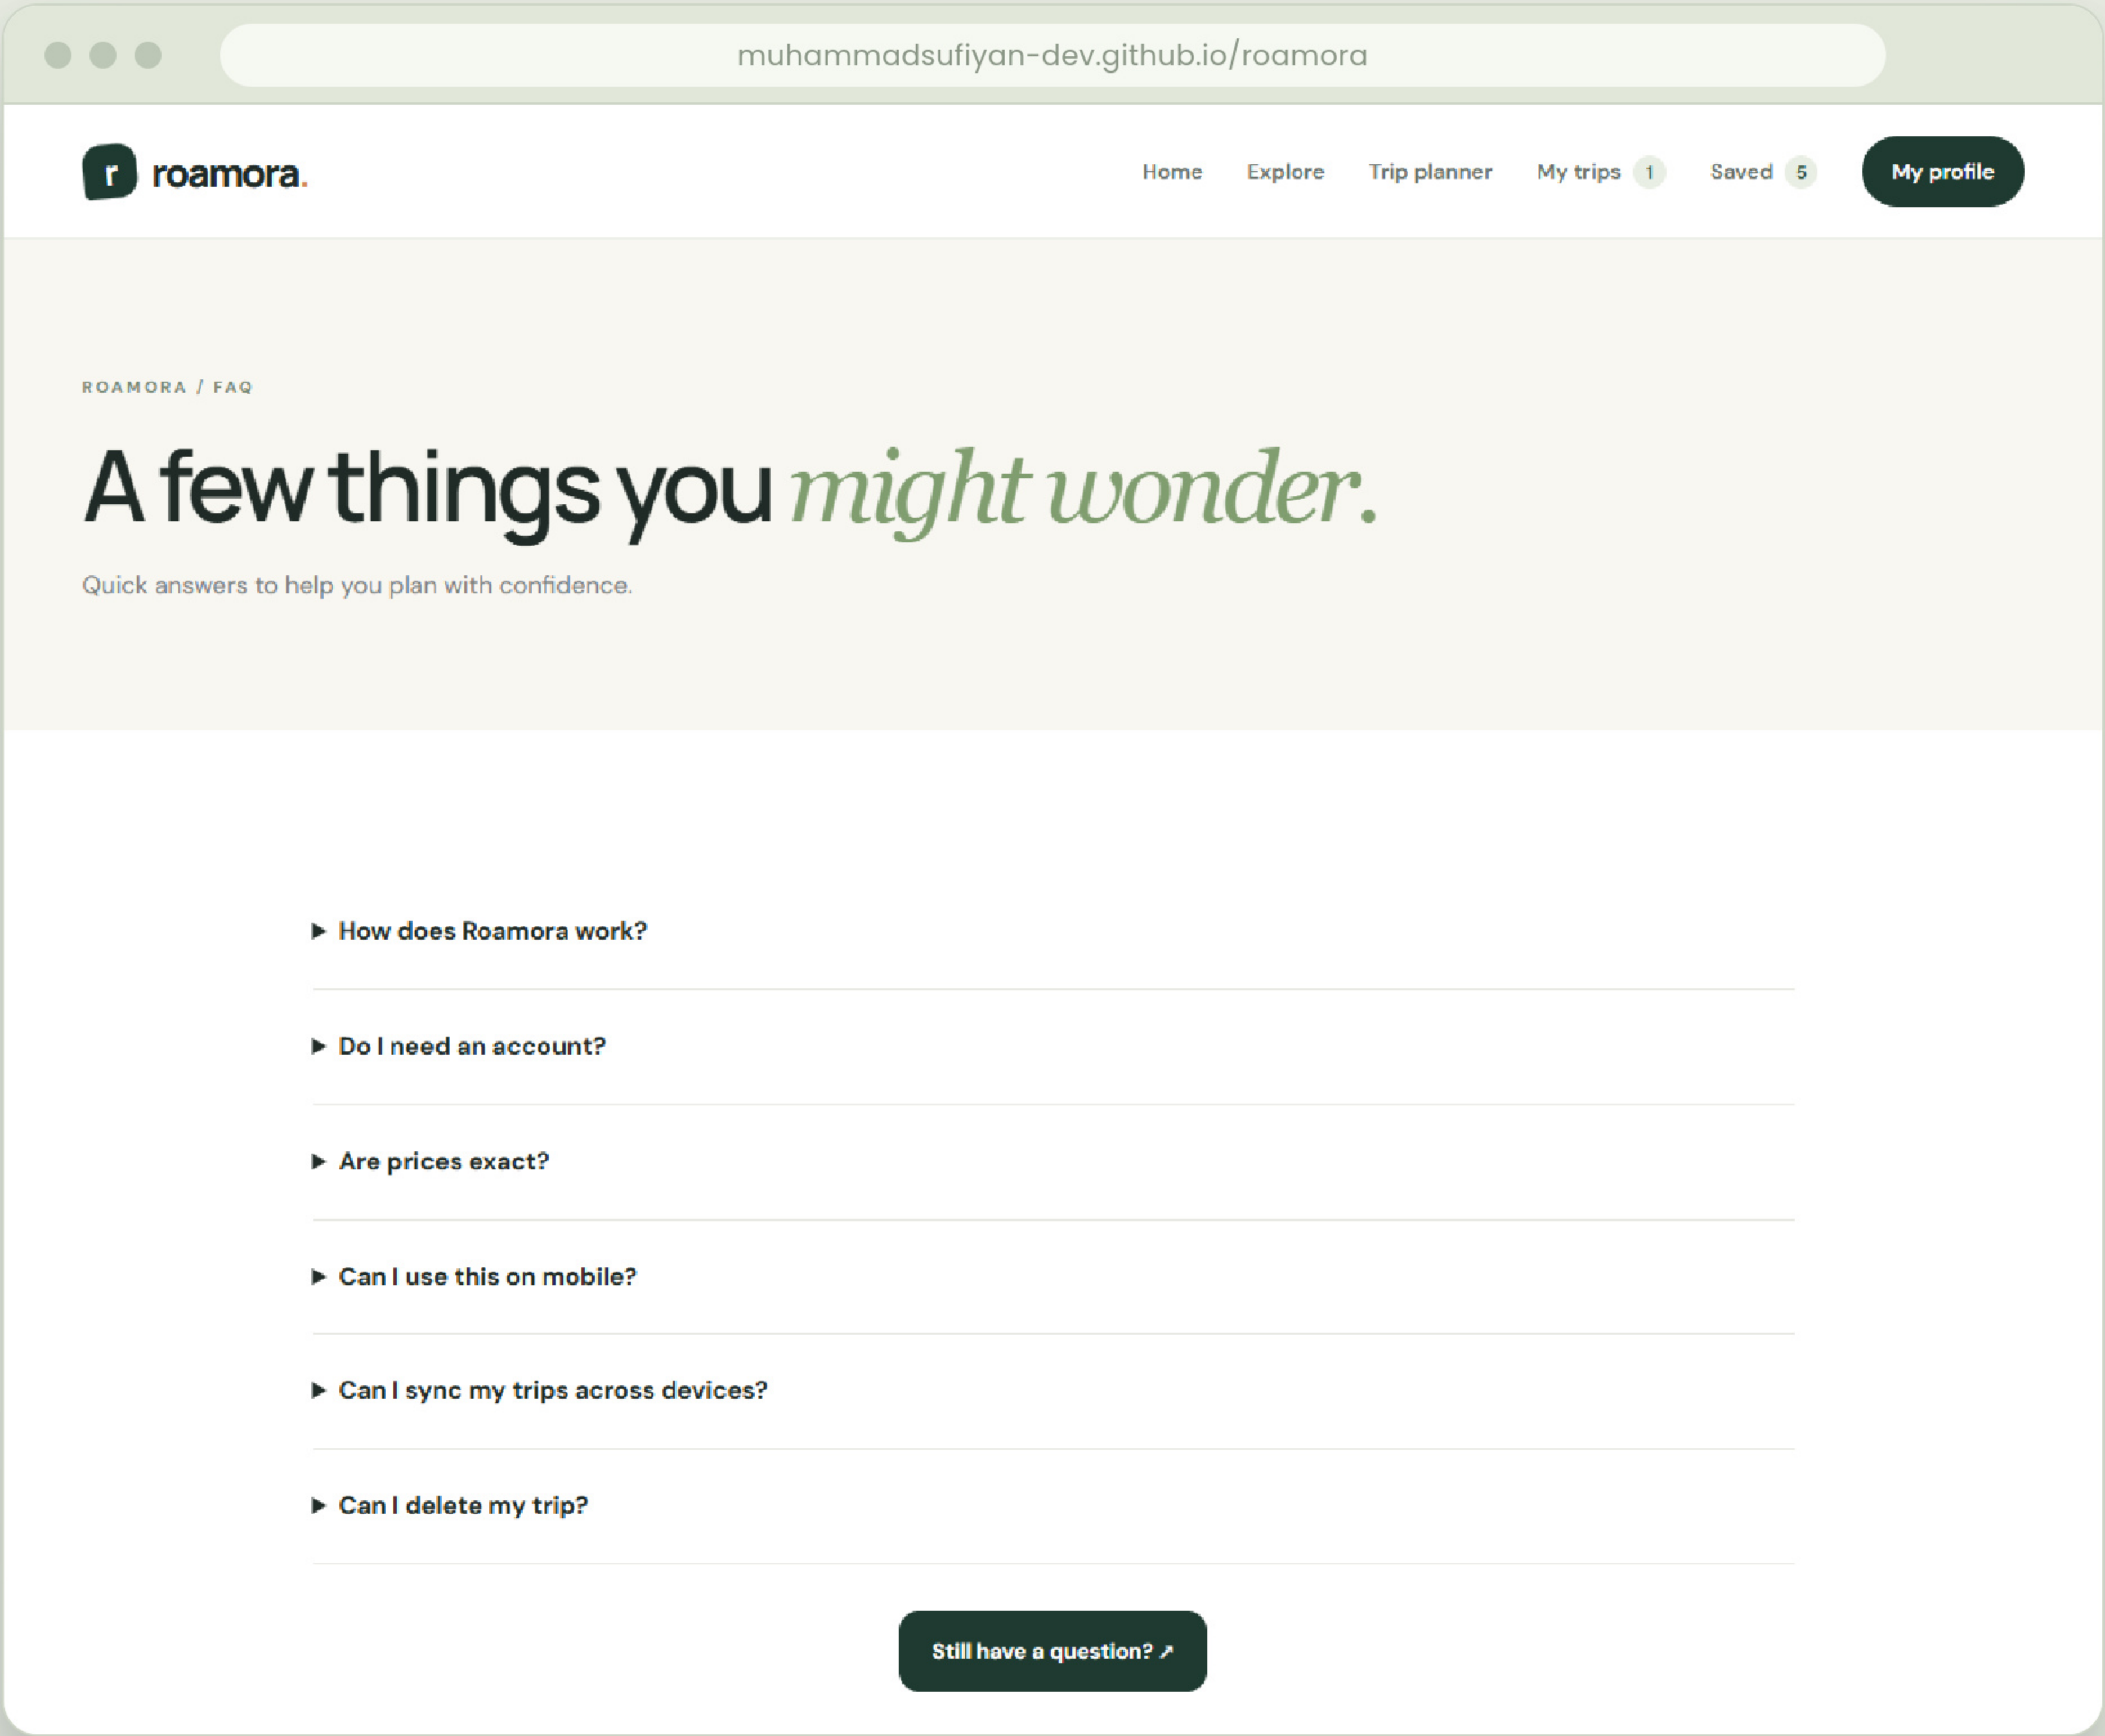

• Topic selector

• Message form

• Friendly, human tone

Quick *answers*

Expandable answers on how Roamora works, accounts, prices, mobile use, syncing trips and deleting plans.

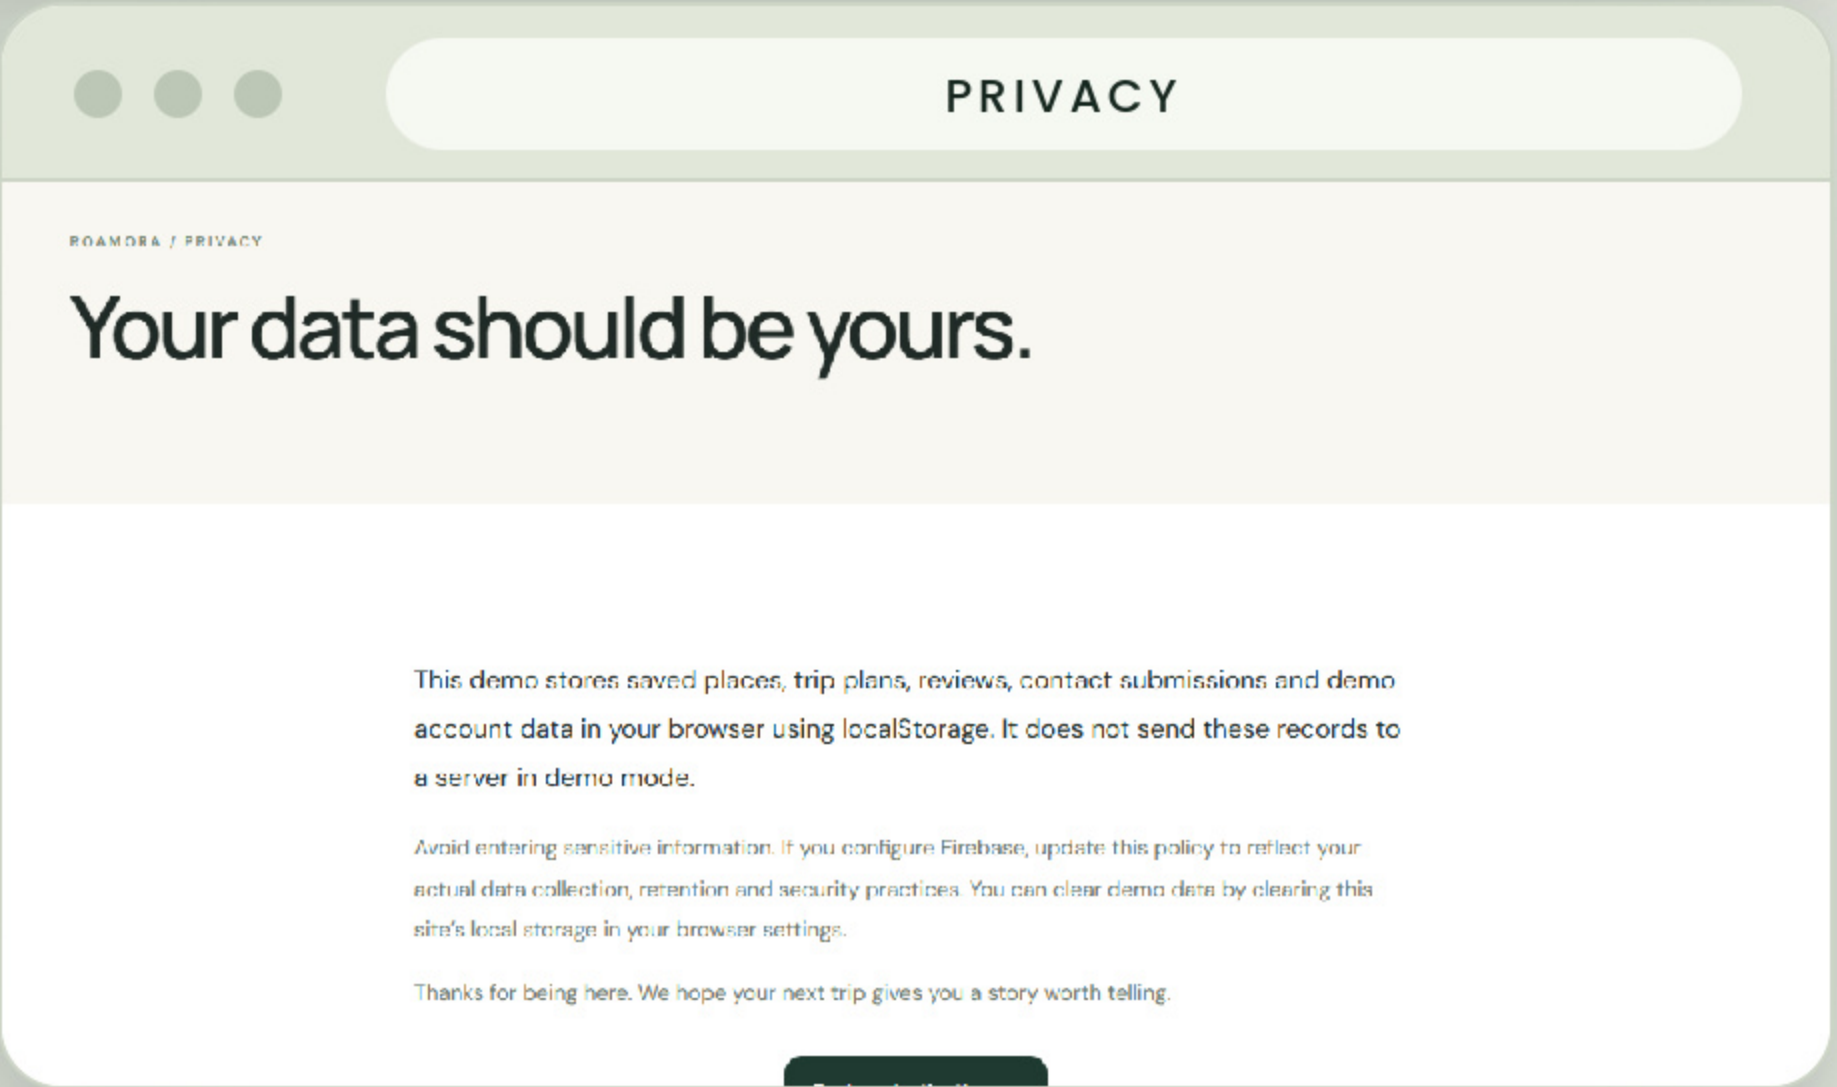

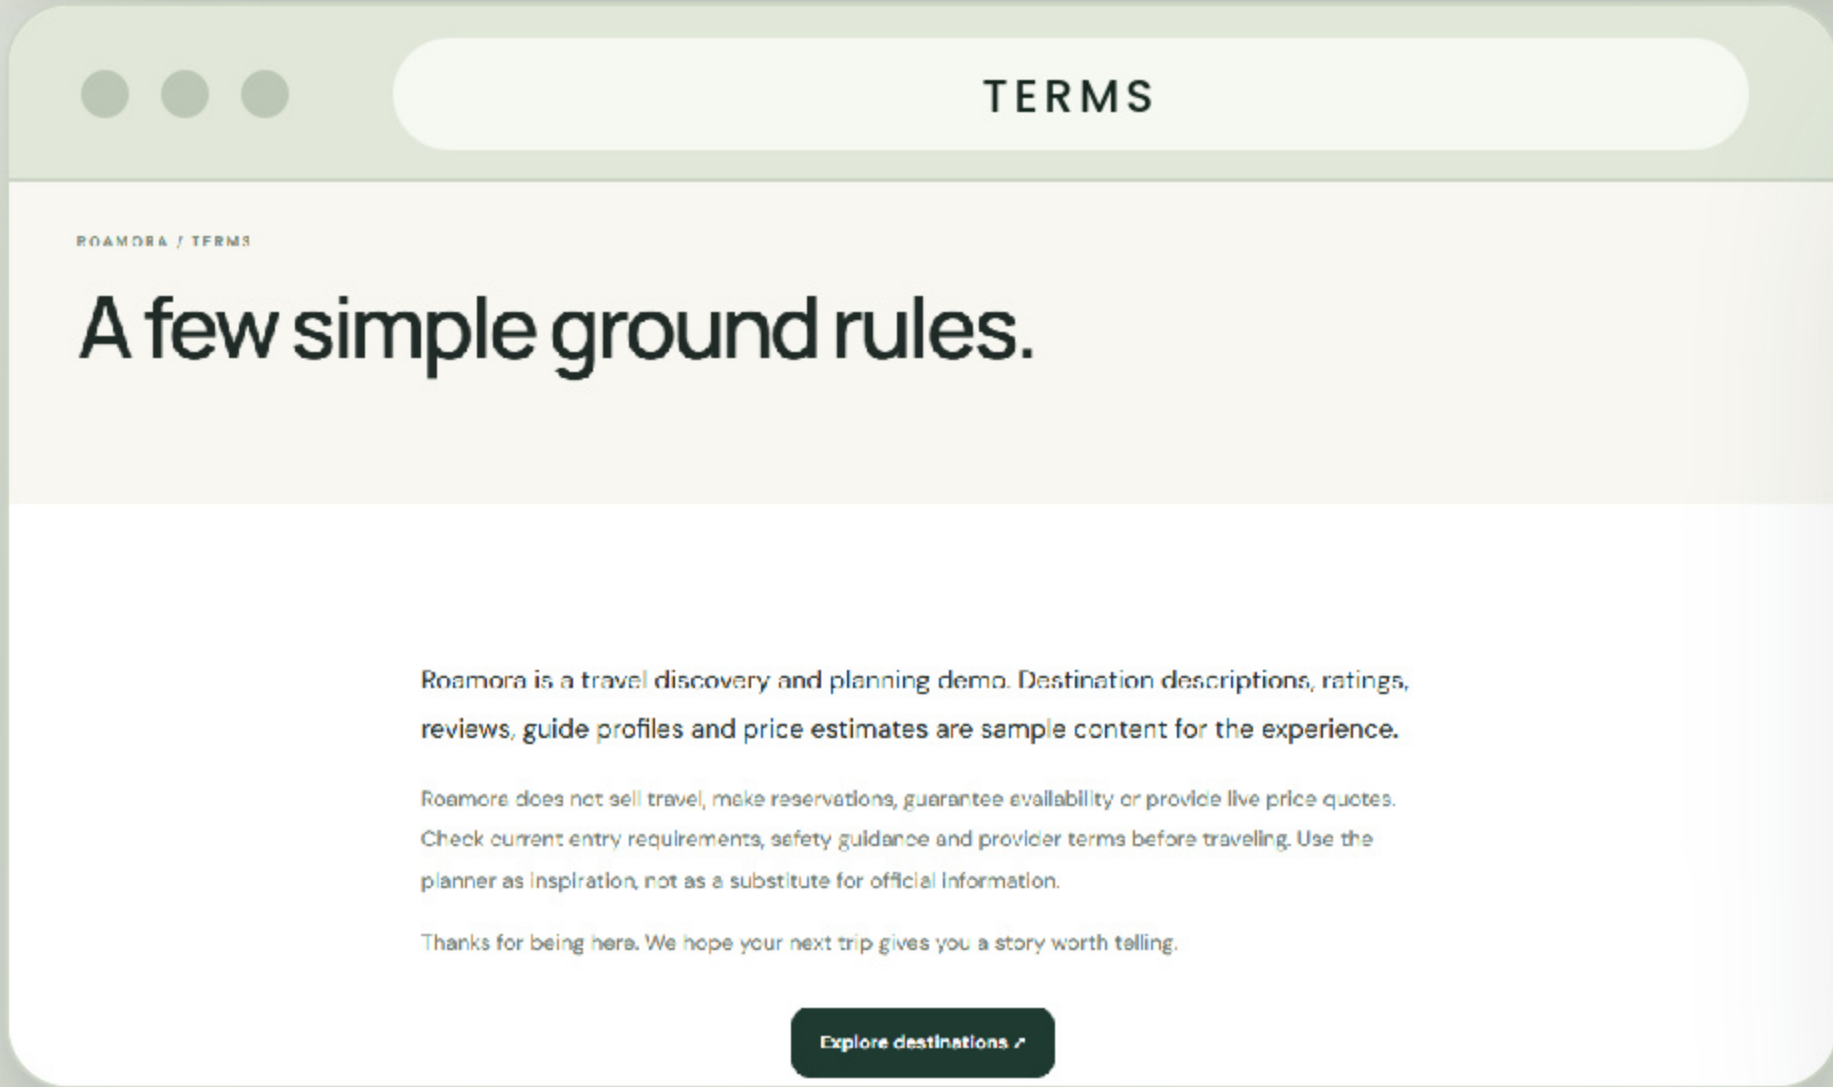

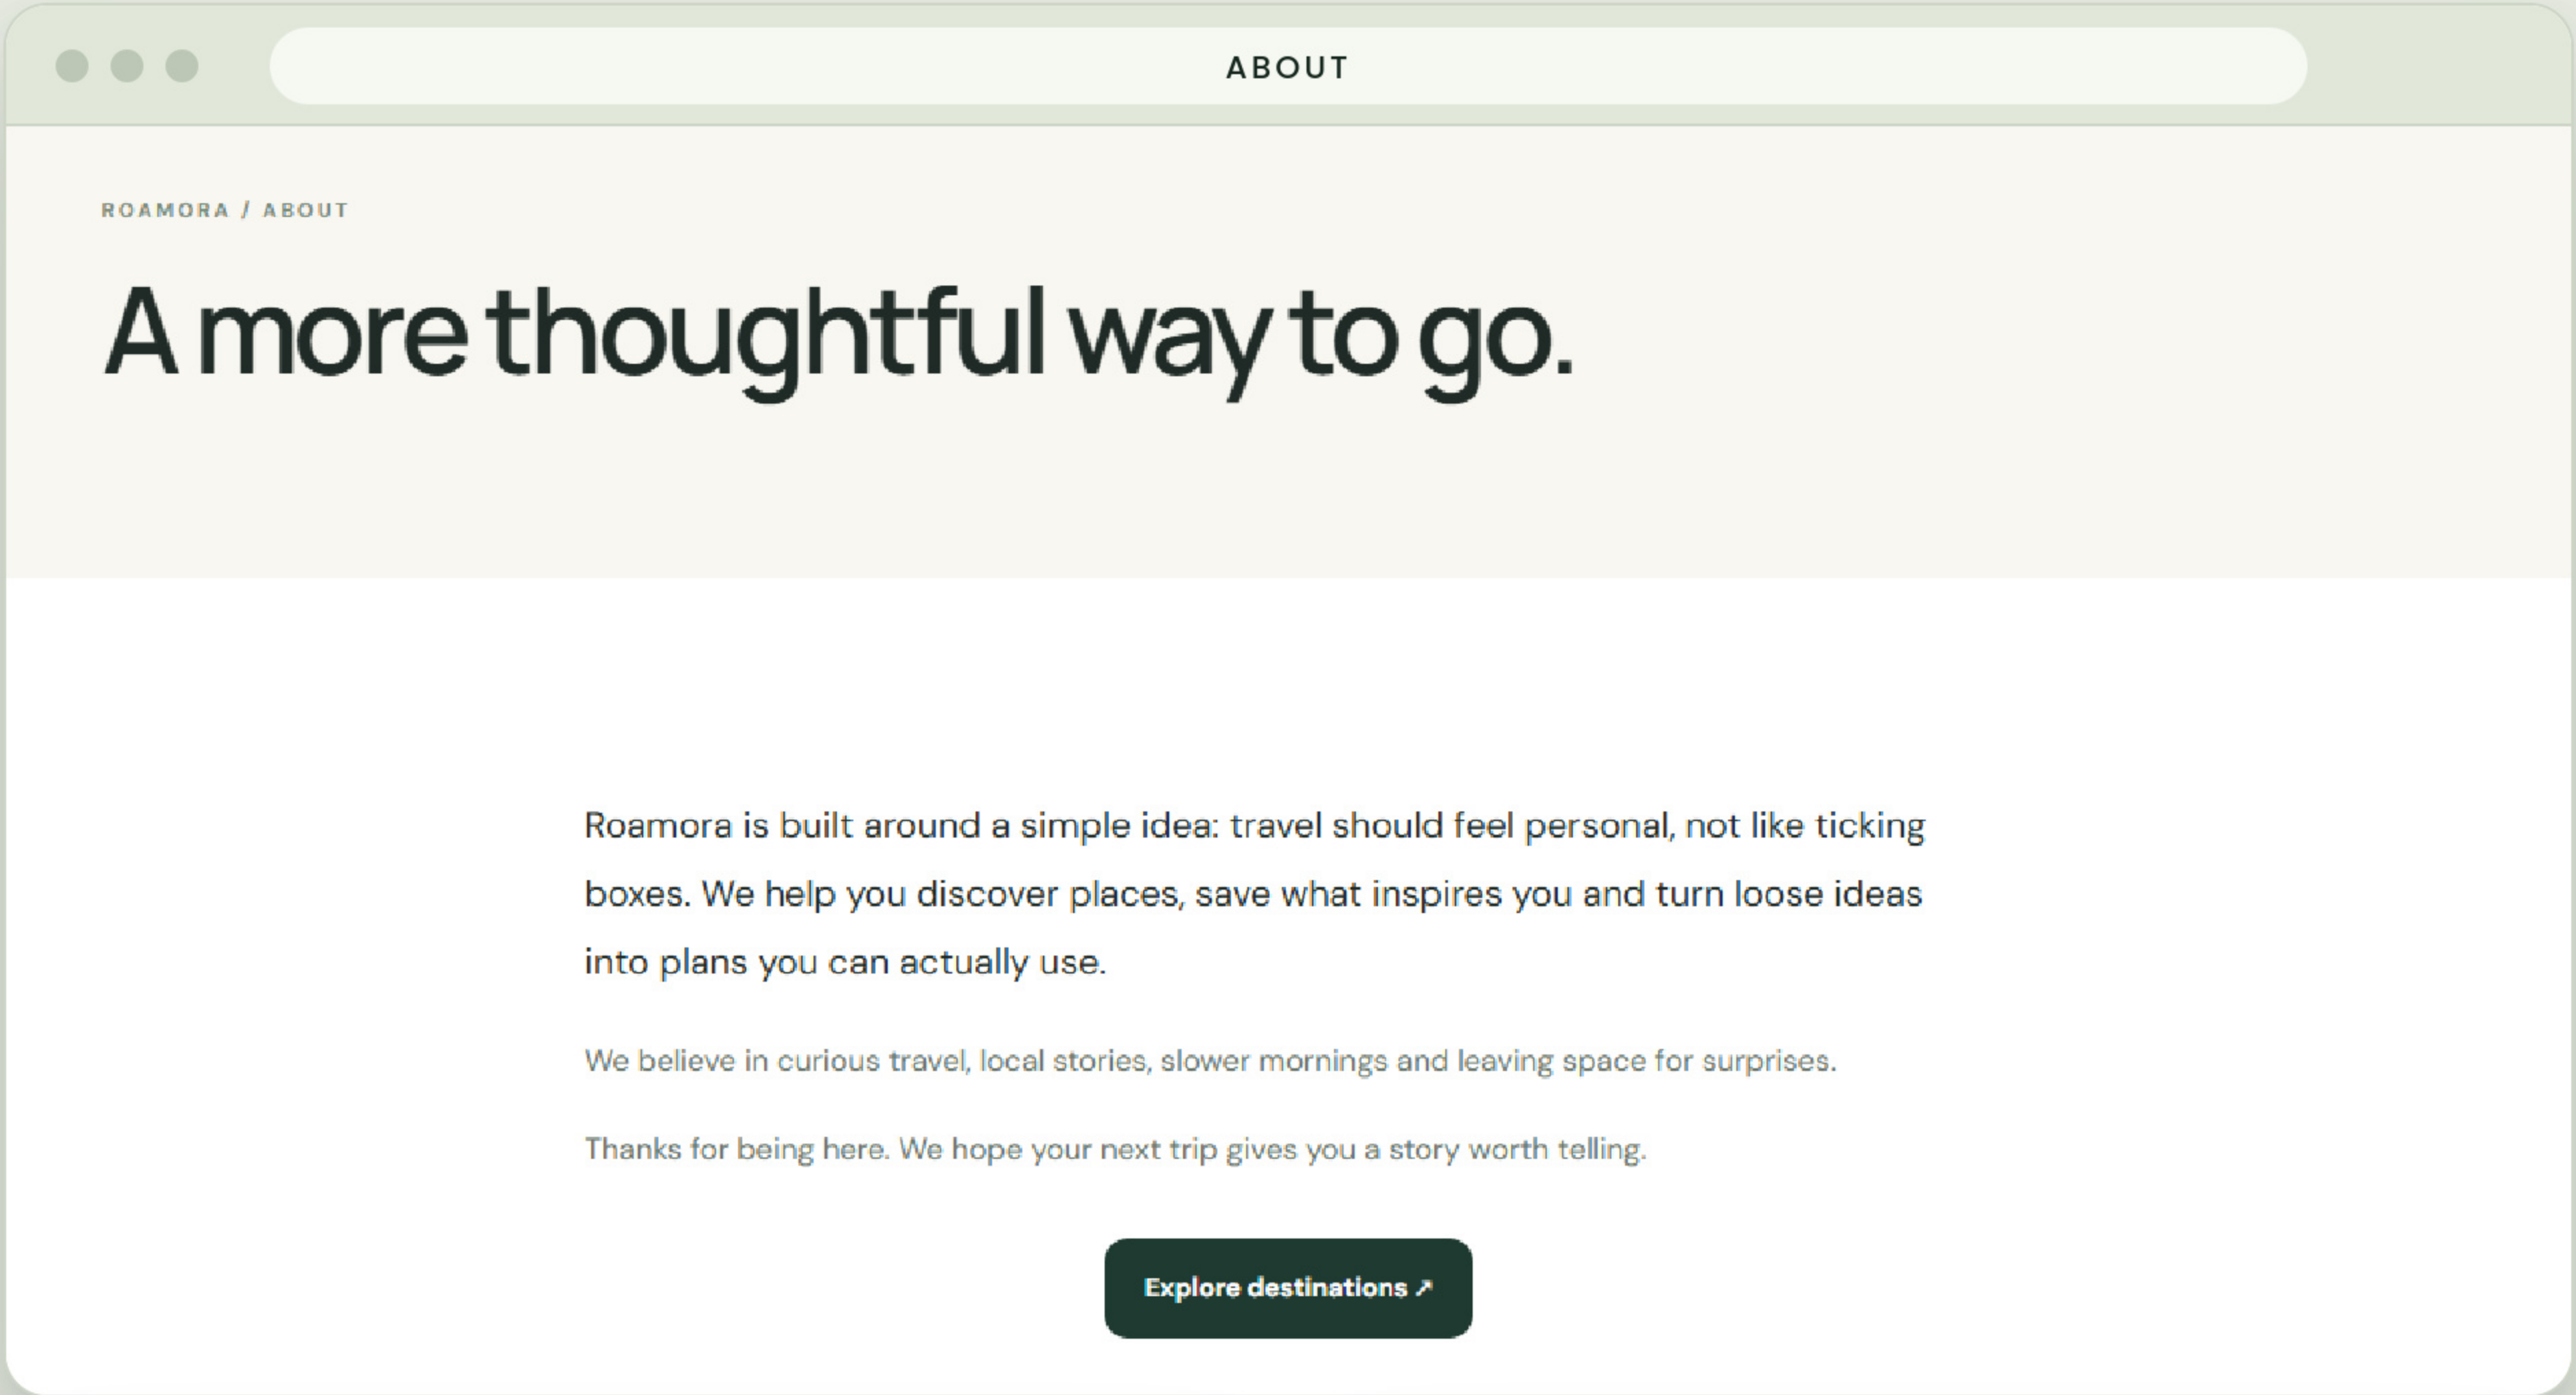

• Expandable questions

• Clear, honest answers

• Still have a question? CTA

Honest *info* pages

The story behind Roamora, a few simple ground rules and a clear privacy statement — each in the same calm, readable layout.

● Our story

● Simple ground rules

● Clear privacy

LET'S CONNECT

Let's build something like *this*.

Have a website or app idea? Let's turn it into a fast, polished, real product — designed with care and built to perform.
